

Legend: Projects Completed Projects Anticipated to be Complete within 30 days

Area	Project	Status
<b>Planning, Coordination, and Oversight</b>	Strategic Planning Office (SPO)	In progress and on schedule.
	Oversight (IV&V)	In progress and on schedule.
	System and Software Integration (SSI)	In progress and on schedule. Business Strategy being developed. See System and Software Integration Operational Work Plan.
<b>Software</b>	Adjudication Workflow Management	In progress and on schedule. Development is ongoing. See Adjudication Workflow Management Operational Work Plan.
	ChatBot	In progress and on schedule. Testing underway. See ChatBot Operational Work Plan.
	Rules Catalog	In progress and on schedule. All known business rules analyzed. Project closeout underway. See Rules Catalog Operational Work Plan.
	Appeals Workflow Management	In progress and on schedule. 34% of the tickets have been completed. See Appeals Workflow Management Operational Work Plan.
	Incremental CX/UX Mobile-Responsive Transformation	CX/UX in progress and back on schedule. Mobile-responsive user interface successfully launched. See CX/UX Operational Work Plan.
	Communications	In progress and on schedule. See Communications Operational Work Plan.
	Document Imaging System	In progress and on schedule. See Document Imaging System Operational Work Plan.
<b>Data and Analytics</b>	Reporting	In progress and on schedule. 37% of in-scope reports have been completed or retired. See Reporting Operational Work Plan.
	Product and Data Management	In progress and back on schedule. See Product and Data Management Operational Work Plan.

**Are there any scope changes?**

There were no scope changes this reporting period.

**Is the project currently within budget?**

The project is currently under budget.

**Do you expect the project to remain within budget?**

Yes

**If the project is not on schedule, briefly explain why and what the agency is doing to bring the project back on schedule.**

The Program is on schedule.

**Major Project Tasks and Activities Accepted or In Progress this Reporting Period**

- [Planning, Coordination, and Oversight] System and Software Integration: This project includes leveraging the expertise of a third-party services provider with experience in strategic planning, system design, system development, and system integration for large multi-component system modernization efforts to ensure the Department’s various modernization projects work as intended to deliver an enhanced user experience.

- During this reporting period, the Contractor focused on developing the Business Strategy deliverable, which is a tool used to plan the future of the Reemployment Assistance program through Continuous Modernization projects and ongoing maintenance and operations.
- [Software] Adjudication Workflow Management: This project will help automate the assignment of adjudication cases to adjudicators and eliminate a manual process. This project addresses one of the recommendations made during the Business Process Optimization project that was closed during the two-year Reemployment Assistance Modernization Program Roadmap.
  - This reporting period, development work continued to support a streamlined process for reviewing each adjudication issue and distributing the associated determination, which helps support the process of determining if a claimant is eligible to receive Reemployment Assistance benefits.
- [Software] ChatBot: This project includes providing Reemployment Assistance claimants an additional self-service option to gain answers to frequently asked questions and claim-specific information without requiring a call to the Reemployment Assistance Contact Center. This allows more time for Contact Center agents to assist individuals with more complex issues, including those with barriers such as access to a computer.
  - This reporting period, the Bot was fully developed to be able to answer users' frequently asked questions. The Department anticipates that testing for English, Spanish, and Haitian Creole will be complete in the next reporting period.
- [Software] Rules Catalog: This project is designed to further enhance the Department's documentation for Reconnect by capturing all the rules that govern the administration of the Reemployment Assistance program. This project will add information about the complexity of each business rule, which will aid the Department in forecasting the need for implementing a Business Rules Engine as Reconnect is further modularized.
  - This reporting period, project closeout continued.
- [Software] Appeals Workflow Management: This project is designed to implement new features and address functionality that is not currently working to streamline the Appeals workflow that is used by Department staff to conduct Appeals hearings and issue determinations. This will eliminate manual processes and expedite the Appeals process.
  - For this reporting period, of the 67 tickets in-scope for this project, 23 are complete, 12 are being developed and tested, and 32 have not yet been started.
- [Software] Incremental CX/UX Mobile Responsive Software Transformation: This project includes optimizing the existing System and developing a user-friendly front-end for Reemployment Assistance claimants that is also mobile-friendly. The transformation will occur incrementally to ensure all System users benefit from System optimization, with a focus on enhancing the claimant experience first.
  - During this reporting period, the mobile-responsive user interface was successfully launched which included the entire initial claim application and 28 of 90 initial claim fact-finding questionnaires. The team will continue to develop and test the remaining fact-finding questionnaires to further enhance the user experience as part of the regular release of enhancements.
- [Software] Document Imaging System: This project is designed to remove the manual processes that are required for the Department to process physical mail and faxed documents claimants and employers submit for their Reemployment Assistance claim by automatically attaching these documents, once scanned, to the correct claim in Reconnect so that claims can be processed efficiently and accurately.
  - This reporting period, the kick-off was held, along with discovery sessions for documenting current state workflows for receiving and routing physical mail and faxes.
- [Data and Analytics] Reporting: This project includes migrating, developing, and validating all internal Reemployment Assistance performance reports from Reconnect to the Data. The data warehouse provides the Department with standardized data and reduces the need for staff intervention for future reporting activities.

- For this reporting period, of the 379 reports in-scope for this project, 46 are complete, 43 are being developed and tested (51 reports were de-duplicated and have been merged into 23 reports), 94 will be retired, and 196 have not yet been started.
- [Data and Analytics] Product and Data Management: This project is designed to mature the Department's data management, planning, and governance processes for Reemployment Assistance data to promote data sharing, interoperability, and reduce both the size of and costs affiliated with Reemployment Assistance's data.
  - This reporting period, the Department published the updated Reconnect data catalog and data dictionary for internal use. The Department anticipates routing the Fraud Initiative Rating and Rules Engine data catalog and data dictionary for review and approval during the next reporting period.

## SECTION 1 — OVERALL PROJECT PLAN

### *I. Project Charter*

FloridaCommerce is enhancing the claimant experience by launching a ChatBot solution.

The ChatBot solution provides Reemployment Assistance claimants an additional self-service option to gain answers to frequently asked questions and claim specific information. This technology will help deflect calls to the Reemployment Assistance Contact Center, so that agents are more available to the callers who truly need agent assistance.

#### **A. Scope Statement**

FloridaCommerce’s existing contact center vendor will deploy one AI conversational bot to the floridajobs.org website to help Reemployment Assistance end users obtain answers to frequently asked questions and claim-specific information related their claims to help increase self-service opportunities and deflect calls from the Reemployment Assistance Contact Center. If the ChatBot cannot answer the end user’s question, an opportunity to escalate to one of three Contact Center agent queues will be provided.

##### **In Scope**

- The existing contact center vendor’s professional services team will develop a custom chat provider for escalation to Customer’s Genesys CX account. Translation will be provided within the AI Chatbot account for English, Spanish, and Haitian-Creole. Escalation to Genesys CX will be provided for each language. Training will be provided for AI administrators, content creators and reporting analysts.
- FloridaCommerce will administer ChatBot content within a single knowledge base, specifically, English. The knowledge base articles will reside in the AI ChatBot solution. The translation solution will translate the English knowledge base content into Spanish or Haitian-Creole. Customer responses will be translated from Spanish or Haitian-Creole to English for solution consumption and processing.

##### **Out of Scope**

- Languages besides English, Spanish, or Haitian-Creole.

#### **B. Project Objectives and Business Benefits**

The ChatBot solution provides Reemployment Assistance claimants an additional self-service option to gain answers to frequently asked questions and claim specific information. This technology will help deflect calls to the Reemployment Assistance Contact Center, so that agents are more available to the callers who truly need agent assistance.

#### **C. Critical Success Factors**

The following factors are necessary for success.

- FloridaCommerce staffing resources are available to work on the project.

- Performance of the solution meets FloridaCommerce requirements.

#### D. Key Dates

The key dates below represent the current status of the project as well as planned dates for the project.

Key Date	Importance and Relevance to the Project
November 2, 2023	Project Kick-off with vendor
January 14, 2024	FAQ User Acceptance Testing
January 28, 2024	IVR development complete
March 29, 2024	FAW and IVR ready for production
May 5, 2025	Agent Escalation development complete

#### E. Major Deliverables

Major Deliverable	Deliverable Description
Project Kickoff Meeting	The PM schedules the project kickoff meeting and provides agenda and materials.
Project Management Plan	The PM provides the final version of the PMP after review and approval by FloridaCommerce
Project Schedule	The PM will work with the vendor to create the project schedule
Test Plan	Vendor will work on the develop a testing plan and strategy to be used during User Acceptance Testing.
User Accepting Testing	User Acceptance Testing will commence once the development has been completed by the vendor. The result of User Acceptance Testing will be the sign off on the executed test plan.
Go Live	Deployment of the solution into production

#### F. Major Milestones

The project cannot be completed without the milestones listed below. Transparency and inclusion in all major milestones and deliverables will help build and maintain an accurate schedule.

Major Milestone	Milestone Description
Project Kickoff Meeting	The PM schedules the project kickoff meeting and provides agenda and materials.
Project Management Plan	The PM provides the final version of the PMP after review and approval by FloridaCommerce
Business Rules Traceability Matrix	The BA and PM conduct a series of work sessions to drill down in detail of the scope of the project
Project Closeout Report	The PM provides the Project Closeout Report

## G. Key Stakeholders

The stakeholders listed below are critical in providing direction, especially with a project that will have a large amount of discovery. The project sponsors will be valuable when issues that require executive decisions are needed, and when there may be negotiations for keeping and purging older data based on its value.

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work Group
Tisha Womack	Chief Financial Officer
Wendy Castle	Modernization Program Owner – Business
Nicole Sanislow	Modernization Program Manager – Business
Thomas Holliday	Modernization Program Manager – Strategic Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information Technology
Warren Lenfant	Project Owner
David Sinclair	Project Manager

## H. Significant Project Assumptions and Constraints

### Project Assumptions

1. ChatBot solution will be available in English, Spanish and Haitian-Creole.
2. The assigned IT resources possess relevant knowledge and skills to complete the identified tasks.
3. Members of the project team will have access to the necessary tools, hardware, and materials necessary to complete the identified tasks.
4. All relevant stakeholders will attend required status meetings. However, there may be instances where some stakeholders are unavailable to attend.
5. The Project Sponsor will be responsive and prepared to make decisions regarding the project cost and scope.
6. The solution must be FedRamp compliant.

### Project Constraints

1. Limited Knowledge of FloridaCommerce claims processing could slow the project down.
2. Hardware that needs to be provided by FloridaCommerce could be slower due to staffing constraints.

