ADMINISTRATIVE POLICY:
JVSG Consolidated Position Operational Requirements**

Policy Section	Issue(s)	Submitted by (Name/LWDB)	Policy Language Change	DEO Response	Authority
IV.B.a-b	If I'm a DVOP one week and I enroll a veteran into my caseload, the customer comes in the following week when I'm in LVER mode so now I can't provide my customer with DVOP services until the following week when I revert into their DVOP mode?	Carmen Woywod LWDB 24	No	There are no weekly restrictions on when services may be provided as a DVOP or LVER. Consolidated Position staff are encouraged to perform services in either role on an as needed basis. However, what the policy is stating is that we need to see Consolidated Position staff performing the function of both a DVOP and LVER at minimum, on a bi-weekly basis. For example, if we review the services of a Consolidated Position and they have only been conducting business services for three months, then the need for the Consolidated Position has not been demonstrated.	N/A
General	It would be a better formula to cost allocate hours like Boards do for other programs, that would make more sense.	Carmen Woywod LWDB 24	No	Title 38 U.S.C. does not allow JVSG-funded staff to be cost allocated.	Title 38 U.S.C.
IV.B.a-b	Does the person in the consolidated position need to alternate weeks between DVOP and LVER duties? Or does this mean that, at a minimum, the person in the position will need to perform some DVOP duties and some LVER duties during each two-week period? Or is it something different? Please clarify.	Donna Doubleday LWDB 19	No	No. Consolidated Position staff must serve in both capacities but may switch roles on an as-needed basis. Area's assigned Consolidated Position staff must demonstrate the need for such flexibility by ensuring staff operate in both capacities at least once every 15 days. Example: A Consolidated Position conducts business outreach (in the role of a LVER) to promote the hiring of veterans for 10 days since there has been no veteran traffic at the career center. In the next 5 business days,	

**COMPILED RESPONSES TO
ADMINISTRATIVE POLICY:**

JVSG Consolidated Position Operational Requirements

	It was initially our understanding that the person in the consolidated position would perform the duties of each role based on the needs of the local area.			that staff should serve a veteran in the role of a DVOP or conduct outreach in the local area to engage with SBE veterans (in the role of a DVOP).	
IV.B.a-b	I think this would be a great idea if you would just cost allocate their time just as we in workforce do based on the eligibility of the client and not base it on one week as a LVER and the next as a DVOP. This would provide the needed flexibility to better serve all of our customers.	Joe Paterno LWDB 24	No	Title 38 U.S.C. does not allow JVSG-funded staff to be cost allocated, or to operate on a part-time basis. The staff are not required to serve one week as a DVOP and one week as a LVER; they must simply serve in both capacities at any time during a 15-day period to demonstrate the need for the consolidated position.	Title 38 U.S.C.
