INTRODUCTION

July 22, 2014 marked the strong bipartisan passage of the federal Workforce Innovation and Opportunity Act (WIOA). This long-awaited, yet critical legislative reform is the first reform of the public workforce system in over 15 years. The Act took effect on July 1, 2015 charging local workforce development systems to “increase employment, retention and earnings of participants and to increase industry-recognized postsecondary credential attainment to improve the quality of the workforce, reduce welfare dependency, increase economic self-sufficiency, meet skill requirements of employers, and enhance productivity and competitiveness of the nation.”

This robust challenge of the WIOA for Polk County is a welcome refresher for the work that has already been done. In a local area where the county is larger than the state of Rhode Island and equal in size to Delaware, there is an ever-increasing need to address the labor market changes and workforce challenges of an increasingly diverse population. Every year, the Polk County workforce system engages thousands of residents who enter the doors of our career centers seeking new employment opportunities, increased wages, enhanced skills and more promising prospects for a better future.

Just as important as a labor force desirous of better career opportunities, businesses are concurrently seeking qualified workers who can sustain the company’s global competitiveness in an ever-changing economy. The workforce system is the crucial component that strategically fosters the critical connection between businesses and workforce talent in an effort to address immediate and future workforce needs. The fostering of strong collaborative partnerships has been at the core of what the local workforce development board does to ensure successful outcomes for both the jobseeker and the employer. CareerSource Polk remains poised to respond to the changing demands of the workforce, brought about by technological advances that lead to declining occupations, talent shortages as a result of the mass exodus of the largest working population from the workforce, and the increasing needs of new skills sets that address the innovations of a globally competitive business climate.

As the entire workforce system undergoes necessary changes to keep pace with new federal laws and the changing economy, CareerSource Polk will keep a close watch on

the pulse of Polk to ensure that our residents' needs are met through employment, transportation and education. Decreasing, but still higher unemployment rates among our youth, veterans, long-term unemployed, individuals with disabilities and ex-offenders continue to be a challenge for the region. CareerSource Polk will continue to form partnerships that will ensure service to these underserved populations so that we may enable members of these special populations to gain and retain full and sustainable employment.

We will continue to stay abreast of the legislative changes to maintain the status of Florida's Workforce System and remain competitive and business-driven.

Our focus remains the same: to ensure accountability for the work we do and the services we provide, while monitoring progress and performance, operating with integrity and implementing service delivery strategies that ensure the success of our workforce.

Forging ahead, CareerSource Polk will continue our primary focus of placing our citizens into employment. Expanded partnerships with employers and increased employer market penetration to ensure more businesses become aware of and use the workforce system is our #1 goal.

VISION FOR IMPLEMENTING THE WORKFORCE INNOVATION AND OPPORTUNITY ACT

Through the implementation of the Workforce Innovation and Opportunity Act (WIOA), CareerSource Polk maintains business-led, market-responsive, results-oriented and integrated workforce development system. The enhanced system fosters customer service excellence, seeks continuous improvement and demonstrates value by enhancing employment opportunities for all individuals, including those with disabilities. This focused and deliberate collaboration among education, workforce, and economic development networks will maximize the competitiveness of businesses and the productivity of its' workforce, thus increasing economic prosperity.

The Local Workforce Development Board's strategic vision for WIOA implementation will be realized by accomplishing these three goals:

- Enhancing alignment and market responsiveness of workforce, education and economic development systems through improved service integration that provides businesses with skilled, productive, and competitive talent and Floridians with employment, education, training and support services that reduce welfare dependence and increase opportunities for self-sufficiency, high-skill and high-wage careers and lifelong learning.
- Promoting accountable, transparent and data-driven workforce investment through performance measures, monitoring and evaluation that informs strategies, drives operational excellence, leads to the identification and replication of best practices and empowers an effective and efficient workforce delivery system.
- Improving career exploration, educational attainment and skills training for in-demand industries and occupations for Florida youth which lead to enhanced employment, career development, credentialing and post-secondary education opportunities.

This assessment allows the case managers to customize and personalize a plan of action to remove as many barriers the participant may have. The region firmly believes that each customer and situation is unique and when possible individualized attention and services are best delivered. Aside from the basic assistance available to our “global” participants such as, résumé preparation assistance, job search and referrals, job readiness workshops, access to internet, fax and copiers; there are specific options available to hard to serve populations.

Some of the services are:

- Comprehensive and specialized assessment of skill levels, and service needs
- Job search and placement assistance including workshops and referrals
- Provision of workforce and labor market information on in-demand industry sectors and occupations, and provision of information on nontraditional employment
- Provision of referrals and coordination of activities with other programs and services

ANALYSIS OF NEED AND AVAILABLE RESOURCES

(1) Please provide an analysis (or existing analysis pursuant to WIOA section 108(c)) of the regional economic conditions, which must include:

A. Information on existing and emerging in-demand industry sectors and occupations

CareerSource Polk is committed to ensuring that the services we provide properly and appropriately align with the needs of the business community. It is clearly understood that the best way to recognize and fulfill the needs of business is to know the characteristics of the local area and listen to the business community regarding what they are looking for in their workforce.

The total area of the county is approximately 2,010 square miles which makes it the fourth largest county in Florida, exceeded only by Dade, Palm Beach, and Collier counties. The total land area of Polk County is approximately 1,875 square miles.

Polk County has an estimated population of 666,149 as of January 2018. Based on the US Census Bureau Polk County Quick Facts, the county population is distributed as follows: 79.4% white, 15.8% black, Hispanic or Latino 21.1%, 2.1% reporting two or more races, 1.9% Asian, 0.6% native persons, 0.1% Pacific Islander, and Foreign born persons comprise 10.1% of the region's population. (Data retrieved from <https://www.census.gov/quickfacts/fact/table/polkcountyflorida/RHI225216#viewtop>).

Notable strengths for the region include the fact that logistically Polk County is the only Southeast location which offers two international airports within an hour's drive – Orlando and Tampa. It is intersected by Interstate 4, the Polk County Parkway, State Road 60 and Highway 27, and has easy access to Interstate 75 on the west and 95 on the east. Metropolitan Orlando-Kissimmee and Tampa-St. Petersburg, Clearwater located in adjacent counties, each have a cost of living index of 96, while metropolitan Lakeland has a cost of living index of 91.

Opportunities for improvement include the fact that among adults aged 25 or older, 15.4% do not have a high school diploma or equivalent. Polk County has the eleventh highest single-year dropout rate in Florida, 8.8% in 2015-2016. However, this rate has been

declining, down from 11.9% in 2012-2013. (Data retrieved from <http://www.fldoe.org/core/fileparse.php/7584/urlt/CohortDropoutRate15-16.pdf>).

Those holding a Bachelor's degree or higher comprise 19.5% of the region's population versus the state average of 26%.

Polk County's economy has been historically based on three primary industries: phosphate mining, agriculture and tourism. Today, phosphate mining, agriculture and tourism still play vital roles in the local economy. However, the county has successfully expanded and diversified its economic base in recent years. Polk County's central location within the large Florida marketplace has attracted numerous manufacturers and distribution centers in recent years. There are more than 440 manufacturers in the county, manufacturing a broad line of products – including food products, chemicals, paper and building materials and benefit from Polk County's logistics and distribution advantages.