## II. Work Breakdown Structure

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

WBS	Task Name
<b>1</b>	<b>01-Chatbot</b>
<b>1.1</b>	<b>Initiation</b>
<b>1.1.1</b>	<b>Risk and Complexity Assessment</b>
<b>1.1.2</b>	<b>PM Deliverable: Project Charter</b>
1.1.3	<b>Project Charter complete</b>
<b>1.1.4</b>	<b>Stakeholders Register</b>
<b>1.1.5</b>	<b>Project Kickoff Meeting</b>
<b>1.1.6</b>	<b>Conduct Lessons Learned Meeting</b>
1.2	<b>Initiation Phase complete</b>
<b>1.3</b>	<b>Planning</b>

### III. *Resource Loaded Project Schedule*

As stated in Section II, Work Breakdown Structure, since this is a high-level representation of the project, the project team names are not reflected. The names are listed in Section V.B. Project Roles and Responsibilities, Project Team.

The project management deliverables mentioned below are required by Florida Administrative Code, Rule 60GG.

WBS	Task Name	% Complete	Duration	Start	Finish
<b>1</b>	<b>01 ChatBot</b>				
<b>1.1</b>	<b>Initiation</b>	<b>100</b>		<b>7/15/23</b>	<b>7/30/23</b>
<b>1.1.1</b>	<b>Risk and Complexity Assessment</b>	<b>100</b>		<b>7/26/23</b>	<b>7/30/23</b>
<b>1.1.2</b>	<b>PM Deliverable: Project Charter</b>	<b>100</b>		<b>7/26/23</b>	<b>7/30/23</b>
1.1.3	<b>Project Charter complete</b>	100		<b>7/26/23</b>	<b>7/30/23</b>
<b>1.1.4</b>	<b>Stakeholders Register</b>	<b>100</b>		<b>7/26/23</b>	<b>7/30/23</b>
<b>1.1.5</b>	<b>Project Kickoff Meeting</b>	<b>100</b>		<b>7/26/23</b>	<b>7/30/23</b>
<b>1.1.6</b>	<b>Conduct Lessons Learned Meeting</b>	<b>100</b>		<b>7/26/23</b>	<b>7/30/23</b>
1.2	<b>Initiation Phase complete</b>			<b>7/26/23</b>	<b>7/30/23</b>
<b>1.3</b>	<b>Vendor Contract is Executed</b>	<b>100</b>		<b>10/23/23</b>	<b>10/23/23</b>
<b>1.5</b>	<b>Execution Begins</b>	<b>15</b>		<b>11/2/23</b>	<b>1/25/24</b>
<b>1.7</b>	<b>User Acceptance Testing FAQ</b>	<b>0</b>		<b>1/14/24</b>	<b>2/16/24</b>
<b>1.8</b>	<b>Monitoring and Controlling</b>	<b>0</b>		<b>1/29/24</b>	<b>6/28/24</b>

**IV. Project Spending Plan**

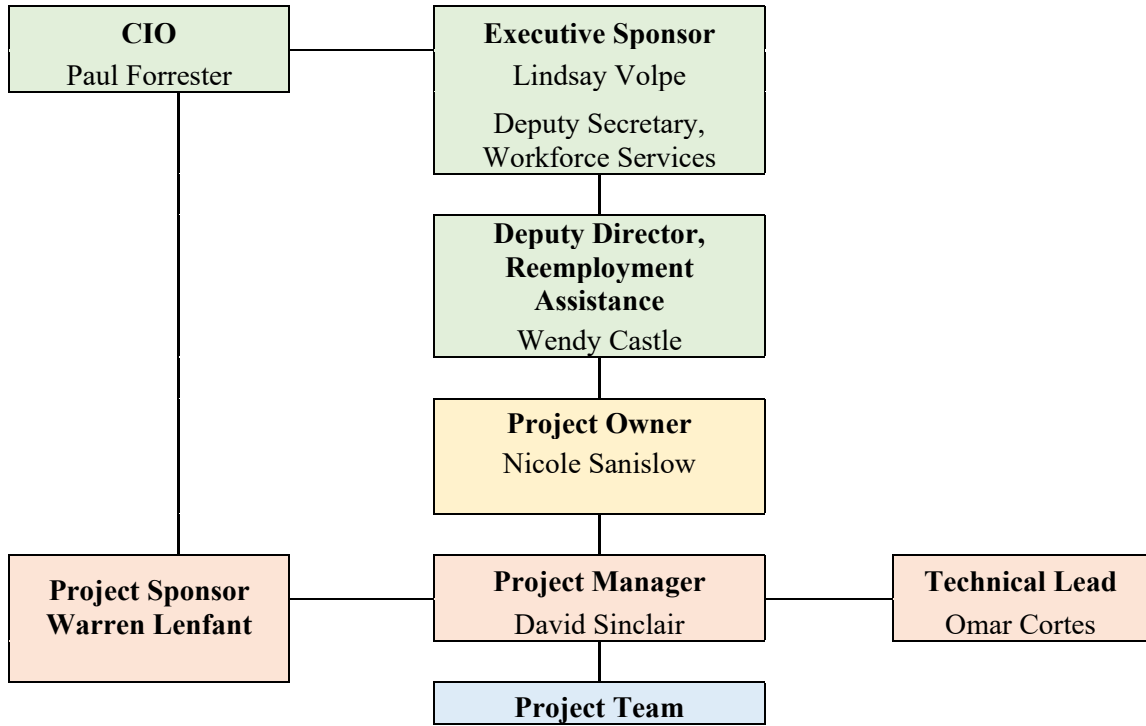

The ChatBot project has existing resources assigned, therefore, there is no spend for this project.

<b>FY 2023-24 Expenditures</b>	<b>FY 2024-25 Expenditures</b>
<i>Software: \$762,000</i>	<i>Software: \$532,848</i>
<i>Other OpEx (Vendor Deliverables):\$0.00</i>	<i>Other OpEx (Vendor Deliverables):\$0.00</i>
<i>Other CapEx: \$0.00</i>	<i>Other CapEx: \$0.00</i>

## V. Project Organization and Methodology

### A. Project Organizational Chart

The Project Manager meets with project stakeholders every week on business rules progress, and to answer general status questions. This meeting is also the forum for escalating issues that require all project stakeholders to resolve together

### B. Project Roles and Responsibilities

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with the Reemployment Assistance program to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce policy

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	<ul style="list-style-type: none"> <li>Provide guidance on overall strategic direction</li> <li>Advising the Strategic Planning Office and project manager of risks that may impact the project</li> </ul>

Name	Project Role	Responsibility
		<ul style="list-style-type: none"> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>
Paul Forrester	Project Sponsor/Chief Information Officer (CIO)	<ul style="list-style-type: none"> <li>• Responsible for the Strategy of FloridaCommerce IT</li> <li>• Responsible for Staffing and Support plans</li> <li>• Responsible for day-to-day operations</li> <li>• Responsible for working closely with programs on technology needs</li> </ul>
Wendy Castle	Project Sponsor/Director Reemployment Assistance	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> </ul>
Nicole Sanislow	Project Owner	<ul style="list-style-type: none"> <li>• Represents the interests of the stakeholders</li> <li>• Monitors project progress</li> <li>• Approves project definition</li> <li>• Approves plans and schedules</li> <li>• Validates project deliverables meet expectations</li> <li>• Tracks project benefit recognition, risk retention and mitigation activities</li> <li>• Acts as liaison between teams and Management for issue escalation and resolution</li> </ul>
David Sinclair	Project Manager	<ul style="list-style-type: none"> <li>• Manages all aspects of the project and ensure compliance with project plan</li> <li>• Monitors project progress and schedule adherence</li> <li>• Completes all documents related to the project</li> <li>• Identifies and manages risks according to the project plan</li> </ul>
Omar Cortes	Technical Lead	<ul style="list-style-type: none"> <li>• Responsible for assisting the team(s) in coordinating the most appropriate solution</li> <li>• Assists the PM in coordinating additional technical resources/SMEs if necessary, for the team.</li> <li>• Has historical knowledge of the Contact Center for Reconnect</li> </ul>

Name	Project Role	Responsibility
Warren Lenfant	Business Sponsor	<ul style="list-style-type: none"> <li>• Responsible for the support for the PM as it is related to the business need and impact of the project</li> <li>• Assists the PM in coordinating additional technical resources/SMEs if necessary, for the team.</li> <li>• Has years of historical knowledge of the Contact Center Solutions for Reconnect</li> </ul>

### C. Project Management Methodology

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce’s satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues.

**VI. Business Process Organizational Change Management Plan**

This project may need Organizational Change Management. This will be determined as the scope and vendor are determined. Once determined we will build a plan related to Change Management.

**VII. Project Risk Management Plan**

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department’s tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
1.				
2.				
3.				
4.				
5.				

**VIII. Capacity Plan**

This project capacity plan will be built with the vendor to determine the best way to measure capacity load of the ChatBot solution.

## SECTION 1 — OVERALL PROJECT PLAN

### I. *Project Charter*

As a part of the Florida Department of Commerce’s (FloridaCommerce) Modernization Program, the FloridaCommerce Rules Catalog will be updated to capture additional business rules within the Reconnect system (the System). The completion of the Rules Catalog project will document rules to allow ease of tracking, reviewing, and identifying changes within the System.

#### A. **Scope Statement**

The Rules Catalog Project will enable FloridaCommerce to identify and document System rules to develop a Business Rules Catalog. A completed rules catalog will allow FloridaCommerce to track and maintain system rules in one central location.

##### **In Scope**

- Update the Rules Catalog to incorporate all rules that govern the Reemployment Assistance program within Reconnect, excluding CX/UX business rules.
  - Include the type of rule and number of System users impacted by the rule, if applicable.
  - Maintain the catalog within the Central Repository.
  - Include the complexity of each business rule, as low, medium, or high.
  - Order rules by frequency of change, from highest to lowest.

##### **Out of Scope**

- Migrate rules into a Rules Engine product.
- Identify CX/UX business rules.

#### B. **Project Objectives and Business Benefits**

The Rules Catalog project was developed following the completion of the Rules Engine project to complete the development of a Business Rules Catalog. The Rules Catalog documents business rules within the System, and allows business rules to be documented, tracked, and maintained in one central location.

Project Objective	Business Benefit
Inventory business rules.	FloridaCommerce will have a complete catalog of System business rules.

#### C. **Critical Success Factors**

The following factors are necessary for success.

- Timely and high-quality achievement of major milestones/deliverables.
- Usable Business Rules Catalogs.

### D. Key Dates

The key dates below represent the current status of the project as well as planned dates for the project.

Key Date	Importance and Relevance to the Project
August 2023	Project starts, confirm project scope and identify project team members.
September 2023 – March 2024	Identification and prioritization of business systems rules, and creation of catalogs.
April 2024	Finalize and approve catalogs.
April 2024	Closeout Phase complete; project complete.

### E. Major Deliverables

Major Deliverable	Deliverable Description
Project Charter	Complete and submit a detailed project charter to FloridaCommerce.
Project Management Plan	Create and approve Project Management Plan.
Weekly Status Meetings	Host weekly status meetings with project team.
Identification of Business Rules	Project team identifies business system rules for incorporation into the Rules Catalog.
Business Rules Catalog	The project team shall update and create additional Business Rules Catalogs to incorporate all business rules maintained within the System.
Project Closeout Report	Create and Approve the Project Closeout Report.

