One Community One Goal
Targeted Industry Strategic Plan

Holly Wiedman, Executive Vice President, The Beacon Council
What is One Community One Goal? Why are we doing this?

- A community-wide effort that has rallied our top leaders from business, education, and government around one goal: creating jobs for this community’s future.

- The project is the development of a Targeted Industry Strategic Plan

- Given extreme changes in the global economy and competition from cities throughout the world for new investment and job creation – a comprehensive strategic plan is needed.

Education Partnerships

• From the launch of OCOG, the education community has been involved in every step of the way. Development of Report #2 (Target Industries) and Report #3 (Education Assets Inventory) have been on parallel tracks.

• The recommended Target Industries were selected as a result of an analysis of Miami-Dade County’s present education infrastructure and training programs.
To better serve your business, Miami-Dade County needs to increase education and training of individuals with the following skill sets: *Top Responses*

Target Selection Factors

- What is happening with industry clusters in the region?
  *Cluster Concentration, Shift Share, and Forecasted Growth*

- What assets are platforms for industry growth?
  *Competitive Assessment and Educational Programs*

- What do residents and industry leaders want in the future?
  *Surveys, Interviews and Focus Groups*

**Finalist List**
The OCOG Plan will include strategies for each of the seven Target Industries.
The Plan will also include recommendations that will be organized within five areas:

1) Physical Infrastructure
2) Education and Workforce Development
3) Entrepreneurship and Innovation
4) Business Climate / Policy
5) Economic Development Marketing

As we receive recommendations in these areas, we are also asking and beginning to identify the proposed “owners” of the strategies as well as scheduling preliminary meetings. The proposed “owners” will be responsible for the management and implementation of the Strategic Plan Elements.
Education is the foundation of growth for all target industries.