Existing Demand Occupations

The majority of the top 15 existing demand occupations in our County are low-skill occupations characterized by relatively low wages and high rate of worker turnover.

The top five existing demand occupations are related to customer service and hospitality or involve manual work.

Combined food preparation and serving workers, including fast food is the top existing demand occupation, with 6,553 projected total job openings between 2017 and 2025.

Nursing Assistants is the only top 15 existing demand occupation that require technical training. The other occupations emphasize customer service or manual/clerical work.

One of the top 15 existing demand occupations is nursing assistants, which have a relatively high turnover rate and will continue to experience employment growth as a result of the increasing demand for healthcare services, driven by population growth and aging, expanding insurance coverage, and technological change.

Emerging Occupations

Knowing which occupations within industries are gaining the most new jobs and those that are the fastest growing helps workforce officials stay focused on training residents for jobs that will not only be available, but will assist economic developers in supporting growing businesses. If area employers cannot find the trained people needed to fuel their growth, there could be an adverse effect on the area economy. At the same time, occupational analysis assists CareerSource Polk and its educational partners in planning for the types of programs needed.

The majority of top emerging occupations occur in the healthcare (six of top 15) and professional services (four of top 15) industry sectors, which follows the overall Florida statewide distribution of top emerging occupations.

In 2016, one of the healthcare industry sector top emerging occupations was neurodiagnostic technologists, who are imaging and scanning specialists responsible for obtaining recordings of patients' brain and nervous system function by use of complex diagnostic equipment. Over the course of two years, this occupation has transitioned from the top 15 as did biochemical engineers, also listed in 2016 as one of the top emerging occupations under professional services.

Transportation, storage, and distribution managers and taxi drivers and chauffeurs are the top two emerging occupations in the logistics and distribution industry sector. Transportation, storage, and distribution managers plan, direct, or coordinate logistical activities in accordance with organizational policies.

In 2016, the growth in the construction industry sector of the emerging occupation first-line supervisors of construction and extraction workers was related to increasing residential and commercial use of solar photovoltaic or thermal systems. Neither the construction industry sector nor energy-related sales representatives and geothermal technicians are in the top emerging occupations as was the case in 2016.

B. The employment needs of employers in those industry sectors and occupations. WIOA §108(b)(1)(A)

Of the fastest growing occupations and the occupations gaining the most new jobs, more than 50% of the occupations require education beyond a high school diploma. CareerSource Polk uses a variety of methods to identify needed job skills. We work with employers and industry related organizations to identify worker shortages in specific occupations as well as identifying challenges facing businesses in filling jobs. Work readiness skills are the number one concern for area businesses. To address those concerns, the information is communicated to our education and training partners in order to aid them in crafting curriculum and developing programs that meet the current and future business needs.

Workforce needs of the businesses are also identified through staff and Board involvement on various committees and taskforces throughout the county. Through this engagement, board members are encouraged to utilize workforce services and provide constructive feedback regarding any opportunities for improvement needed in our system delivery.

Through the use of the Regional Targeted Occupations List (RTOL), employers, local economic development and educational partners, and other industry representatives have the opportunity to review, comment and make recommendations for changes at any time. Requested changes are then presented to the Workforce Performance Council (WPC) for review, including local and state economic development priorities and linkage to local job opportunities. Additionally, the WPC considers the region's projected employment and earnings outcomes. The WPC then generates its' recommendations for the final RTOL.

Priority for training is given to occupations in the regionally identified Targeted Industry Sectors:

- Healthcare and Life Sciences
- Logistics and Distribution
- Bio-fuels and Renewable Energy
- Niche Manufacturing [Aviation, Food and Beverage, Plastics, and Building Component Design]
- Agriculture and Information Technology
- Florida's targeted and infrastructure industries area also considered.

(2) Please provide an analysis of the knowledge and skills needed to meet the employment needs of the employers in the region, including employment needs in in-demand industry sectors and occupations. WIOA §108(b)(1)(B)

Per labor market statistics, in 2014, the educational attainment level of Polk County workforce participants from 25 years and older with a high school diploma or higher was at 83.1 percent. Polk has seen improvement in educational attainment since that time. Now, Polk County workforce participants from 25 years and older with a high school diploma or higher is 84.7%.

However, we are still seeing a trend of employers in the area of healthcare and education which are extending their recruitment efforts outside of the County, looking for specific skills, education and experience not available in Polk.

CareerSource Polk partners with employers to identify the skills and competencies necessary to attain self-sustaining employment and to offer high quality training to individuals to obtain those skills.

- (3) Please provide an analysis of the workforce in the region, including current labor force employment (and unemployment) data, information on labor market trends, and the educational and skill levels of the workforce in the region, including individuals with barriers to employment. Education and Health Services

Education of the Workforce

In 2017, the educational attainment level of Polk County workforce participants from 25 years and older with a high school diploma or higher was at 91 percent, followed by those with a bachelor's degree or higher at 32 percent. Only 9 percent of workforce participants had attained less than a high school diploma or equivalent.

Overall, the county faces a skills mismatch. High skill/high wage positions are difficult to fill, while the county unemployment continues to go down. With only 9% of the population without a high school diploma, employment opportunities are greater than they have been in the past but still limited for those, and meeting pre-requisites for educational/training programs can continue to seem unattainable.

Individuals with criminal backgrounds have found it harder than most other sub-groups in finding employment, even when their qualifications meet the employers' needs. Because a prison record or felony greatly reduces prospects in the job market, even individuals with in demand skills seem to have fewer opportunities to interview with a prospective employer whether or not the charges legally or illegally make them ineligible for a job opening.

- (4) Please provide an analysis of the workforce development activities (including education and training) in the region, including an analysis of the strengths and weaknesses of such services and the capacity to provide such services, to address the identified education and skill needs of the workforce and employment needs of employers in the region. WIOA §108(b)(1)(D) and §108(b)(7)

The implementation of WIOA provided a new opportunity to fully evaluate the workforce development system, policies, procedures and strategies to better meet the skill needs of the workforce and the talent needs of employers. The evaluation also allowed for the identification of strengths and weaknesses as listed below:

Identified areas of strengths include:

- a. Strong relationships among board executive leadership allowing for collaboration on numerous initiatives and grant applications and frequent sharing of information and best practices.
- b. Diverse secondary and postsecondary training opportunities in the State.
- c. Logistically, Polk County is the only Southeast location which offers two international airports within an hour's drive – Orlando and Tampa. It is intersected by Interstate 4, the Polk County Parkway, State Road 60 and Highway 27, and has easy access to Interstate 75 on the west and 95 on the east. Metropolitan Orlando-Kissimmee and Tampa-St. Petersburg, Clearwater located in adjacent counties, each have a cost of living index of 99.1, while metropolitan Lakeland has a cost of living index of 91. Our 3.5 million-strong talent pool is supported by world-class educational institutions like Florida Polytechnic University and the Polk State Clear Springs Advanced Technology Center. Both institutions offer rigorous, industry-focused courses of study that leave students fully prepped for career success before their graduation caps hit the ground.

- d. Two fully integrated one-stop career centers to serve a wide variety of customers including specific populations and programs (WIOA, WT, SNAP, MSFW, Veterans, TAA, Wagner-Peyser, RESEA). A service model to ensure a true seamless service that allows for staff to serve any customer who walks through the door in a more effective, comprehensive and efficient manner.
- e. CareerSource Polk encourages and promotes the attainment of high skill/high wage jobs through the Individual Training Account System, designed to equip eligible individuals to enter the workforce and retain employment. The use of the Regional Targeted Occupations List (RTOL) serves as the catalyst for establishing approved occupational training programs in the County, emphasizing “in demand” occupations.