### F. Major Milestones

Major Milestone	Milestone Description
Identification and prioritization of business systems rules	Identify and prioritize business systems rules to documented within the Business Rules Catalog.
Creation of Business Rules Catalog	System rules will be reviewed and documented to develop a Business Rules Catalog.
Project Closeout Report	Develop and approve the Project Closeout Report.

### G. Key Stakeholders

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work Group
Tisha Womack	Chief Financial Officer
Wendy Castle	Modernization Program Owner – Business
Nicole Sanislow	Modernization Program Manager – Business

Thomas Holliday	Modernization Program Manager – Strategic Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information Technology
Nicholas Lent	Project Owner
Daniel Swaisgood	Project Manager

## H. Significant Project Assumptions and Constraints

### Project Assumptions

1. System documentation detailing current business rules are readily available and accessible.
2. Technical support and Subject Matter Expert resources will be available as needed, to support the project as needed.

### Project Constraints

1. Limited time and capacity of individuals assigned to assist.

## II. Work Breakdown Structure

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

▾ Rules Catalog	196 days	Tue 8/1/23	Tue 4/30/24	58%
✓ Rules Catalog Project Start	0 days	Tue 8/1/23	Tue 8/1/23	100%
✓ ▸ Initiation	22 days	Wed 8/2/23	Fri 9/1/23	100%
✓ ▸ Planning	18 days	Tue 8/29/23	Thu 9/21/23	100%
▾ Execution	189 days	Tue 8/1/23	Fri 4/19/24	45%

**III. Resource Loaded Project Schedule**

The resource loaded project schedule is available on [SharePoint](#).

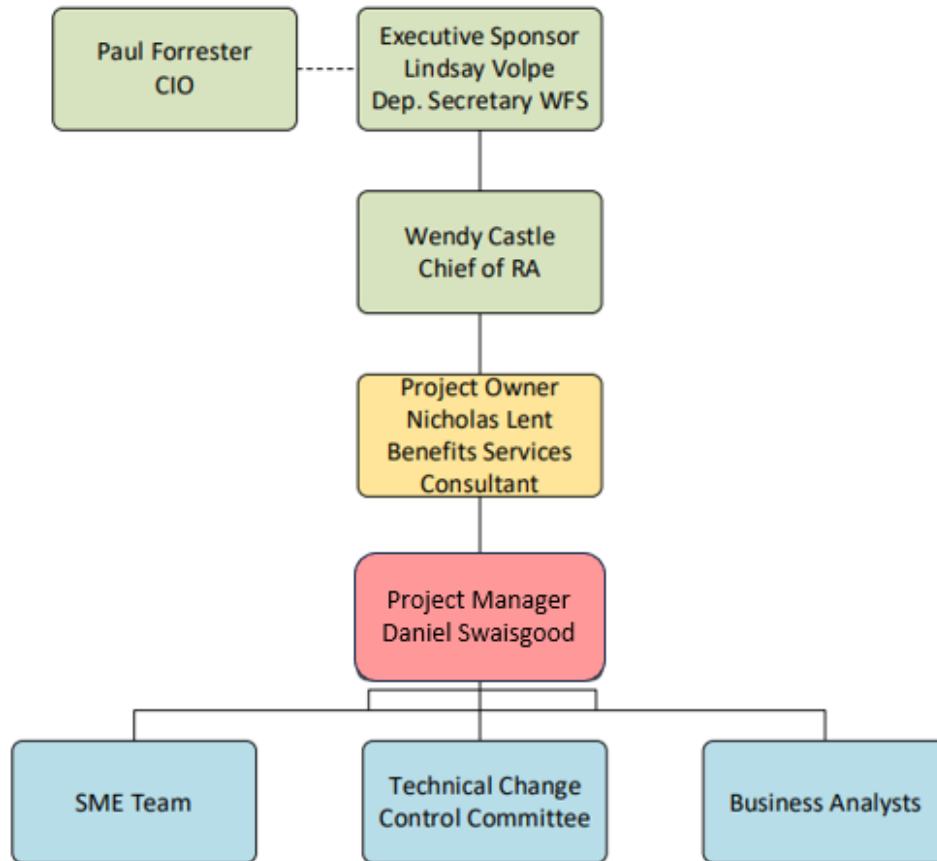

**IV. Project Spending Plan**

FY 2023-24 Expenditures	FY 2024-25 Expenditures
Software: \$0.00	Software: \$0.00
Other OpEx: \$0.00	Other OpEx: \$0.00
Other CapEx: \$0.00	Other CapEx: 0.00

**V. Project Organization and Methodology**

**A. Project Organizational Chart**

The Project Manager meets with project stakeholders every week on business rules progress, and to answer general status questions. This meeting is also the forum for escalating issues that require all project stakeholders to resolve together

## B. Project Roles and Responsibilities

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with the Reemployment Assistance program to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce policy

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>
Domenic DiLullo	CTO	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>
Wendy Castle	Chief of RA Program Owner	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>
Paul Forrester	CIO Program Owner	<ul style="list-style-type: none"> <li>• Responsible for the Strategy of FloridaCommerce IT</li> <li>• Responsible for Staffing and Support plans</li> <li>• Responsible for day-to-day operations</li> <li>• Responsible for working closely with programs on technology needs</li> </ul>
Nicholas Lent	Project Owner/Benefits	<ul style="list-style-type: none"> <li>• Contributes subject matter expertise</li> </ul>

Name	Project Role	Responsibility
	Services Consultant	<ul style="list-style-type: none"> <li>• Assists the Project Managers in responding to risks and issues</li> <li>• Assists the Project Manager in evaluating change requests</li> <li>• Reviews deliverables and project documents, identifying any deficiencies</li> <li>• Reviews and approves deliverables</li> </ul>
Daniel Swaisgood	Project Manager	<ul style="list-style-type: none"> <li>• Manages all aspects of the project and ensure compliance with project plan</li> <li>• Monitors project progress and schedule adherence</li> <li>• Completes all documents related to the project</li> <li>• Identifies and manages risks according to the project plan</li> </ul>
SME Team	Subject Matter Expert(s)	<ul style="list-style-type: none"> <li>• Process development tasks</li> <li>• Contributes subject matter expertise</li> <li>• Complete assigned project tasks in accordance with the Project Schedule</li> <li>• Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP</li> <li>• Assists the Project Manager in responding to risks and issues</li> <li>• Assists the Project Manager in evaluating change requests</li> </ul>
Technical Team	Technical Support	<ul style="list-style-type: none"> <li>• Contributes technical expertise</li> <li>• Complete assigned project tasks in accordance with the Project Schedule</li> <li>• Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP</li> <li>• Assists the Project Manager in responding to risks and issues</li> <li>• Assists the Project Manager is evaluating change requests</li> </ul>
Vendor	Strategic Planning Office (SPO)	<ul style="list-style-type: none"> <li>• Monitors project progress</li> <li>• Facilitates FloridaCommerce Leadership Team Governance meetings</li> <li>• Provides guidance and support to project manager and project team members</li> </ul>

### **C. Project Management Methodology**

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce’s satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues.

### **VI. *Business Process Organizational Change Management Plan***

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce’s lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan

- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

**VII. Project Risk Management Plan**

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department’s tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
1.				
2.				
3.				

**VIII. Capacity Plan**

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

**Project Capacity Planning**

- Establish Cross-Functional Team: To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.
- Calculate Resource Capacity: Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- Determine Resource Requirements: For each project, look at the scope and what resources are required to do the task for the project.
- Project Prioritization: Via a weighted scoring model used for Continuous Modernization, projects within the program have been prioritized for the purpose of optimizing resources and time.
- Allocate Resources Based on Project Priority: Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- Keep the Lines of Communications Open: Communicate between executives, project management leaders and stakeholders.

- Document Known Risks: Monitor risks such as union strikes, weather, government regulations that stop a project or create new ones unexpectedly.
- Plan for How to Handle Not enough Capacity: Understand that obtaining new needed resources takes time and advance planning is imperative.

## SECTION 1 — OVERALL PROJECT PLAN

### I. Project Charter

#### A. Scope Statement

The Reemployment Assistance Claims and Benefits Information System’s (System) current architecture is not modular. Lack of modularity requires extensive regression testing for all system enhancements and updates. The current System has a high level of technical debt. This technical debt increases the cost of maintenance as well as the risk of unintended effects elsewhere in the System. To assist in software transformation, Florida Commerce has procured the services of a System software integrator to provide analysis, oversight, monitoring, and testing, and to assume the responsibilities for the foundational technical platform and systems and software integration services necessary to develop and implement the System’s current and future infrastructure for modernization. These integration efforts will allow Florida Commerce to secure services which can interoperate and communicate without relying on a common platform or technology. Connecting services, systems, and infrastructures and developing integration standards are the next steps for advancing the System’s maturity and System modularity for modernization. This will ensure that an optimized cloud service and delivery model is utilized to deliver business process improvements, functional enhancements, a mobile-responsive application, and modernized architectural efficiencies.

Integration services include documenting the existing technical requirements and specifications of the System and an analysis of the existing technical requirements and specifications. The analysis will determine what technical requirements and specifications need to be improved to increase the effectiveness and efficiency of the System and assist FloridaCommerce with acquiring software and hardware solutions that support the Reemployment Assistance Modernization Program. This shall include full evaluation of the Reemployment Assistance Information Technology program that relates to the System.

#### In Scope

- A modern System that integrates the infrastructure, software, data, analytics, and security components of the RA Continuous Modernization program.

#### Out of Scope

- Software Development
- Individual testing at the project level within the Continuous Modernization projects
- Projects not specifically identified in C3272.
- Organizational Change Management

#### B. Project Objectives and Business Benefits

Project Objective	Business Benefit
Improved delivery of RA Benefits	

Improved functionality	Increased customer satisfaction and self-service alleviates dependencies on staffing
Improved system performance	System availability is improved Less regression testing Faster code delivery to production
A secure and scalable system with a sustainable system architecture	Reduction in capital expenditures

### C. Critical Success Factors

The following factors are necessary for success.

- Improved customer experience/user experience (CX/UX).
- Implementation of a model that will serve Florida’s Reemployment Assistance needs for many years.
- Preservation of continuity of Florida Commerce operations and minimization of demands on Florida Commerce staff.
- Implementation of an operations model that will serve the Reemployment Assistance program for the long term.
- Compliance with state and federal standards.

### D. Key Dates

The key dates below represent the current status of the project as well as planned dates for the project.

Key Date	Importance and Relevance to the Project
July 1, 2023	Project Kick-Off Meeting
October 2, 2023	Design Documentation
September 15, 2023	Infrastructure Performance Requirements
December 28, 2023	Performance Benchmarks
June 30, 2024	Oversight and Monitoring of RA Projects
June 30, 2024	Integration Testing
June 30, 2024	Integration Services
June 30, 2024	Testing Team
June 30, 2024	Project Closure

### E. Major Deliverables

Major Deliverable	Deliverable Description
Deliverable 7	Design Documentation
Deliverable 8	Infrastructure Performance Requirements
Deliverable 11	Performance Benchmarks
Deliverable 13	Oversight and Monitoring of RA Projects
Deliverable 14	Integration Testing
Deliverable 15	Integration Services (Production Readiness Checklist)
Deliverable 20	Testing Team

Major Deliverable	Deliverable Description
Deliverable 21	Information Security and Regulatory Compliance
Deliverable 22	Business Strategy Development

## F. Major Milestones

The project cannot be completed without the milestones listed below. Transparency and inclusion in all major milestones and deliverables will help build and maintain an accurate schedule.

