Poverty Rate Map

Bureau of Labor Market Statistics
2016
Overview

- Click **here** to access the map.
- Census tracts with a poverty rate >30% are shaded.
- The census tract number is displayed for each shaded tract in bold.
Poverty Rate Percentage Legend

- The map shading is determined by the poverty level percentage
- As the percentage increases, the shaded area will get darker in color
  - No shading: not in high poverty area
  - Green shading: at or slightly above 30 percent
  - Blue shading: well above 30 percent
Poverty Rate Percentage Legend

- No shading indicates that the address or surrounding area is not considered a high poverty area.
Green shading indicates that the address or immediate surrounding area is at or slightly above 30 percent poverty rate.
• Blue shading indicates that the poverty rate is well above 30 percent poverty rate
1) To look up an address, enter the address in the text box in the upper right-hand corner of the application.
User Guide

The area around 107 E Madison St., Tallahassee, FL is not shaded. This address is not in a “high poverty” census tract.

2) The map will zoom in on the address you entered. If the area around the map is shaded, this census tract has a poverty rate >30%.

The area around 505 W. Pensacola St., Tallahassee, FL is shaded blue. This address is in a “high poverty” census tract.
User Guide

- Click on any part of the shaded area.
- This will display information about the census tract, including the county and the poverty rate.
- Click the arrow in the floating information box to see more information.