Opportunities for improvement include:

- a. The fact that among adults aged 25 or older, still 9% do not have a high school diploma or equivalent. Polk County has the eleventh highest single-year dropout rate in Florida, 13.6%. Those holding a Bachelor’s degree or higher comprise only 19.9% of the region’s population versus the state average of 32%.
- b. Increasing the share of working-age adults who have postsecondary education or industry-recognized credentials.
- c. Development and utilization of contextualized literacy programs are crucial to helping TANF/SNAP Able Bodied Adults without Dependents (ABAWD) clients and will be a component of alignment of educational services.
- d. Population is growing older. The number of Polk county residents age 65 and over was 133,230 in 2016 (20%). The state’s percentage of those aged 65 and over is 117 percent; this is largely a by-product of the aging of the Baby Boomers population.
- e. Workers from the front-end of the baby-boom generation are moving into their 60s and, beginning in 2011, were expected to retire from the workforce in large

numbers. Due to the recent economic conditions, many chose to remain employed, thus complicating job opportunities for younger workers. Inevitably, baby-boomers will leave the workforce in large numbers very soon, taking with them knowledge and experience that kept industries growing and prosperous.

- f. Growing immigrant population with language barriers.

Workforce strategies must also take into account the skills and abilities of individuals with barriers to employment, including individuals with disabilities, veterans, ex-offenders, Temporary Assistance for Needy Families (TANF) recipients and those who do not speak English well or at all, to meet present workforce needs and future demand.

- Customers are determined to be eligible in accordance with the priority system or are determined to be a candidate directed to other special programs.

(6) Please provide a description and assessment of the type and availability of youth workforce investment activities in the local area, including activities for youth who are individuals with disabilities. The description and assessment must include an identification of successful models of such youth workforce investment activities.
WIOA §108(b)(9)

The Local Board provides high-quality services for all youth and young adults, beginning with career exploration and guidance, continued support for educational attainment, opportunities for skills training in in-demand industries and occupations. Services are provided to youth ages 16 to 24 who reside in Polk County. We qualify and assist youth in gaining academic and employability skills needed to become successful as they transition into adulthood.

Career Source Polk will conduct training for youth staff, to better understand the different types of disabilities, how to handle issues of disclosure and disability identification with sensitivity at program intake, and how to determine the most effective mix of services and referrals to make when a disability is identified. These trainings will be presented by subject matter experts and include such topics as: federal, state, and local disability policies; identifying barriers/hidden disabilities; disability awareness and etiquette; website accessibility; providing reasonable accommodations; assistive technology accommodations and resources; Section 503 for federal contractors; and simulation training. Vocational Rehabilitation (VR), Mental Health Centers, and the Department of Correction will also be invited to attend these events and asked to present on relevant topics.

Within the youth facilities, staff will be trained to follow established procedures to ensure inclusion and compliance. Starting with intake, customers should be asked if any assistance is needed and if they have a disability, once they are assured that their response is voluntary and will be kept confidential. Customer orientations should

include a discussion of Equal Opportunity (EO) and the right to file a complaint. Following orientation, services should be reviewed with the client by determining the client's eligibility and need of services in an integrated setting. For example, not all customers should be automatically referred to VR; only those that appear to be eligible and in need of VR services. Ongoing training will need to occur to educate staff on the services, funding, and the resources available to determine when it is appropriate to refer to partner agencies and possibly blend funding. Agency partners will seek to coordinate efforts and leverage funding between partner agencies to meet the employment and training needs of the customer. Memorandums of Understanding may be developed or reviewed, as necessary, to outline the responsibilities of each partner.

Workforce Development Boards, through the IN-DEI grant, may continue to operate as Employment Networks (EN) and either offer benefits counseling in-house or work with their local Work Incentives Planning and Assistance (WIPA) representative to provide benefits counseling to Social Security beneficiaries receiving SSI/SSDI. WDBs not currently operating as an EN will receive information and training about the benefits of the Ticket to Work Program and how to become an active EN.

Staff will also be trained to use multiple resources and tools to ensure accessibility to services. One such resource that staff will be encouraged to use is the Guidepost for Success, which is a set of key educational and intervention strategies for youth, including those with disabilities. Additionally, One-stop assessments, Individual Service Strategy (ISS), and Academic and Career Planning (ACPs) tools will continue to be utilized to identify career paths, barriers to employment, training or service needs, and employability skills. These assessments will also assist with identifying hidden disabilities and the potential need for accommodations.

CareerSource Polk will implement policies to support accessibility to services throughout the state. Development of a Reasonable Accommodation Policy will be explored that requires the WDBs to formally track when a reasonable accommodation is requested and whether it is approved or denied. This policy may include, but will not

be limited to: the process for handling and tracking reasonable accommodation requests; examples of reasonable accommodations (i.e., frequent breaks, ensuring a quiet testing environment, reading the test aloud); providing training and information regarding One-stop procedures; and a process for notifying the state regarding the approval/denial of the request(s). The state will track both informal and formal complaints received in the One-stop offices through the State's Quarterly Customer Service Record Log, This will help the state identify any patterns for alleged discrimination of individuals with disabilities.

LOCAL WORKFORCE DEVELOPMENT AREA VISION AND STRATEGIC GOALS

- (1) Please provide a description of the local board's strategic vision and goals for preparing an educated and skilled workforce (including youth and individuals with barriers to employment) including goals relating to primary indicators of performance described in WIOA section 116(b)(2)(A) in order to support regional economic growth and economic self-sufficiency. WIOA §108(b)(1)(E)

CareerSource Polk's strategic vision and goals for preparing an educated and skilled workforce seek to engage not only our business, education and economic development partners, but to also recognize value and necessity recruiting and retaining a qualified team of workforce professionals who are willing and capable of carrying out our mission. Our primary mission and vision at CareerSource Polk is to be the innovative leader to ensure and sustain a quality workforce for today and the future. The realization of this mission begins with the level and caliber of staff we employ. With that mission in mind, our strategic goals include the following:

- **Staff Engagement Goal:**

To recruit, effectively train, and retain a team of workforce professionals who are aware of, clearly understand and are motivated to embrace our mission by demonstrating a commitment to such. To accomplish this mission, training and development is our number one priority. A critical component of staff development and training includes not only understanding the importance of meeting the negotiated performance measures, but also recognizing the importance of quality performance as it relates to servicing each and every customer we encounter and helping them to meet their individual employment goals.

We place a significant amount of emphasis on assessing staff needs, training to address any gaps, evaluating the effectiveness of training, and conducting quality assurance reviews that include the review of every single customer's case to ensure quality touch points and service levels that seek to get each customer to their final destination of self-sufficient employment.

We believe that a well-qualified and appropriately trained workforce for our very own workforce system has a direct impact on (1) the types of goals set by and with our clients and, (2) each client's motivation to achieve a greater level of education and/or training that will result in higher wage jobs. Helping clients reach their full potential through education and training will also strengthen employability skills, increase placement rates and yield higher levels of job retention.