Major Milestone	Milestone Description
Initiation Phase Complete	All initiation activities completed
Planning Phase Complete	All planning activities completed
Execution Phase Complete	All execution activities completed
Monitor and Controlling Phase Complete	All monitoring and controlling activities completed
Closing Phase Complete	Project is completed

## G. Key Stakeholders

The stakeholders listed below are critical in providing direction, especially with a project that will have a large amount of discovery. The project sponsors will be valuable when issues that require executive decisions are needed, and when there may be negotiations for keeping and purging older data based on its value.

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work Group
Tisha Womack	Chief Financial Officer
Wendy Castle	Modernization Program Owner – Business
Nicole Sanislow	Modernization Program Manager – Business
Thomas Holliday	Modernization Program Manager – Strategic Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information Technology
Nicole Sanislow and Karmyn Hill	Project Owner
Monique Emmanuel	Project Manager

## H. Significant Project Assumptions and Constraints

### Project Assumptions

1. Vendor will create/recommend solutions that promote usability, product innovation, and scalability by using innovative concepts and that are suitable for a government environment with funding constraints.

### Project Constraints

1. Design may be materially constrained by:

- a. Governing provisions of federal or state laws and regulations.
- b. Requirement to reduce operating costs.
- c. A schedule constraint of June 2024

**II. Work Breakdown Structure**

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

WBS	Task Name
<b>1</b>	<b>Modernization Program</b>
1.1	Program start
1.2	Contract Amendment #4 - Approval
<b>1.3</b>	<b>Program Deliverables</b>
<b>1.3.1</b>	<b>Deliverable 7 - Design Documentation</b>
<b>1.3.2</b>	<b>Deliverable 8 - Infrastructure Performance Requirements</b>
<b>1.3.3</b>	<b>Deliverable 11 - Performance Benchmarks</b>
<b>1.3.4</b>	<b>Deliverable 13 – Oversight and Monitoring of Modernization Projects</b>
<b>1.3.5</b>	<b>Deliverable 14 - Integration Testing</b>
<b>1.3.6</b>	<b>Deliverable 15 - Production Readiness Checklist</b>
<b>1.3.7</b>	<b>Deliverable 20 - User Acceptance Testing</b>
<b>1.3.8</b>	<b>Deliverable 21 – Information Security and Regulatory Compliance</b>
<b>1.3.9</b>	<b>Deliverable 22 – Business Strategy Development</b>
<b>1.5</b>	<b>Program Delivery Complete</b>
<b>1.6</b>	<b>Project Close and Transition to Florida Commerce</b>
1.6.1	Mutually Agreed on Transition Date
<b>1.6.2</b>	<b>Execute Transition</b>
1.7	Program Closed

**III. Resource Loaded Project Schedule**

As stated in Section II, Work Breakdown Structure, since this is a high-level representation of the project, the project team names are not reflected. The names are listed in Section V.B. Project Roles and Responsibilities, Project Team.

The project management deliverables mentioned below are required by Florida Administrative Code, Rule 60GG.

ID	WBS	Task Name	Duration	Start	Finish	Predecessors	Successors	Resource Names

#### IV. Project Spending Plan

FY 2021-22 Expenditures	FY 2022-23 Expenditures	FY 2023-24 Expenditures
Software: \$0	Software: \$0	Software: \$0
Other CapEx: \$33,737.60	Other CapEx: \$1,748,687.40	Other CapEx: \$5,390,630.33

#### V. Project Organization and Methodology

##### A. Project Organizational Chart

The Project Manager meets with project stakeholders every week on business rules progress, and to answer general status questions. This meeting is also the forum for escalating issues that require all project stakeholders to resolve together

## B. Project Roles and Responsibilities

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with the Reemployment Assistance program to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce policy

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>

		project teams, and conducts program level regression testing.
Julia Aqua	Project Support	<ul style="list-style-type: none"> <li>• Assist SSI Delivery Team Lead with meeting agendas and minutes.</li> <li>• Provide project schedule updates.</li> </ul>

**C. Project Management Methodology**

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce’s satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues.

**VI. Business Process Organizational Change Management Plan**

This project intends to improve the delivery, execution, security, or convenience of Florida Commerce’s lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan
- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

**VII. Project Risk Management Plan**

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department’s tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
1.				
2.				
3.				

**VIII. Capacity Plan**

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

**Project Capacity Planning**

- Establish Cross-Functional Team: To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.
- Calculate Resource Capacity: Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- Determine Resource Requirements: For each project, look at the scope and what resources are required to do the task for the project.

- Project Prioritization: Via a weighted scoring model used for RA Mod, projects within the program have been prioritized for the purpose of optimizing resources and time.
- Allocate Resources Based on Project Priority: Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- Keep the Lines of Communications Open: Communicate between executives, project management leaders and stakeholders.
- Document Known Risks: Monitor risks such as union strikes, weather, government regulations that stop a project or create new ones unexpectedly.
- Plan for How to Handle Not enough Capacity: Understand that obtaining new needed resources takes time and advance planning is imperative.

## SECTION 1 — OVERALL PROJECT PLAN

### *I. Project Charter*

The Comms project will provide usability improvements to the Reemployment Assistance Claims and Benefits Information System (Reconnect). Due to the very public nature of the Reconnect system and the difficulties it experienced during the COVID-19 pandemic, Comms is a very high-visibility project that, when completed, will be of great benefit to Floridians and a significant “win” for FloridaCommerce. The Comms project will help FloridaCommerce achieve the following goals:

1. Streamlined claimant workflow.
2. Simplified UI text, guides, forms, and other information.
3. New branding materials, including PR materials and a new outreach campaign.

### **A. Scope Statement**

#### **In Scope**

- All appropriated, budgeted, and approved tasks necessary to implement the Comms solution.
- Subsequent transition to Application maintenance & Support.
- Specifics:
  - Plain Language simplification through the point of approval by FloridaCommerce Subject Matter Experts (SMEs).
    - Plain Language Batch 6.
    - Plain Language Batch 7.
    - The rationales spreadsheet, which was originally part of Batch 3, but was substantial enough that we could not finish it by 6/30/2023. After Change Request 18, it was moved to the Continuous Modernization Program (Cont. Mod.) on 7/6/2023 and was completed through the point of SME approval.
    - Plain Language of the existing Reconnect software. This is described in contract amendment #2 as Deliverable 8, Plain Language for Existing System and is characterized as Plain Language Batches 8-11. It includes UI text that was not simplified through the Plain Language process in Batches 1-7, however, the bulk of the work is not new Plain Language transformation, but instead reformatting the existing Plain Language files into a new format that will make integration into Reconnect easier.
    - Data mapping. This is described in contract amendment #2 as Deliverable 7. It is meant to create a data map between Reconnect and the CX/UX software. As of this OWP, details are meager because the CX/UX project moved to a new vendor and new CX/UX software. Deliverable 7 remains valid, and further details on its execution are expected in January 2024.
  - Integration of the entire scope of Plain Language files (batches 1-11) into

- the new CX/UX software. Within Continuous Mod:
  - Phase POST-1a = Batches 1-4.
  - Phase 1b = Batch 5.
  - Phase 1c = Batch 6 and 7 and, presumably, Batches 8-11.
  - Pega Systems is responsible for the Plain Language integration. Peraton is responsible for testing the result.
  - NOTE: this integration will happen after the January 2024 release of the Pega software.
- Review, Approval, and Translation of the integrated CX/UX software.
  - FloridaCommerce subject matter experts (SMEs), the Office of General Counsel (OGC), and the Office of Communications and External Affairs (OCEA) combine to approve the final Plain Language.
  - The approved English is translated from English to Spanish and Haitian Creole. Pega implements the Spanish and Haitian Creole versions, and a final review and approval step completes the project.
  - Integration of the entire scope of Plain Language files (batches 1-11) into the Reconnect software, with a similar process for review, approval, and translation.

NOTE: all of these in-scope tasks and deliverables are repeated with each of the deployment cycles in the CX/UX project and Reconnect deployment.

**Out of Scope**

- Any work that is not specifically listed as “in scope.”
- Any work that is not appropriated, budgeted, and approved.
- Any work that is already addressed by the Incremental CX/UX Comms project, which ended with RA Modernization on June 30, 2023.

**B. Project Objectives and Business Benefits**

Project Objective	Business Benefit
An agile and incremental approach will ensure the current UI information is simplified through the plain language process and integrated into the Reconnect system and the CX/UX system.	<ul style="list-style-type: none"> <li>• Streamlined claimant workflow.</li> <li>• Simplified UI text, guides, forms, and other information.</li> <li>• Improved Reemployment Assistance service to Florida Citizens.</li> </ul>

**C. Critical Success Factors**

- The information from the original Connect system will be simplified through a plain-language process that involves two vendors (Beacon and KPMG) and varied teams of SMEs from FloridaCommerce. This collaboration must be managed closely to achieve the highest-quality output and to meet scheduled deadlines.
- The output of the plain language process will be delivered to not just FloridaCommerce IT for integration into Reconnect, but to a third vendor: Pega

Systems, which is providing the commercial off-the-shelf (COTS) software solution that, with customizations, will provide a new mobile-responsive user interface for the CX/UX project. Pega must integrate the simplified information into the CX/UX software. This integration must achieve the highest-quality results and meet scheduled deadlines. Because Pega’s mobile-responsive user interface is part of the CX/UX project – not part of the Comms project – this is an interdependency that must be managed very closely.

**D. Key Dates**

The key dates below represent the current status of the project as well as planned dates for the project.

Key Date	Importance and Relevance to the Project
June 2024	Project end.

**E. Major Deliverables**

Major Deliverable	Deliverable Description
Deliverable 1	Project Kick-off Meeting
Deliverable 2	Project Management Plan and Transition Plan
Deliverable 3	Project Schedule
Deliverable 4	Content Design Sessions
Deliverable 5	System Brand Manual
Deliverable 6	Plain Language Development and Translation
Deliverable 7	Data Mapping
Deliverable 8	Plain Language for Existing System

**F. Major Milestones**

Major Milestone	Milestone Description
Procurement Phase Complete	Complete
Initiation Phase Complete	Complete
Planning Phase Complete	Complete
Execution Phase Complete	In progress
Monitor and Controlling Phase Complete	In progress
Closing Phase Complete	Not started

**G. Key Stakeholders**

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work Group
Tisha Womack	Chief Financial Officer
Wendy Castle	Modernization Program Owner – Business

Nicole Sanislow	Modernization Program Manager – Business
Thomas Holliday	Modernization Program Manager – Strategic Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information Technology
Jamie Dattoli	Project Owner
Daniel Swaisgood	Project Manager

## H. Significant Project Assumptions and Constraints

### Project Assumptions

1. FloridaCommerce, Beacon, and KPMG will provide resources capable of completing the required simplification tasks at the highest quality. Those resources must be dedicated to the tasks at a level that enables them to complete those tasks at the scheduled deadlines.
2. FloridaCommerce, Pega, and test vendor Peraton will provide resources capable of completing the required integration and testing tasks at the highest quality. Those resources must be dedicated to the tasks at a level that enables them to complete those tasks at the scheduled deadlines.

