Enclosed is your copy of the 1993 Official List of Special Districts in Florida, which is being distributed to all independent special districts, certain state agencies, counties, municipalities, county property appraisers, tax collectors and supervisors of elections as required by Chapter 189, Florida Statutes.

Maintaining an up-to-date Official List is an ongoing process, and the assistance you provide is greatly appreciated. This year's list includes a total of 952 districts (excluding the 42 dissolved districts): 460 are independent, 441 are dependent, 48 are inactive, and 3 are unknown. Districts are continuously being created and dissolved. The Special District Information Program (SDIP) makes every effort to keep abreast of these changes. If you are aware of changes, corrections or additional information that should be added to the Official List, please notify the SDIP.

Rule 9B-50.013, Florida Administrative Code, requires that a copy of the charter of any newly created special district be submitted to the Department of Community Affairs within 30 days subsequent to the first meeting of the newly-created special district. This ensures that the district is added to the Official List. Resolutions dissolving districts should also be forwarded to the Department in order to assist us in maintaining accurate records.
If a special district's status on the Official List is inconsistent with the status submitted by the special district, the district may request that the Department issue a declaratory statement setting forth the requirements necessary to resolve the inconsistency, pursuant to Section 189.4035(6), Florida Statutes. The form for a petition for a declaratory statement can be found in Chapter 9-4, Florida Administrative Code. The petition must be submitted in writing to:

Agency Clerk  
Department of Community Affairs  
2740 Centerview Drive  
Tallahassee, Florida 32399-2100

Should you need additional information about any of the special districts, the staff of the Special District Information Program can be reached at 904/922-5431 or SUNCOM 292-5431.

USER'S GUIDE

The 1993 Official List of Special Districts contains descriptive information taken from the creating documents of the districts and subsequent amendments or applicable general laws. Surveys completed by special districts facilitated the collection of this information. If the information could not be readily verified, it has been omitted from the database and will be added as verifications are made. For each district, the following is provided:

Name of District
Name of Registered Agent
Address of Registered Agent
Telephone Number for Registered Agent

Status

DEPENDENT - A Special District that meets at least one of the following criteria:

(a) The membership of its governing body is identical to that of the governing body of a single county or a single municipality.

(b) All members of its governing body are appointed by the governing body of a single county or a single municipality.

(c) During their unexpired terms, all members of the Special District’s governing body are subject to removal by the governing body of a single county or a single municipality.

(d) The District budget requires approval through an affirmative vote or can be vetoed by the governing body of a single county or a single municipality.

INDEPENDENT - A Special District that is not a Dependent Special District as outlined above. A District that includes more than one (1) county is an Independent Special District unless the district lies wholly within the boundaries of a single municipality. Community Development Districts, created under Chapter 190, Florida Statutes, are also Independent Districts.

INACTIVE - The Special District Information Program has received confirmation that the District exists but is currently not functioning (no governing board currently in place). (This does not mean that the formal process for declaring a district inactive, pursuant to Section 189.4044, Florida Statutes, has been initiated.)

UNKNOWN - The Special District Information Program has been unable to contact the District OR the District has failed to respond to requests for information made by the Special District Information Program.

DISSOLVED - The enabling legislation of the Special District has been repealed or the governing board has been abolished.

REPORTING REQUIREMENTS

OF

SPECIAL DISTRICTS

The Florida Legislature made major changes to the laws governing special districts in 1989 when it enacted the Uniform Special District Accountability Act, Chapter 189, Florida Statutes. The purpose of the Act is to improve special district reporting, provide for greater uniformity, and increase communication among state agencies overseeing special districts.

The Act created the Special District Information Program (SDIP) and mandated certain duties and responsibilities of the Program, including the publication of an annual Official List of Special Districts. Located in the Department of Community Affairs, in the Division of Housing and Community Development, the SDIP is a clearinghouse for information about Florida's special districts.

Special districts are required to file various reports with the SDIP, local governing authorities and designated state agencies. The Florida Special District Handbook, published by the Department, outlines the reporting requirements of both dependent and independent special districts. The handbook is available to districts, local governments and state agencies at no charge.

Local governments and special districts are encouraged to utilize the handbook as a source of information on special district reporting. If you are responsible for filing or receiving special district reports, the handbook will be especially helpful to you.

Please contact the SDIP at 904/922-5431 or SUNCOM 292-5431 if you have questions about required reports or would like to obtain a copy of the handbook.