- **Board Engagement Goal:**

To recruit, educate, and engage board members who are willing to invest the time necessary to understand the workforce system and clearly envision the alignment of workforce, education and economic development for the sole purpose of ensuring a qualified workforce. Board members engage by bringing their expertise to the table to develop strategies and policies that are designed to aid workforce clients in meeting their full potential with regard to career pathways, education and training opportunities to realize those pathways, and career guidance that supports their efforts to obtain and retain employment that will ensure job satisfaction, retention, and self-sufficiency.

As a single county region with 17 municipalities, our goal is to be involved with all of our chambers of commerce and economic development organizations via our workforce system leadership staff and/or board members so that we know firsthand the skills and talent needed to fulfill our businesses workforce needs and convey those needs to appropriate partners so that our missions are aligned.

- **Education & Training Partners Engagement Goal:**

Our education and training partners are essential to the success of our mission. The Board is fully aware of the value of our education partners and the need to ensure that training and education are closely aligned with the workforce needs of our business partners. As stated in our mission, one of our primary goals is to ensure an educated (qualified) workforce. Our board works diligently with our education partners to increase the level of graduates who obtain their high school diploma or GED in order to expand workforce and training opportunities.

We partner with both education and economic development partners to enhance placement efforts of our local college graduates into careers that align with their education and goals, all the while, fulfilling the talent needs for our business community. The board works to ensure ongoing planning, communication, and strategic alliances with our education and training partners that will result in the successful placement of job seekers into jobs that are a good match for the business needs, thereby yielding greater levels of employer and employee satisfaction and retention.

- **Business Partners Engagement Goal:**

Our goal to fully engage business partners in our planning and training efforts seeks to ensure that our business’ needs are being met. COORDINATION OF SERVICES

(1) Coordination of programs/partners: Please describe how individualized career services will be coordinated across programs/partners in the one-stop centers, including Vocational Rehabilitation, TANF and Adult Education and Literacy activities. Specify how the local area will coordinate with these programs to prevent duplication and improve services to customers. TEGL 3-15

Partnerships provide the framework necessary to carry out the strategic imperatives. CareerSource Polk will continue to work with core and partner programs to leverage resources by developing and maintaining key partnerships with the Polk County Public Schools – Adult Education, Vocational Rehabilitation, Health Department offices, Department of Juvenile Justice, representatives of targeted industries, chambers of commerce, trade associations; and economic development entities, public and private educational institutions, community and faith based organizations; organized labor; the area’s local elected officials; and state agencies, including Department of Children and Families.

We work with partners through Memorandum of Understanding (MOU) which sets forth the terms for cooperation and consultation between the partner and the Board with regard to the workforce program services to be delivered by staff in a coordinated, seamless and customer friendly manner within the local one-stop career centers.

A partner’s work group is established and meets on a regular basis to consider ideas, discuss agency initiatives and goals and how partner agencies can help in achieving them. The group’s main focus will be to maximize the quality of supported employment service delivery, ensure a comprehensive, efficient and effective referral process and the coordination of intensive vocational services. We will continue to work to ensure career centers are available to serve all job seekers regardless of obstacles to employment, level of need or degree of career development.

CareerSource Polk provides a common service flow for customers starting when a jobseeker visits our website, utilizes the Mobile Unit, or enters one of the sites. Each location, physical and virtual, provides information on the various services offered, delivers an orientation, and gives the jobseeker an opportunity to take advantage of services through registration. Once a jobseeker visits CareerSource Polk's website or a physical location, they start benefiting from our services including those provided by our local staff and partner staff (DEO, School Board, AARP, Job Corps, etc.) Orientations and intake services can begin online or at the center or mobile unit. On occasion, we bring WIOA services to our training providers to save customers an additional stop at one of our centers.

A jobseeker may fall into one or more categories (e.g., WIOA, WT, Veteran, MSFW, Dislocated Worker, etc.). Regardless of how the jobseeker is classified in terms of service or funding needs, our fully integrated staff is available to assist the customer with all the services. A staff member is assigned to work with the customer throughout the process, including referral to a one-stop partner if needed. The staff member is responsible for delivery of career services and the coordination of trainings, OJT, paid and unpaid work experience, etc., through programs like WT and WIOA. They are also responsible for job placement and retention. Our customers rely on this integrated model to create a seamless, easy-to-use experience that actually delivers on its promise to ensure and sustain a quality workforce for today and in the future.

The policy states:

Competitive Proposals – the determination to seek competitive proposals may be made by the President & CEO or by the Board. The President & CEO or the Board will direct Board staff to prepare a Request for Proposals (RFP) to detail the goods or services being sought, the amount the Board intends to spend, the proposal content instructions and the proposal review and award criteria. In determining the amount anticipated to spend, the staff person responsible for preparing the RFP will prepare a cost estimate. This cost estimate will take into consideration such things as:

- What other workforce regions are paying for similar services
- What the Polk County Workforce Development Board is paying for similar services
- Historical data as to what has been paid in the past for similar services, adjusted for inflation and local conditions

Each RFP shall make clear to potential offerors that the issuance of the RFP does not commit the Board to award a contract, pay any costs associated with the preparation of a proposal, or to actually procure the requested service. Each RFP shall also reserve the right of the Board to accept and/or reject all proposals received and to negotiate with all qualified sources.

Once the RFP is fully developed, a legal notice detailing the scope of the RFP, how and when to propose, a contact person at the Board, and other pertinent information will be prepared and published, using the Purchase Order process described above. RFP's will also be advertised in Florida Administrative Weekly and posted at the Board's website, www.careersourcepolk.com.

Prior to the release of each RFP, the President & CEO will appoint a team of at least three (3) Board members and/or staff to review the proposals received. Staff and Board members will be selected based on their expertise in the services being sought and/or the procurement process. These staff will be provided with copies of the RFP and any related documents.

The Board also maintains a current listing of all agencies and organizations that may be potential providers of goods or services solicited. Agencies and organizations on that list will be direct mailed a memorandum announcing the availability of the RFP and a general description of goods or services being sought. The announcement will direct them to call the Board or visit the Board's website to access the full RFP.

A proposer's conference will be held in conjunction with each RFP issued. The conduct of that conference is the responsibility of the staff person who developed the

RFP. This responsibility includes a requirement for the production and distribution of conference minutes. Conference minutes made available to all attendees and any other interested parties through the Board's website and copied to the three (3) staff proposal reviewers.

Once an RFP is issued, designated Board staff will be available to answer technical questions only. All potential bidders are required to attend the proposer's conference as the primary venue to have questions addressed.

As proposals are received, they will be date and time stamped on the outside of the envelope/box in which they are received to ensure timely submission. On the specified date at the specified time and location, the Board will open the proposals received. Each proposal's receipt will be recorded on a log that provides the name of the RFP at the top and the name, address and contact person for each proposal opened. Originals will be filed with the Vice President of Operation's office. Copies will be distributed to each member of the review committee.