### Project Constraints

1. End date of June 30, 2024 cannot be moved.

## II. Work Breakdown Structure

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

	<b>1</b>	<b>* Comms Project</b>	<b>249 days</b>	<b>64%</b>	<b>Wed 7/5/23</b>	<b>Fri 6/28/24</b>

### III. Resource Loaded Project Schedule

The resource-loaded project schedule is available on [SharePoint](#).

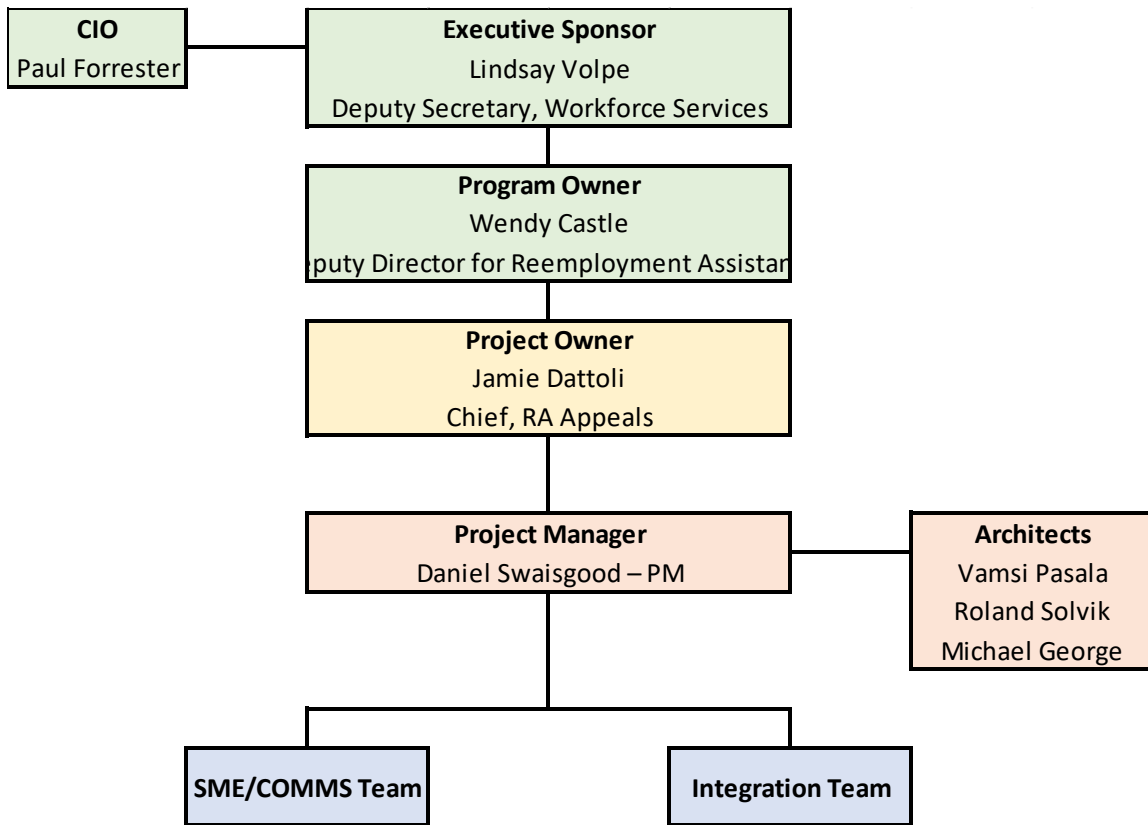

### IV. Project Spending Plan

Budget and corresponding cost plans will be revised once the difference between Technology Tool Vendors is known.

<b>FY 2023-24 Expenditures</b>
<i>Software: \$0.00</i>
<i>Other OpEx: \$986,540.28</i>
<i>Other CapEx: \$0.00</i>

**V. Project Organization and Methodology**

**A. Project Organizational Chart**

**B. Project Roles and Responsibilities**

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with the Reemployment Assistance program to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce policy

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	<ul style="list-style-type: none"> <li>Provide guidance on overall strategic direction</li> <li>Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>Facilitate resolution of significant issues in the project</li> </ul>

**C. Project Management Methodology**

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce’s satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements

- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues.

**VI. Business Process Organizational Change Management Plan**

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce’s lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan
- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

**VII. Project Risk Management Plan**

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department’s tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

2.				
3.				
4.				
5.				

### ***VIII. Capacity Plan***

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

#### **Project Capacity Planning**

- **Establish Cross-Functional Team:** To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.
- **Calculate Resource Capacity:** Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- **Determine Resource Requirements:** For each project, look at the scope and what resources are required to do the task for the project.
- **Project Prioritization:** Via a weighted scoring model used for Continuous Modernization, projects within the program have been prioritized for the purpose of optimizing resources and time.
- **Allocate Resources Based on Project Priority:** Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- **Keep the Lines of Communications Open:** Communicate between executives, project management leaders and stakeholders.
- **Document Known Risks:** Monitor risks such as union strikes, weather, government regulations that stop a project or create new ones unexpectedly.
- **Plan for How to Handle Not enough Capacity:** Understand that obtaining new needed resources takes time and advance planning is imperative.

## SECTION 1 — OVERALL PROJECT PLAN

### *I. Project Charter*

The Incremental Customer Experience/User Experience (CX/UX) Mobile-Responsive Transformation project will provide a mobile-responsive user interface for employers and Reemployment Assistance claimants across all external-facing screens. The CX/UX project will help the Department achieve the following goals:

1. Improve access and equity in the delivery of Reemployment Assistance benefits.
2. Improve information flow with claimants, employers, and TPAs to make quicker decisions.
3. Leverage new technologies to improve claimants, employers, and TPAs' overall experience with the Reemployment Assistance program, including reducing the amount of time it takes to file a claim for benefits.
4. Enhance System usability including accessibility.
5. Reduce maintenance and support time and costs.

#### **A. Scope Statement**

In October 2023, FloridaCommerce terminated its contract with its Technology Tool Vendor and amended an existing agreement with one of its current vendors to modify and enhance an existing initial claims application (mobile-responsive user interface). The existing mobile-responsive user interface was originally created in 2020 to help support the influx of claims received as a result of the economic downturn. The scope of this project is to add missing claimant questions to the existing mobile-responsive user interface, and to address errors that exist when transmitting (ingestion) the data to Reconnect. Furthermore, the project will introduce dynamic fact-finding questionnaires.

#### **In Scope**

- Addressing known data ingestion errors.
- Implementing dynamic fact-finding questionnaires associated with the initial claims application. These have been prioritized based on how often they populate in Reconnect today.
- Adding initial claims application questions from Reconnect to complete the application flow in the new mobile-responsive user interface. These questions in the previously plain language will be added in Reconnect.

#### **Out of Scope**

- Application of full plain language to the existing initial claims application.
- Reconnect code changes.
- API development.

## B. Project Objectives and Business Benefits

Project Objective	Business Benefit
An agile and incremental approach will be utilized to ensure that business process optimization (BPO) is incorporated into the transformation activities for the CX/UX project.	<ul style="list-style-type: none"> <li>• Increased System up-time.</li> <li>• The time to file an Initial Claim for Reemployment Assistance benefits will be reduced.</li> <li>• A mobile-responsive user interface is installed, configured, and tested.</li> <li>• Improved stability, reliability, and maintainability of the System.</li> <li>• Improved Reemployment Assistance service to Floridians.</li> <li>• Predictable maintenance cost for the application.</li> </ul>

## C. Critical Success Factors

The following factors are necessary for success.

- Resolve known data ingestion issues.
- Add missing claimant questions.
- Add of fact-finding questionnaires.
- Availability of key business, technology, and vendor resources.
- Access to user-friendly mobile responsive claim intake application.

## D. Key Dates

The key dates below represent the current status of the project as well as planned dates for the project.

Key Date	Importance and Relevance to the Project
January 2024	Implement the new mobile-responsive user interface.

## E. Major Deliverables

Major Deliverable	Deliverable Description
By January 2024	Implement the new mobile-responsive user interface. Vendor will design, develop, and implement the solution which meets the Department’s requirements and constraints.

## F. Major Milestones

Major Milestone	Milestone Description
Procurement Phase Complete	Complete
Initiation Phase Complete	Complete
Planning Phase Complete	Complete
Execution Phase Complete	In progress

Major Milestone	Milestone Description
Monitor and Controlling Phase Complete	In progress
Closing Phase Complete	Not started

**G. Key Stakeholders**

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work Group
Tisha Womack	Chief Financial Officer
Wendy Castle	Modernization Program Owner – Business
Nicole Sanislow	Modernization Program Manager – Business
Thomas Holliday	Modernization Program Manager – Strategic Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information Technology
Nicole Sanislow and Karmyn Hill	Project Owner
Jim Sparks	Project Manager

**H. Significant Project Assumptions and Constraints**

**Project Assumptions**

1. Vendor and FloridaCommerce can address ingestion errors in transmission from the mobile-responsive user interface to FloridaCommerce.
2. No real-time interface from the mobile-responsive user interface to Reconnect for a claimant application.
3. Vendor will provide post go-live support of its front-end intake screens.
4. Current language does not need to be reviewed and is acceptable as-is.

**Project Constraints**

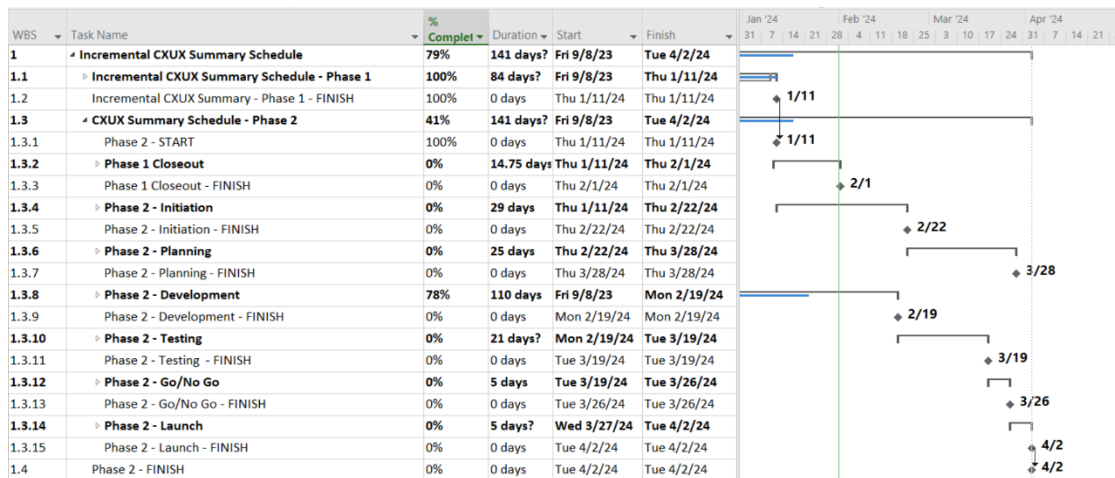

1. The CX/UX project end date of January 9, 2024, cannot be moved.
2. Timeframe limits the implementation to the first 28 fact-finding applications prioritized by the Reemployment Assistance program.