All proposals meeting the following criteria will be reviewed:

- Submittal on or before the deadline specified
- Submittal in the format specified
- Proposal is responsive to the RFP

Staff reviewers will read and rate each proposal independent of one another, using the objective rating criteria contained in the RFP. Rating criteria may include, but will not necessarily be limited to:

- Past performance of the proposer in the services solicited
- Fiscal accountability of the proposer
- Ability of the proposer to meet performance objectives
- Reasonableness of the proposed costs
- Quality of the services proposed
- Qualifications of staff to deliver the proposed services
- Proposer's demonstrated ability to serve targeted populations, if any

Once reviewers complete their independent scoring of the proposals, they will meet and finalize the proposal rating process. Based on their independent rating of each proposal, the team will formulate written recommendations to the President & CEO for presentation to the Board. The President & CEO will schedule the recommendations for consideration to the appropriate committee of the Board in a timely manner.

The Board Committee may elect to accept, accept with modifications or reject the staff recommendations. Where a recommendation to fund is made, the Committee Chair will request that the Executive Committee place the recommendation on the agenda of the next Board meeting. The Full Board then either accepts, or accepts with modifications, or rejects the committee recommendation. Board approval constitutes staff authorization to proceed with contract negotiations.

Actual funding of any proposal is contingent upon:

- Successful negotiation with the service provider
- Acceptance by the service provider of the Board's contract terms and conditions
- Reference checks, as required

In addition, prior to the execution of each contract, Board staff must determine that each service provider meets the following requirements:

- Has adequate financial resources or the ability to obtain such
- Has the ability to meet the performance goals, program specifications and conditions and to do so at a reasonable cost
- Has a satisfactory record of past performance
- Has a satisfactory record of business ethics and fiscal accountability
- Has the necessary organization, experience, accounting and operational controls, as well as the technical skills to perform the contracted work

The Board's Vice President of Operations or other designated staff person will proceed with contract negotiations as directed by the Board. Negotiations will include the establishment of performance standards and the conduct of a full price analysis. Where profit is allowable, it will be negotiated separately from the line-item budget.

The amount of profit allowed will be associated with contractor risk and reasonableness considering the work being performed.

The final agreed-upon contract document will be presented to the President & CEO for review and approval. The President & CEO has signatory authority for all contracts. Once fully executed (signed and dated by both parties), the Vice President of Operations will issue an Authorization to Proceed memorandum to the contractor.

Competitive procurements will be fully documented. Procurement files will be established and maintained by the Planning and Contracting Office and will include, at a minimum:

- Solicitation (cost/price estimates, the RFP, legal advertisements and other announcements, bidder's list and proposer's conference minutes);
- Proposals submitted (full submission of each proposal, whether selected for funding or not, along with transmittal attachments, staff summaries of proposals, if any);
- Evaluation of Proposals (completed rating sheets – in ink and signed by each rater – summaries and tabulations of ratings and staff recommendations)
- Board actions (record of committee and/or full board actions, copies of letters sent to each proposer announcing Board actions; and
- Contract negotiations (documentation of the significant history of the negotiations, documentation of the cost/price analysis conducted).

The Board will maintain, for three (3) years, those written records specified above. This extension period will be extended until such time as all audits, claims and litigation, if any, have been fully resolved.

- (5) System Improvement:** The state's certification policy has not been finalized by the state workforce board. Following its completion and issuance, please describe any additional criteria or higher levels of service than required in order to respond to labor market, economic and demographic conditions and trends in the local area. WIOA §108(b)(6)(A)

The Board will continue to follow the state's certification policy.

- ✓ the expenditure of a minimum of 75 percent of funding on services to out-of-school youth;
- ✓ the expenditure of 20 percent of funding on the provision of work experiences for youth, including those with significant barriers to employment;
- ✓ the development of strong career pathways for youth;

- ✓ the co-enrollment of eligible youth into appropriate partner programs and activities, including TANF;
- ✓ the provision of the 14 required youth program design elements;
- ✓ the provider's past record of success with the retention of youth participants in education, training activities, or unsubsidized employment during the second and fourth quarters after program exit; and
- ✓ a detailed description of the local board's negotiated performance goals with the commonwealth for which the provider has a role in meeting and/or exceeding

The Youth program is designed to guide eligible young adults, through high-quality case management, toward educational attainment which includes career guidance and exploration. Youth services allows for the provision of summer and/or year-round work experience opportunities such as internships and pre-apprenticeships, and skills training along a career pathway for in-demand industries and occupations, including supportive services. The ultimate goal for program participants is either advancement into post-secondary education or the attainment of employment with a family-sustaining or self-sustaining wage. Youth program services are prioritized for out-of-school youth (OSY) and youth with significant barriers, including disabilities, pregnant or parenting, or those subjected to the juvenile/adult justice system.

At the beginning of program year 2013-2014, the Local Workforce Development Board was authorized by DEO to provide direct services to the youth in Polk County. The framework of our youth program is in compliance with the 14 program elements required on §681.460 of the proposed WIOA regulations.

The funds allocated to our local area are allocated to serve eligible in-school and out-of-school youth. While in transition to WIOA, our primary goal is to serve out-of-school youth. Understanding that the work experience is a critical WIOA youth program element, the Local Area has placed significant emphasis in providing work experience for OSY, in addition to the Summer Youth Employment Program.

In-house services provided through state waiver include:

- Recruitment and Outreach. Conduct activities, including outreach to local government facilities, non-profit and faith-based organizations that provide support services to disconnected youth and young adults; including the use of word-of-mouth referrals, and social media platforms. Other suggested recruitment strategies may include: Visiting low-income communities and neighborhoods, knocking on doors, and speaking to friends, families, and young adults about available services and opportunities.
- Designing a program application process that is easy to complete by removing as many of the administrative hurdles as possible.
- Creating an online youth friendly orientation that is accessible through CareerSource Polk website

Objective assessment of academic level, skills level, and service needs of each participant would include:

- Test of Adult Basic Education – is designed to effectively assess both the knowledge and skills of adult learners
- CareerScope – is a computerized career assessment reporting system that measures both aptitude and career interest to help adults begin the career or educational planning process

Development of service strategies for each participant to include:

- Customized career pathway plan
- Addressing barriers
- Setting goals and activities
- Documenting achievements / credentials
- Notating academic progress

Engagement: Many disconnected young adults face challenges and life obstacles that result in the cycling in and out of program services. Such challenges may include: periods of homelessness, issues with the criminal justice system, pressures to provide for their families, and substance abuse, among others.

- Recognizing the unique hardships of each individual and working to establish trust between participants and staff, we must create an atmosphere where participants feel staff is invested in their success.
- Once a participant is enrolled staff must communicate regularly and effectively. Explain the program's available services and activities, the expectations of the participant, and any available support services that may be necessary.
- Set achievable goals with the participant early in the process and communicate the status of progress towards meeting those goals often.
- Placing young adults in cohorts allows individuals to move through the program and receive services with others. Participants often become friends and gain a sense of togetherness and accountability within the cohort. Such engagement may also open the door for young adults to take a leadership role, such as tutoring other participants, giving presentations, etc.
- Ensure that supportive services are made available to participants to help remove barriers that would prevent them from continuing with the program.
- If an individual leaves the program, the career coach will remain in contact with that individual and encourage re-engagement through phone calls, texts, social media, or in-person visits at their 'hangouts' or homes.

Participants will have an opportunity to take advantage of work experience or community service activities which will encourage the following:

- practical experience
- workplace skills
- increase self confidence
- increase their understanding of the work involved in a particular field
- develop a greater understanding of work life issues.

A. **Definition of the term “a youth who is unable to compute or solve problems, or read, write, or speak English at a level necessary to function on the job, in the individual’s family, or in society.”** Describe how the local board defines whether a youth is unable to demonstrate these skills well enough to function on

the job, in their family, or in society and what assessment instruments are used to make this determination. 20 C.F.R. §681.290

CSP's WIOA Youth Program defines "A youth who is unable to compute or solve problems, or read, write, or speak English at a level necessary to function on the job, in the individual's family or in society" as youth determined as basic skills deficient, documented as having a disability or considered limited English proficient.

As part of the program eligibility, students are assessed through TABE tests to determine level of knowledge and comprehension of the English language. Through this assessment, a student scoring below a 9th grade level would be identified as basic skills deficient.

Basic Skills Deficient – CSP will conduct a comprehensive assessment of the youth using the TABE assessment during eligibility determinations. The TABE assessment identifies the educational levels for a participant and determines whether an individual is basic skills deficient in either reading or math or both.

Documented disability – youth may submit a copy of an Individualized Education Plan, a letter from a school official, counselor, teacher, case manager, social service worker physician, or other acceptable individual or entity that states the youth has a diagnosed disability, which serves as a barrier to be able to function on the job, in the individual's family or in society.

Limited English Proficient – youth that are considered limited English proficient, as evidenced through self-attestation, conversation or assessment (formal/informal) will be considered in this category. Limited ability to read, write, or speak English at a level necessary to function affects the customer's ability to obtain training (including work-based training) and employment where the ability to effectively communicate verbally or in writing is a requirement.

Local job orders, preferred employers, and training providers will be used to determine whether the ability to communicate in English is a necessity to successfully complete training and/or work assignments.

Nearly one-fifth of Polk County's population speaks a language other than English in the home. To assist individuals with limited English proficiency, bi-lingual staff is available, partnerships are developed with organizations, which provide multi-lingual services, and staff receives training in cultural awareness. Program materials printed in multiple languages are also available for distribution.

The region partners with organizations such as Heart to Heart Community Enrichment (Creole) and Farmworkers Program (Spanish) that have staff that can assist in translating or providing services. AIDescso the region is currently translating program FACT sheets in Spanish and Creole.

The region will also take into consideration the recommendation to seek for an interpreter to provide services to customers that speaks a language other than Spanish or Creole.

B. Definition of “requires additional assistance.” Describe how the local board defines the term “requires additional assistance” used in determining eligibility for WIOA-funded youth programs. 20 CFR §681.300

- CareerSource Polk has identified the following definition for youth needing additional assistance:
 - as defined by USDOL to include: juvenile offender, pregnant or parenting teen, high school dropout, youth currently out of school, homeless; and/or
 - is disabled; and/or
 - An individual who has no work experience or limited work experience; or
 - Is at risk of dropping out of high school (school districts recommends to place this youth into dropout prevention programs conducted within their schools). Based upon a youth's age, he/she should be at a certain grade

or grade level. As an example, if the youth is not in the 11th grade based upon his age, but is in the 9th grade, he/she could be deemed as “at-risk of dropping out of high school”. If the youth is not at a reading or math grade level consistent with his actual grade enrollment, than he/she could be in need of “additional assistance” and at-risk of dropping out of school.

Not more than five percent of the ISY newly enrolled in a given program year may be deemed eligible based on the “requires additional assistance to complete an educational program or to secure or hold employment” criterion.

Documentation may include, but are not limited to, legal records (for the offender), medical records (for the pregnant teen and the disabled), and school records (for the high school dropout and the disabled). For homeless youth, documentation could include written verification from an individual or agency providing temporary assistance, written statement from Social Security Agency, or an applicant statement/self-attestation, in limited cases.

REGIONAL PLANNING ANALYSIS

The Workforce Innovation and Opportunity Act (WIOA) provides for a new regional planning process designed to promote alignment with economic development and education, improved services to employers, workers and job seekers, improved performance in the delivery of workforce services and more efficient delivery of services through coordinated administrative arrangements. The CareerSource Florida Network and its partners have a unique opportunity to engage in regional planning in order to meet the goals of both WIOA and, more importantly, Florida's vision for talent development.

Please describe your strategy toward analyzing potential WIOA planning regions as defined in WIOA section 106(a)(2). Such strategy should include, but not be limited to:

- An analysis of the regional economy, labor market areas, and industry sectors in a region that include your local area

The Polk County Workforce Development Board's service area is Polk County. Polk County is larger than the state of Rhode Island and equal in size to Delaware. The total area of the county is approximately 2,010 square miles which makes it the fourth largest county in Florida, exceeded only by Dade, Palm Beach, and Collier counties. The total land area of Polk County is approximately 1,875 square miles. Polk County has an estimated population of 666,149 as of January 2018. Based on the US Census Bureau Polk County Quick Facts, the county population is distributed as follows: 79.4% white, 15.8% black, Hispanic or Latino 21.1%, 2.1% reporting two or more races, 1.9% Asian, 0.6% native persons, 0.1% Pacific Islander.

Notable strengths for the region include the fact that logistically Polk County is the only Southeast location which offers two international airports within an hour's drive – Orlando and Tampa. It is intersected by Interstate 4, the Polk County Parkway, State Road 60 and Highway 27, and has easy access to Interstate 75 on the west and 95 on the east. Metropolitan Orlando-Kissimmee and Tampa-St. Petersburg, Clearwater located in adjacent counties, each have a cost of living index of 96, while metropolitan Lakeland has a cost of living index of 91.

CareerSource Polk is in a prime location to ensure that our jobseekers and employers reap the maximum benefits from regional collaboration, resource sharing, and consistent service delivery strategies. Our designated regional planning area includes CareerSource Polk (WDA17), CareerSource Pasco Hernando (WDA16), CareerSource Heartland (WDA19), and CareerSource Southwest Florida (WDA24). Each of these regions complement and enhance the regional planning area based on the unique strengths that offer greater latitude for cross boundary access to job, training, and workforce service opportunities.

Collectively, this regional planning area will boast of a labor force slightly over 2 million with an educational attainment of a Bachelor's degree or higher averaging 23%. Each of the areas share healthcare and professional services as emerging occupations that fall among the top major industry sectors.

- Specific milestones and timelines for consultation with:

- A. Other local workforce development boards

CareerSource Polk has collaborated and formed an alliance with WDAs 16, 19 and 23 to address the needs of residents and employers in our respective areas. Quarterly meetings have been established to have ongoing dialogue regarding regional needs, as well as opportunities for collaborative innovations that lead to the enhancement of an educated and skilled workforce and thriving regional economies through the expansion of business and job creation. Initial meetings have led to collective goals that will promote regional planning, shared resources and, as much as possible, consistent approaches to service delivery. These goals include:

- Shared responsibility to transfer anticipated unused funds among our regional planning area with the goal of ensuring that the jobseeker and employer needs for the planning area are met and not hindered due to lack of funds availability. If it is discovered that the regional planning area cannot realized the full

utilization of allocated funds, the planning area will return the funds to DEO to offer to other planning areas.

- Review cap rates for various training to determine the necessity of merging structure if appropriate.
- Collaborate to establish a Regional Targeted Occupations List and Eligible Training Providers
- Review opportunities to cost share/bulk order supplies for maximum efficiency and benefit
- Collaborate on workforce supply for new and expanding business.

B. Local elected officials

Discussions with local elected officials within each area will take place prior to plan submission.