## II. Work Breakdown Structure

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

WBS	Task Name
<b>1</b>	<b>Incremental CXUX Summary Schedule</b>
<b>1.1</b>	<b>Incremental CXUX Summary Schedule - Phase 1</b>
1.2	Incremental CXUX Summary - Phase 1 - FINISH
<b>1.3</b>	<b>CXUX Summary Schedule - Phase 2</b>
1.3.1	Phase 2 - START
<b>1.3.2</b>	<b>Phase 1 Closeout</b>
1.3.3	Phase 1 Closeout - FINISH
<b>1.3.4</b>	<b>Phase 2 - Initiation</b>
1.3.5	Phase 2 - Initiation - FINISH
<b>1.3.6</b>	<b>Phase 2 - Planning</b>
1.3.7	Phase 2 - Planning - FINISH
<b>1.3.8</b>	<b>Phase 2 - Development</b>
1.3.9	Phase 2 - Development - FINISH
<b>1.3.10</b>	<b>Phase 2 - Testing</b>
1.3.11	Phase 2 - Testing - FINISH
<b>1.3.12</b>	<b>Phase 2 - Go/No Go</b>
1.3.13	Phase 2 - Go/No Go - FINISH
<b>1.3.14</b>	<b>Phase 2 - Launch</b>
1.3.15	Phase 2 - Launch - FINISH
1.4	Phase 2 - FINISH

## III. Resource Loaded Project Schedule

The WBS shown above indicates a second phase with an initial forecast for completion in April 2024. Planning is expected to start soon to detail out the scope of this new phase.

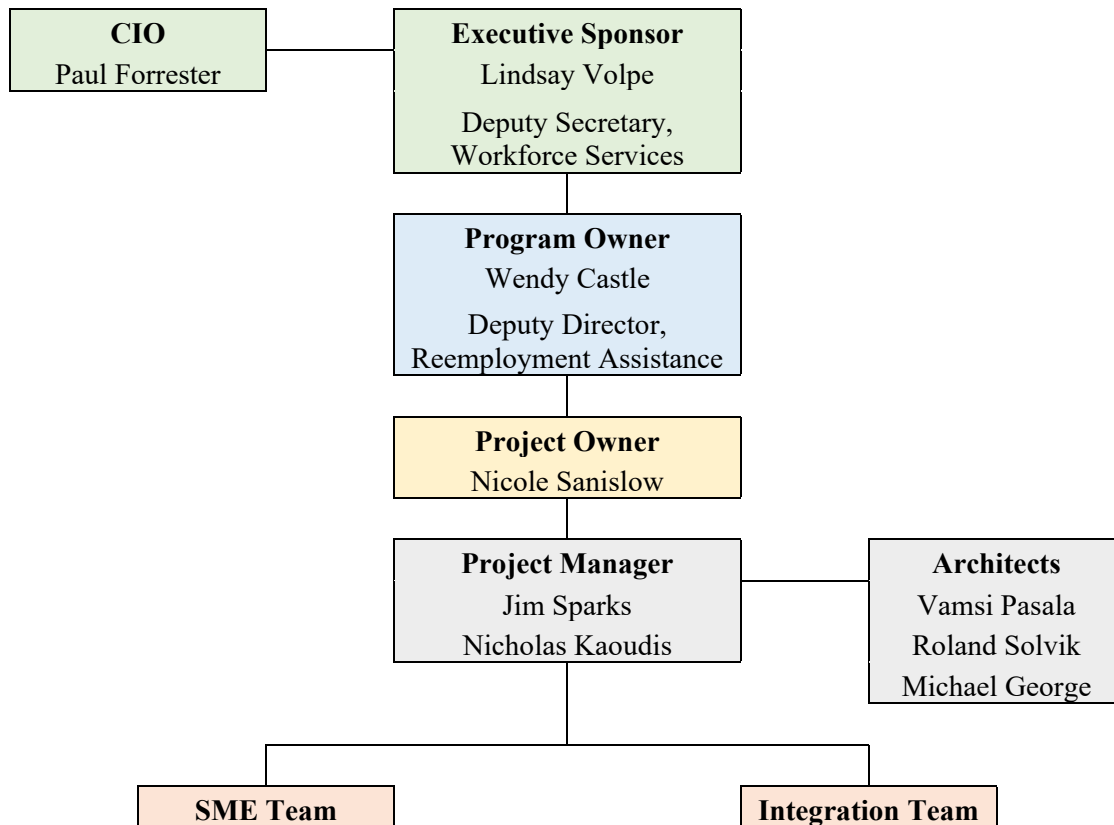

**IV. Project Spending Plan**

Budget and corresponding cost plans will be revised once the difference between Technology Tool Vendors is known.

<b>FY 2023-24 Expenditures</b>
<i>Software: \$0.00</i>
<i>Other OpEx: \$8,990,430.83</i>
<i>Other CapEx: \$0.00</i>

**V. Project Organization and Methodology**

**A. Project Organizational Chart**

**B. Project Roles and Responsibilities**

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with the Reemployment Assistance program to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce policy

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>
Domenic DiLullo	CTO	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>
Wendy Castle	Chief of RA Program Owner	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>
Paul Forrester	CIO Program Owner	<ul style="list-style-type: none"> <li>• Responsible for the Strategy of FloridaCommerce IT</li> <li>• Responsible for Staffing and Support plans</li> <li>• Responsible for day-to-day operations</li> <li>• Responsible for working closely with programs on technology needs</li> </ul>

Jim Sparks	Project Manager	<ul style="list-style-type: none"> <li>• Reviews and approves deliverables</li> <li>• Manages all aspects of the project and ensure compliance with project plan</li> <li>• Monitors project progress and schedule adherence</li> <li>• Completes all documents related to the project</li> <li>• Identifies and manages risks according to the project plan</li> </ul>
SME Team	Subject Matter Expert(s)	<ul style="list-style-type: none"> <li>• Process development tasks</li> <li>• Contributes subject matter expertise</li> <li>• Complete assigned project tasks in accordance with the Project Schedule</li> <li>• Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP</li> <li>• Assists the Project Manager in responding to risks and issues</li> <li>• Assists the Project Manager in evaluating change requests</li> </ul>
Technical Team	Technical Support	<ul style="list-style-type: none"> <li>• Contributes technical expertise</li> <li>• Complete assigned project tasks in accordance with the Project Schedule</li> <li>• Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP</li> <li>• Assists the Project Manager in responding to risks and issues</li> <li>• Assists the Project Manager is evaluating change requests</li> </ul>
Vendor	Strategic Planning Office (SPO)	<ul style="list-style-type: none"> <li>• Monitors project progress</li> <li>• Facilitates FloridaCommerce Leadership Team Governance meetings</li> <li>• Provides guidance and support to project manager and project team members</li> </ul>

### C. Project Management Methodology

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce’s satisfaction and project success. Successful project management must

include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues.

## ***VI. Business Process Organizational Change Management Plan***

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce’s lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan
- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

**VII. Project Risk Management Plan**

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department’s tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

## SECTION 1 — OVERALL PROJECT PLAN

### *I. Project Charter*

The Reports Project objective is to eliminate the crystal reports server and move its reports to the data warehouse. This will remove the dependency of reports from the Reconnect database to a system built for efficient analysis and reporting. Moving the reports to the data warehouse leaves more processing power for claimants in the Reconnect system.

The project team will evaluate 311 Crystal Reports to determine:

1. Business Unit awareness of the existence of each report.
2. If the report will, or continues to provide, value to the business unit.
3. If the report can be retired.
4. Translating the report to use the analytical structure so it can be run from the data warehouse.

Although the schedule appears to end beyond the June 28, 2024, project end date, there are some reports that can and will be retired, which will help meet the project end date. The reports that appear after the June 28, 2024, date will move up in schedule as reports are retired.

In this Operational Workplan, the entire list of reports is provided. Future reports will only include those that will be completed by June 28, 2024. The project manager will move reports up in priority as others are retired via validation.

In the event there are reports to be completed beyond the June 28, 2024, date, a decision will be made in June 2024. This decision will be to complete the remainder of the reports via operational product delivery or create an additional project to complete the outstanding reports, if any.

### **A. Scope Statement**

The Project Team will work with Workforce Services to evaluate 311 Crystal Reports to determine if they can be moved from the Crystal Reports Server to the Florida Commerce's Data Warehouse by June 28, 2023. If the report no longer provides value, the report and any related batches will be retired.

The benefit of moving reports from using the Reconnect database to using the data warehouse makes the reports available regardless of the status of Reconnect availability. Removing the dependency from the Reconnect system provides more stability and efficiency for claimants.

#### **In Scope**

- 311 Crystal Reports – This includes the existing Crystal Reports on the Reports Server that have not been converted to the data warehouse.
- Minor adjustments and enhancements to existing crystal reports as part of the conversion to the data warehouse.
- Batches – Any batches that are used to generate Crystal Reports will be retired.

**Out of Scope**

- 20 Reports already converted to the data warehouse via operational product delivery.
- Enhancements to reports already reviewed, approved, and pushed to production in the data warehouse.
- New crystal report requests.
- Building links to the data warehouse from Reconnect is out of scope for this project.
- 40+ Reports deemed unnecessary by business units.

**B. Project Objectives and Business Benefits**

The older an application such as Crystal Reports, the more it costs to maintain its functionality—to the point where keeping it costs more than the value it provides.

Project Objective	Business Benefit
FloridaCommerce will have a modular foundation that enables continuous modernization	<ul style="list-style-type: none"> <li>• Provides more efficient tool for reporting/data for staff use.</li> <li>• Provides round-the-clock availability of reports and data.</li> <li>• Removes the dependency on the Reconnect system and improves the modularization of the Reconnect foundation.</li> </ul>
Eliminates the Crystal Reports Server	<ul style="list-style-type: none"> <li>• Allows FloridaCommerce to retire the legacy Crystal Reports server and software at the end of its useful life.</li> </ul>
Removes batches (if any) from nightly batch processing	<ul style="list-style-type: none"> <li>• Removing batches leaves more time for higher priority batch jobs.</li> </ul>

**C. Critical Success Factors**

The following factors are necessary for success.

- Validation of 311 Crystal Reports.
- Retirement of reports that no longer have value.
- Retirement of the Crystal Reports Server
- Operational Reports Page in the data warehouse listing all ex-crystal reports that provide value to Workforce Services.