C. Economic development organizations

Dialogue with each areas respective economic development organizations will take place prior to plan submission.

D. Core and mandatory one-stop partners for potential regional implications;

Each area has analyzed the potential for regional implications among core and mandatory one-stop partners prior to plan submission.

E. Analysis of coordination of services with potential regional implications.

An initial analysis of coordination of services has been discussed and has resulted in the goals outlined in section A above. Ongoing discussion may yield additional analyses and implementation. As such, the members of the regional planning area remain open to any possibilities that aid to leverage resources and recognize efficiencies.

II. PURPOSE

The Workforce Innovation & Opportunity Act (WIOA) is an affirmation of the work that has been done in Florida to build the workforce development system. The cornerstone of the Act is its American Job Center (AJC) One-Stop customer delivery system. The AJC One-Stop system assures coordination between the activities authorized in and linked to the Act.

WIOA requires Local Workforce Development Boards (LWDBs) to develop and finalize Infrastructure Funding Agreements (IFA) with all required partners that carry out their programs in the local area.

The purpose of this agreement is to establish a financial plan, including terms and conditions, to fund the services and operating costs of the AJC One-Stop customer delivery system. The Parties to this infrastructure Agreement (IFA) agree that joint funding is a necessary foundation for an integrated service delivery system. The goal of the operating budget is to develop a funding mechanism that:

- a) Establishes and maintains the local workforce delivery system at a level that meets the needs of the job seekers and businesses in the Local area,
- b) Reduces duplication and maximizes program impact through the sharing of services, resources, and technologies among Partners (thereby improving each program’s effectiveness),
- c) Reduces duplication by establishing data sharing as it relates to participant records for outcome information,
- d) Reduces overhead costs for any one partner by streamlining and sharing financial, procurement, and facility costs, and
- e) Ensures that costs are appropriately shared by determining contributions based on the proportionate use of the one-stop centers and relative benefits received, and requiring that all funds are spent solely for allowable purposes in a manner consistent with the applicable authorizing statutes and all other applicable legal requirements, including the Uniform Guidance.

The Partners consider this one-stop operating budget the master budget that is necessary to maintain the high standard One-Stop delivery system. It includes the following cost categories, as required by WIOA and its implementing regulations.

- a) Infrastructure costs (also separately outlined in the Infrastructure Funding Agreement (IFA),
- b) Career Services, and
- c) Shared services

All costs included in the IFA, allocated according to Partner's proportionate use and relative benefits received, and will be reconciled on a quarterly basis. The one-stop operating budget is transparent and negotiated among Partners on an equitable basis to ensure costs are shared appropriately. All Partners negotiated in good faith and sought to establish outcomes that are reasonable and fair.

III. PARTNERS

Each Partner commits to cross training of staff, as appropriate, and to providing other professional learning opportunities that promote continuous quality improvement. Partners will further promote system integration to the maximum extent feasible through:

- a) Effective communication, information sharing, and collaboration with the one-stop operator,
- b) Joint planning, policy development, and system design processes,
- c) Commitment to the joint goals, strategies, and performance measures,
- d) The use of common and/or linked data management systems and data sharing methods, as appropriate
- e) Leveraging of resources including other public agency and non-profit organization services
- f) Participation in a continuous improvement process designed to boost outcomes and increase customer satisfaction, and
- g) Participation in scheduled Partner meetings to exchange information in support of the above and encourage program and staff integration.

IV. ONE-STOP OPERATING BUDGET

The purpose of this section is to establish a financial plan, including terms and conditions, to fund the services and operating cost of the One-Stop Centers. The local Workforce Development Board based operating costs solely on the infrastructure costs and career services costs included in the following operating budget below.

Below is the overall estimated annual operating budget for the local One-Stop system:
Comprehensive AJC (CareerSource Polk – Winter Haven)

**Infrastructure (IFA) Budget
PY2017-2018**

Description	Operating Budget
Infrastructure costs:	
Office Rent/Lease	189,196
Utilities	1,286
Repairs & Maintenance	1,565
Institutional Supplies	402
Telephone	24,366
Furniture/Equipment	21,478
IT Network (software, licenses, & supplies)	44,520
Equipment Rental/Maintenance	9,660
Additional Costs:	
Career Services (Resource Room)	17,850
Total Costs	310,323

V. COST ALLOCATION METHODOLOGY

All required Partners have agreed to provide access to their programs in the comprehensive One-Stop Career Center and contribute to the infrastructure costs. Partners will have staff co-located in the Center (on a full or part-time basis) or will provide access via direct linkage as outlined in Attachment B (Partner Representation Schedule) and will fund the infrastructure costs based on a percentage of the partner’s annual FTE. (All costs included in the IFA, allocated according to Partner’s proportionate use and relative benefits received, and will be reconciled on a quarterly basis.)

The UI program, as required partner, will not be physically located in the One-Stop Career Center but must contribute to the cost of infrastructure. The UI program and other required partners who have elected not to have staff co-located in the AJC will utilize a “direct linkage” that will allow customers to connect with partner program staff to access services. Cross-trained front-desk and other physically co-located staff can assist in providing information and referrals to the direct-linkage partners. Partners utilizing direct linkage must contribute to the Infrastructure cost equivalent a minimum of 0.2 FTE or 8 hours per week (1 FTE is equivalent to 40 hours/week) or equivalent a minimum of 0.1 FTE or 4 hours per week.

The LWDB selected the cost allocation bases to determine overall Partner contributions. This was done in an effort:

- a) To remedy the imbalance of non-physically represented Partners, and
- b) To comply with the requirement of Partners’ contributions having to be in proportion to the Partners’ use of the AJC and relative benefit received.

As outlined in the MOUI, the costs of the infrastructure of AJC One-Stop Center will be funded in accordance with the requirements of the Workforce Innovation and Opportunity Act; federal cost principles; and all other applicable legal requirements.

VI. PARTNER CONTRIBUTION

Below is the partner contribution cost determination:

Estimated Cost per FTE	Estimated Infrastructure Costs Total Partner FTE \$310,323/29.7=\$10,448.58
CareerSource Polk FTE Contribution <i>(Partners who elected to have their representatives in the Career Center on a Full or Part time basis to serve customers.)</i>	<i>Partner FTE X Estimated Cost per FTE</i> 0.1 FTE X 10,448.58=\$1,044.86 (0.1 FTE represents 4 hours a week commitment) 0.2 FTE X \$10,448.58=\$2,089.72 (0.2 FTE represents 8 hours a week commitment)
Partners Direct Linkage Contribution <i>(Partners who elected not to have their representatives in the Career Center but offer a technology option to serve customers)</i>	Minimum of 0.1 FTE or 4 hours a week Minimum of 0.2 FTE or 8 hours a week Contribution = 0.1 X Estimated Cost per FTE Contribution = 0.2 X Estimated Cost per FTE

FUNDING TYPES AND SOURCES

The permissible types of funds used for infrastructure costs and additional cost of operating a local One-Stop delivery system (i.e. partner’s program or administrative funds) may differ depending upon the partners program’s authorizing law and implementing regulations. The funds that may be used also differ based on whether the amount that must be contributed by a partner for infrastructure costs is determined under the Local Funding Model or the State Funding Model. (Copy of the TEG 17-16: Infrastructure Funding of the One-Stop Delivery system can be found at:

https://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=4968

Types. Funding for infrastructure costs and additional costs may be in the form of:

- a) CASH, NON-CASH and THIRD-PARTY IN KIND CONTRIBUTIONS ***
- b) Funding from philanthropic organizations or other private entities; or
- c) Other alternative financing options (described in WIOA sec. 121(c)(2)(A)(ii) and 20 CFR 678.715, 34 CFR 361.715, and 34 CFR 463.715.