**D. Key Dates**

This project takes over an operational effort that started in January 2023. Therefore, a transition was necessary to separate the operational process from higher level project requirements.

The contents of each release represented below will vary greatly until measures for team velocity can be established. Also, the team continues to provide support for high priority production issues such as ETA reports and USDOL Population sample corrections.

Key Date	Importance and Relevance to the Project

**E. Major Deliverables**

Major Deliverable	Deliverable Description
Project Management Plan	A Project management plan is a formal, approved document that defines how the project is executed, monitored, and controlled
Project Products (Reports)	Products are the value delivered to the customer during the project. They are the reason the project exists.
Project Closeout Report	A project closure report is a document that summarizes the results of a project. It includes the team's accomplishments, lessons learned, and recommendations for improving upon future projects.

**F. Major Milestones**

Major Milestone	Milestone Description
Operation to Project Transition – September 22, 2023	Closed all operational tasks and created project schedule for Reports Project.
Build 322 - October 16, 2023	Delivery of 5 Reports
Build 323 - November 20, 2023	Delivery of 6 Reports
Build 324 - December 18, 2023	Delivery of 6 Reports
Build 325 - January 21, 2024	Delivery of 6 Reports
Build 326 - February 18, 2024	Delivery of 6 Reports
Build 327 - March 17, 2024	Delivery of 6 Reports
Build 328 - April 15, 2024	Delivery of 6 Reports
Build 329 – May 12, 2024	Delivery of 6 Reports
Build 330 – June 10, 2024	Delivery of 6 Reports
Build 331 - June 30, 2024	Delivery of 6 Reports
June 30, 2024	Project Closure, Transition to Operations

## G. Key Stakeholders

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work Group
Tisha Womack	Chief Financial Officer
Wendy Castle	Modernization Program Owner – Business
Nicole Sanislow	Modernization Program Manager – Business
Thomas Holliday	Modernization Program Manager – Strategic Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information Technology
Nicole Sanislow and Karmyn Hill	Project Owner
Jim Sparks	Project Manager

## H. Significant Project Assumptions and Constraints

### Project Assumptions

1. Some functional design documents do not exist for some of the 331 reports and will have to be written.
2. Some reports may not be known to business units.
3. Some reports will no longer be needed.
4. Reports will exist in the data warehouse and all who need access will be given access rights.
5. Not all 311 reports will be transitioned to the data warehouse.

### Project Constraints

1. The project must end by June 30, 2024, regardless of remaining reports.
2. Project Team availability is shared with other priorities, (production support for USDOL Audit Requests, ETA reports, existing crystal reports, USDOL Sample population validation, etc.)

## II. Work Breakdown Structure

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

WBS	Task Name
0	Reports
1	Project Management
1.1	Discovery/Initiation
1.1.1	4.1 Project Charter Creation
1.1.2	13.1 Identification of Stakeholders

WBS	Task Name
1.2	Planning
1.2.1	4.2 Develop Project Management Plan
1.2.2	5.1 Plan Scope Management
1.2.3	5.2 Collect Project Requirements
1.2.4	5.3 Define Scope
1.2.5	5.4 Create WBS
1.2.6	6.1 Plan Schedule Management
1.2.7	6.2 Define Activities
1.2.8	6.3 Sequence Activities
1.2.9	6.4 Estimate Activity Durations
1.2.10	6.5 Develop Schedule
1.2.11	8.1 Plan Quality Management
1.2.12	9.1 Plan Resource Management
1.2.13	9.2 Estimate Activity Resources
1.2.14	10.1 Plan Communications Management
1.2.15	13.2 Plan Stakeholder Engagement
1.3	Executing
1.3.1	4.3 Track Project Work
1.3.2	10.2 Manage Communications
1.3.3	13.3 Manage Stakeholder Engagement
1.4	Monitor & Control
1.4.1	4.5 Monitor & Control Project Work
1.4.2	5.5 Validate Scope
1.4.3	5.6 Control Scope
1.4.4	6.6 Control Schedule
1.4.5	10.3 Monitor Communications
1.4.6	11.7 Monitor Risks
1.4.7	13.4 Manage Stakeholder Engagement
1.5	Closing
1.5.1	4.7 Close Project or Phase
2	Benefits Identification and Measures
2.1	Evaluate Sources of Crystal Reports and Related Batches
2.2	Collect Infrastructure Related Crystal Report budget costs
2.3	Identify Measures for Maximizing Work Not Done
2.3.1	Calculate Average Pipeline Length - Start of Requirements to Push to Prod
2.3.2	Calculate Maximized Work Not Done (Formula to use)
2.4	Collect Snowflake Costs for Crystal Reports (if possible)
2.5	Create/Maintain Crystal to Snowflake Comparison Report
3	Reports Process Operational Support

WBS	Task Name
3.1	Integrate RAD Reporting Requests into Service Now
3.2	Create/Discover Process for Reports Access
4	Product Delivery
4.1	Operational Project Transition Completed
4.2	CRPT07 Child Support Options
4.3	CRPT111 UC Bank Payment Processing Exceptions
4.4	CRPT114 UC Payment Summary
4.5	CRPT12 Claims Filed (By Process Date)
4.6	CRPT151 Weely Hearing Results
4.7	CRPT210 Appeals Case Decisions
4.8	CRPT212 Case Aging Report
4.9	CRPT214 Disposition Corrected Decisions
4.1	CRPT216 Docketed Disposed Pending with Time Lapse
4.11	CRPT219 Hearing Officer Postponements
4.12	CRPT224 Referee Productivity Report
4.13	CRPT226 Statewide Docketed Disposed Pending Report
4.14	CRPT229 TRA - Trade Readjustment Act Appeals Report
4.15	CRPT275 DUA Appeals Disposed
4.16	CRPT28 Daily Claims Entry Totals
4.17	CRPT306 Claimants with Out of State Benefits
4.18	CRPT358 STC Claims with Pending ADJ Issues Weekly
4.19	CRPT369 First Pay Due Report
4.2	CRPT391 DUA Appeals Filed
4.21	Release 322 - 10/15/2023
4.21.1	CRPT213: Develop Deputy Clerk Productivity Report (322)
4.21.2	CRPT280: Develop Appeals Weekly Time Lapse Report (322)
4.21.3	CRPT236: Develop IP Address Search Report (322)
4.21.4	CRPT281: Develop Wage Audit Predeterminations Report (322)
4.21.5	CRPT188: Develop Staff Assisted Initial Claims Report - Monthly, Daily, Quarterly (322)
4.22	Release - 323 - 11/19/2023
4.22.1	CRPT112: Develop UC Benefits Payment Register Report in Tableau (323)
4.22.2	CRPT115: Develop Untimely First Payment Report (323)
4.22.3	CRPT211/278: Develop Average Processing Time for Appeals Cases Report (323)
4.22.4	CRPT217: Develop Docketing Productivity Report (323)
4.22.5	CRPT227: Develop Time Lapse Percentage (323)
4.22.6	CRPT237: Develop Staff Assisted Continued Claims Report - Monthly, Daily, Quarterly (323)
4.22.7	CRPT26: Develop Cumulative Totals Report (323)
4.22.8	CRPT31: Develop Daily, Monthly SSA Statistics Report (323)

WBS	Task Name
4.22.9	CRPT371 CanceledNonMonPending (323)
4.22.10	CRPT95/98: Develop STC Summary Report (323)
4.23	Release - 324 - 12/17/2023 (CodeCutOff-12/15)
4.23.1	CRPT357: Develop Long Term Dated Stops Report (324)
4.23.2	CRPT363 Auto Adjudicated JSR Report (324)
4.23.3	CRPT368 Aging Issues Hold Within SOL/No Weeks Requested Report (324)
4.23.4	CRPT253/255: Develop Earnings Weekly, Monthly Determinations by Examiner (Merged Weekly/Monthly/Quarterly) (324)
4.23.5	CRPT377AD DUA Activity - Applications Denied (324)
4.23.6	CRPT355 Automated Wage Update Workflow Report (324)
4.24	Release - 325 - 01/21/2024 (CodeCutOff-01/19)
4.24.1	CRPT254/256 Earnings Weekly/Monthly Redeterminations by Examiner (325)
4.24.2	CRPT354 Automated Wage Update Detail Report (325)
4.24.3	CRPT283 Blocked Claims Issue (325)
4.24.4	CRPT334 Wage_Determination_Issues Report (325)
4.24.5	CRPT441 1099G Summary Report (325)
4.24.6	CRPT361 Earning Overpayments by Overpaid Weeks Report (325)
4.25	Targeted for Release - 326 - 02/18/2024 (CodeCutOff - 02/16)
4.25.1	CRPT02 Analysis of Overpayments by Cause (327)
4.25.2	CRPT359/360: Appeals Reversals Weekly Report (Merged Weekly/Monthly) (326)
4.25.3	CRPT377 DUA Activity - Applications Denied (326)
4.25.4	CRPT11 Claimant Repayment Summary (327)
4.25.5	CRPT265/265D/265M/265WD Protest Benefit Charges Workflow Queue (327)
4.25.6	CRPT116L LWA Voucher Payment Summary (326)
4.26	Ready for Release - 327 - 03/17/2024 (CodeCutOff - 03/15)
4.27	Ready for Release - 328 - 04/14/2024 (CodeCutOff - 04/12)
4.28	Ready for Release - 329 - 05/12/2024 (CodeCutOff - 05/11)
4.29	Ready for Release - 330 - 06/09/2024 (CodeCutOff - 06/07)
4.3	Ready for Release - 331 - 06/30/2024 (CodeCutOff - 06/28)
4.31	UAT
4.32	In Development/Unit Testing

**IV. Project Spending Plan**

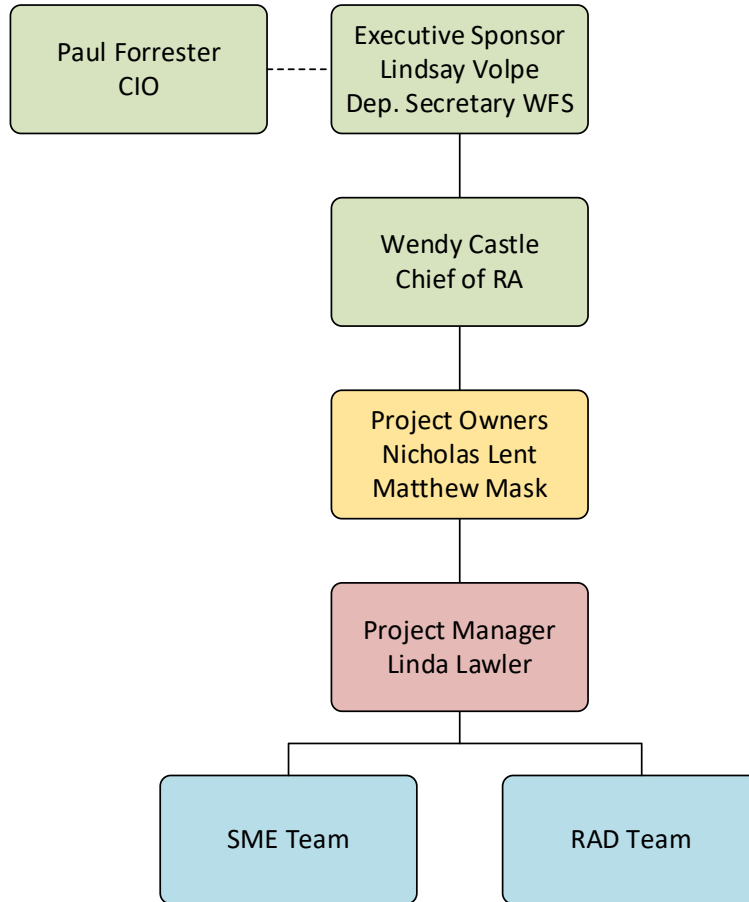

The Reports Project uses existing operational resources, therefore there is no project spend.