Some partner programs may have statutory or regulatory prohibitions against using certain types of these contribution or on how the program may treat these contributions for fiscal accountability purposes under the respective program’s requirements.

<p>***</p> <p>Cash Cash funds provided to the Local WDB or its designee by one-stop Partners, either directly or by an interagency transfer, or by a third party.</p> <p>Non-Cash</p> <ul style="list-style-type: none"> ❖ Expenditures incurred by one-stop Partners on behalf of the one-stop center; and ❖ Non-cash contributions or goods or services contributed by a Partner program and used by the One-Stop center. <p>The value of non-cash and third-party in-kind contributions must be fairly evaluated in accordance with the Uniform Guidance at 2 CFR 200.306.</p>

Third Party In-Kind

Contributions of space, equipment, technology, non-personnel services, or other like items to support the infrastructure costs associated with one-stop operations, by a non-one-stop Partner to:

- ❖ Support the One-Stop Center in general; or
- ❖ Support the proportionate share of One-Stop infrastructure costs of a specific partner.

Sources. The source of funds that may be used to pay for infrastructure costs depends on the requirements regarding use of funds under the law authorizing the partner program that is contributing the funding. The infrastructure funding may be from funds classified as administrative, program, or both, depending on the partner program's requirements.

VII. COST RECONCILIATION

All parties agree that a bi-annual reconciliation of budgeted and actual costs and update of the allocation bases will be provided for the review.

The LWDB will submit invoices to the Partners and send a copy of the updated budget to all Parties. Partners will communicate any disputes with costs in the invoice or the budget to the LWDB in writing. The LWDB will review the disputed cost items and respond accordingly to the Partner. When necessary, the LWDB will revise the invoice and the adjusted budget upon resolution of the dispute.

One-Stop delivery system infrastructure costs are defined as non-personnel costs that are necessary for the general operation of the one-stop career center, including, but not limited to: rental of the facilities; utilities and maintenance; equipment, including assessment-related products and assistive technology for individuals with disabilities; and, technology to facilitate access to the One-Stop delivery system, including technology used for the center's planning and outreach activities. This may also include the costs associated with the development and use of the common identifier (i.e., American Job Center signage) and supplies, as defined in Uniform Guidance at 2 CFR 200.94, to support the general operation of the one-stop career center (WIOA sec. 1221 (h)(4) and 20 CFR 678.700(a), and 34 CFR 446.700(a)).

Non-personnel costs are costs that are not compensation for personnel costs. For example, technology-related services performed by vendors or contractors are non-personnel costs and may be identified as infrastructure costs if they are necessary for the general operation for the one-stop career center. Such costs would include service contracts with vendors or contractors, equipment and supplies.

Personnel services include salaries, wages, and fringe benefits of the employees of partner programs or their subrecipients, as described in 2 CFR 200.430 & 200.431 of the Uniform Guidance. For example, allocable salary and fringe costs of partner program staff who work on information technology systems (e.g., common performance and reporting outcomes) for us4e by the one-stop center as a whole would be personnel costs. The costs of a shared welcome desk or greeter directing employers and customers to the services or staff that are available in that one-stop career center is a personnel expense. These costs, therefore, could not be included in infrastructure costs but are included in "additional costs."

All Parties to this IFA recognize that infrastructure costs are applicable to all required Partners, whether they are physically located in the One-Stop career center or not. Each partner's contributions to these costs, however, may vary, as these contributions are based on the proportionate use and relative benefit received, consistent with the Partner programs authorizing laws and regulations and the Uniform Guidance.

VIII. METHODS OF INTERNAL REFERRAL

Internal cross-referral procedures will be developed and/or reassessed based upon availability of funding, services and program need, to ensure that high quality and convenient services are available to potentially eligible customers of the One-Stop delivery system.

The primary principle of the referral system is to provide integrated and seamless delivery of services to workers, job seekers, and employers. In order to facilitate such a system,

Partners agree to:

- a) Familiarize themselves with the basic eligibility and participation requirements, as well as with the available services and benefits offered, for each of the Partners' programs represented in the local American Job Center network;
- b) Develop materials summarizing their program requirements and making them available for Partners and customers;
- c) Provide a paragraph regarding a description of services with website link to organization/entity to be placed on CSP website for ease and consistency of referrals.
- d) Develop and utilize common intake, eligibility determination, assessment, and registration forms;
- e) Provide substantive referrals to customers who are eligible for supplemental and complementary services and benefits under partner programs,
- f) Regularly evaluate ways to improve the referral process, including the use of customer satisfaction surveys,
- g) Commit to robust and ongoing communication required for an effective referral process, and
- h) Commit to actively follow up on the results of referrals and assuring that Partner resources are being leveraged at an optimal level.

IX. DATA SHARING

CareerSource Polk will provide employment services to individuals participating in the partner programs and aggregated information to assist the Partner in its evaluation of the effectiveness of programs as it relates to the employment of students who have participated in partner programs. The Partner will utilize this information for tracking Return on Investment (ROI). All data received will remain confidential and CareerSource Polk will only allow those employees who have a legitimate need to access the information with access to the personally identifiable information provided by the Partner.

Partners agree that the use of high-quality, integrated data is essential to inform decisions made by policymakers, employers, and job seekers. Additionally, it is vital to develop and maintain an integrated case management system, as appropriate, that informs customer service throughout customers' interaction with the integrated system and allows information collected from customers at intake to be captured once.

Partners further agree that the collection, use, and disclosure of customers' personally identifiable information (PII) is subject to various requirements set forth in Federal and State privacy laws. Partners acknowledge that the execution of this MOU, by itself, does not function to satisfy all of these requirements.

All data, including customer PII, collected, used, and disclosed by Partners will be subject to the following:

- a) Customer PII will be properly secured in accordance with the Local WDB's policies and procedures regarding the safeguarding of PII.
- b) The collection, use, and disclosure of customer education records, and the PII contained therein, as defined under FERPA, shall comply with FERPA and applicable State privacy laws.
- c) All confidential data contained in UI wage records must be protected in accordance with the requirements set forth in 20 CFR Part 603.
- d) All personal information contained in VR records must be protected in accordance with the requirements set forth in 34 CFR 361.38.
- e) Customer data may be shared with other programs, for those program's purposes, within the American Job Center network only after the informed written consent of the individual has been obtained, where required.
- f) Customer data will be kept confidential, consistent with Federal and State privacy laws and regulations.
- g) All data exchange activity will be conducted in machine readable format, such as HTML or PDF, for example, and in compliance with Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794 (d)).

All one-stop career center and Partner staff will be trained in the protection, use, and disclosure requirements governing PII and any other confidential data for all applicable programs, including FERPA-protected education records, confidential information in UI records, and personal information in VR records.

None of the Parties intend to directly or substantially benefit a third party by this IFA. XV. DISPUTE RESOLUTION

If an issue arises involving this IFA, both parties will make every effort to reach a resolution in a timely and efficient manner.