FY 2021-22 Expenditures	FY 2022-23 Expenditures	FY 2023-24 Expenditures
<i>Software: \$0.00</i>	<i>Software: \$0.00</i>	<i>Software: \$0.00</i>
<i>Other OpEx: \$0.00</i>	<i>Other OpEx: \$0.00</i>	<i>Other OpEx: \$0.00</i>
<i>Other CapEx: \$0.00</i>	<i>Other CapEx: \$0.00</i>	<i>Other CapEx: \$0.00</i>

**V. Project Organization and Methodology**

**A. Project Organizational Chart**

Note: RAD is not an acronym, it’s a name chosen by the team. This is a normal Agile process.

**B. Project Roles and Responsibilities**

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with the Reemployment Assistance program to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce policy

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>

Name	Project Role	Responsibility

SME Team	Subject Matter Expert(s)	<ul style="list-style-type: none"> <li>• Process development tasks</li> <li>• Contributes subject matter expertise</li> <li>• Complete assigned project tasks in accordance with the Project Schedule</li> </ul>

Name	Project Role	Responsibility
		<ul style="list-style-type: none"> <li>• Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP</li> <li>• Assists the Project Manager in responding to risks and issues</li> <li>• Assists the Project Manager in evaluating change requests</li> </ul>
RAD Team	Data Engineers	<ul style="list-style-type: none"> <li>• Breaks requirements documents into product backlog items</li> <li>• Redesigns reports for the data warehouse</li> <li>• Converts crystal reports to data warehouse reports</li> </ul>

**C. Project Management Methodology**

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce’s satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones

- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues.

**VI. Business Process Organizational Change Management Plan**

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce’s lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan
- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

**VII. Project Risk Management Plan**

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department’s tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner

## SECTION 1 — OVERALL PROJECT PLAN

### I. *Project Charter*

As a part of the FloridaCommerce Reemployment Assistance (RA) Modernization Program, the Claims Adjudication process for Reemployment Assistance will be modernized through implementation of an automated Workflow Management solution.

#### A. **Scope Statement**

The project will define the streamlined business process for adjudication, identify specific opportunities for automation, gather requirements, design the technical solution, and required interfaces, determine the best technical path forward (e.g., leveraging existing tool and/or custom software development), and implement the solution. The decision is to leverage the existing tool (Pega) to automate and create the Adjudication workflow management solution.

##### **In Scope**

- Determine problem statement and requirements.
- Streamline existing business processes & identify opportunities for automation.
- Design a technical solution, interfaces, and integration with Reconnect.
- Develop and test solution using agile software development methodology.
- Conduct integration and UAT testing.
- Conduct training, release planning, and operational turnover.
- Implement solution.

##### **Out of Scope**

- Continuing to use Reconnect to perform adjudication workflow management functionality that is being replaced by the solution.

#### B. **Project Objectives and Business Benefits**

Currently in the initiation phase and moving to the planning stage next month.

Project Objective	Business Benefit
Integrate the new solution with Reconnect as the system of record transferring data back and forth between Reconnect and the new solution (e.g., Application Programming Interfaces, import/export, batch file transfer, etc.)	<ul style="list-style-type: none"> <li>• Adjudication decisions will be determined more quickly.</li> <li>• Greater productivity due to improved workflow.</li> <li>• Improved quality measures.</li> <li>• Reduction of calls into the contact center due to faster adjudication decisions determined.</li> <li>• Ability to prioritize and rapidly change directions (e.g., economic downturns, pandemics, natural disasters, etc.).</li> <li>• Ability to harness opportunities for automation will decrease adjudication workloads, improve decision making, and create an increase in the number of claims that may be processed daily.</li> </ul>
Gather the requirements that define what the new solution should accomplish.	
Identify the impacts to Reconnect system of record when adjudication process is moved out of that system and identify how to fill any gaps.	
Create Interface Control Documents for each interface and create Service Level Agreements	

Project Objective	Business Benefit
Determine infrastructure requirements and design where and how the solution will be implemented (e.g., cloud, servers, storage capacity, processing speed, internal memory, network, etc.)	<ul style="list-style-type: none"> <li>• Reduction in appeals workload because adjudication process becomes accurate and timely.</li> <li>• Assist adjudication leadership with monitoring and reporting on adjudication performance.</li> <li>• Allow staff to focus on issuing timely determinations.</li> <li>• Consistency in making determination decisions based on all users reviewing the same intelligent content for guidance during determinations.</li> <li>• Metrics and dashboard for FC Leadership to measure adjudication process.</li> <li>• Improve information flow with claimants, employers, and Third-Party Administrators (TPA) to provide quicker resolutions.</li> </ul>
Automate the current manual workaround for assignment of work and quickly allow for redistribution of work.	<ul style="list-style-type: none"> <li>• Increased speed to first pay for claimants.</li> <li>• Ability to prioritize and rapidly change directions (e.g., economic downturns, pandemics, natural disasters, etc.).</li> <li>• Greater productivity for adjudicators and adjudication leadership.</li> <li>• Improved quality measures.</li> <li>• Allow staff to focus on issuing timely determinations vs manually assigning work.</li> </ul>
Review the current adjudication work flows to identify more efficient and streamlined ways to accomplish the work.	<ul style="list-style-type: none"> <li>• Increased speed to first pay for claimants.</li> <li>• Greater productivity for adjudicators and adjudication leadership.</li> <li>• Improved quality measures.</li> </ul>
Design wireframes that mimic the workflows.	<ul style="list-style-type: none"> <li>• Less calls to the contact center because of increased accuracy during adjudication.</li> </ul>
Locate the issues that are suitable for automation and define the steps and/or business rules required to automate those issues.	<ul style="list-style-type: none"> <li>• Ability to harness opportunities for automation will decrease adjudication workloads, improve decision making, and create an increase in the number of claims that may be processed daily.</li> <li>• Allow staff to focus on issuing timely determinations.</li> </ul>
Gather the websites, documents and reference materials required to make determinations and prepare them for implementation into content sensitive help.	<ul style="list-style-type: none"> <li>• Consistency in making determination decisions based on all users reviewing the same intelligent content for guidance during determinations.</li> <li>• Reduction in appeals workload because adjudication process becomes accurate and timely.</li> </ul>
Identify the reports required to meet FloridaCommerce management goals (dashboards, metrics, workload reports, assignment reports, priority reports, etc.)	<ul style="list-style-type: none"> <li>• Assist adjudication leadership with monitoring and reporting on adjudication performance.</li> <li>• Metrics and dashboard for FL Commerce Leadership to measure adjudication process.</li> </ul>
Define the team and departmental performance metrics being used to measure and track efficiencies.	<ul style="list-style-type: none"> <li>• Improved quality measures</li> </ul>

### C. Critical Success Factors

- Sufficient FloridaCommerce architects and IT staff to create the interface with Reconnect (system of record) and integrate with the new Adjudication Workflow System.

### D. Key Dates

Key Date	Importance and Relevance to the Project
December 15, 2023	Initiation Phase complete; Rule 60GG documents created & approved (Charter/Business Case)
January 10, 2023	Complete the Planning Phase; Rule 60GG documents created & approved; Project Requirements defined/approved; Test Plan completed/approved
January 26, 2024	Sprint Zero JADs to Develop Backlog; Definition of sprint roadmap & scope
May 14, 2024	Project Development Completed
June 20, 2024	Testing & Execution Phases Completed
June 28, 2024	Project Closeout Completed

### E. Major Deliverables

Major Deliverable	Deliverable Description
Project Charter	Description of project with authority to move forward
Project Business Case	Description alternative analysis; business process to be modernized; success criteria; risks, costs; stakeholder impacts
Schedule	Timeline for project
Requirements	List of what the solution should accomplish
Project Management Plan	Description of how the project will be executed
Solution Design Document	Create & document how the solution will function to meet requirements
Solution Development/Testing Sprints; User Stories; Product Backlog; Test Plan; UAT Test Plan; Requirements Traceability Matrix	Create the solution and test to determine that it meets the requirements. This will be incremental by sprint using agile development methodology.
Solution Implementation Plan; Training Plan; Help Desk Support Plan	Develop release plan, train the users, prepare help desk for support of solution, move the solution to production, complete security artifacts, develop proper documentation
Solution Maintenance & Support	Monitor the solution and ensure updates are completed timely.
Project Close Out Report	A report of project closure using Center of Excellence template.

## F. Major Milestones

Major Milestone	Milestone Description
<b>Initiation Phase</b> <ul style="list-style-type: none"> <li>• Business Case</li> <li>• Charter</li> <li>• RCA Phase Gate</li> </ul> Stakeholder Registry	Completion of Rule 60GG deliverables (i.e., charter, business case, stakeholder registry, etc.)
<b>Planning Phase</b> <ul style="list-style-type: none"> <li>• Buy vs Build Decision</li> <li>• PMP</li> <li>• Schedule</li> <li>• Test Plan (High-Level)</li> </ul> RCA Phase Gate	Completion of Project Management Plan, Schedule, Test Plan, RCA Phase Gate
<b>Execution Phase</b> <ul style="list-style-type: none"> <li>• Design Completed</li> <li>• Development/Unit Test Completed</li> <li>• Integration/UAT Testing Completed</li> <li>• Implementation Completed</li> </ul> Transfer to Maintenance & Operations	Completion of execution deliverables (i.e., design, development, implementation, maintenance & operations)
<b>Close Out Phase</b> <ul style="list-style-type: none"> <li>• Perform Close Out Activities</li> </ul> Close Out Report	Completion of the project

## G. Key Stakeholders

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work Group
Tisha Womack	Chief Financial Officer
Wendy Castle	Modernization Program Owner – Business
Nicole Sanislow	Modernization Program Manager – Business
Thomas Holliday	Modernization Program Manager – Strategic Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information Technology
Johnathan Hill	Project Owner
Clara Kendrick	Project Manager

## **H. Significant Project Assumptions and Constraints**

### **Project Assumptions**

1. Completed: FloridaCommerce will make a buy vs build decision in a timely manner.
2. Completed: FloridaCommerce will conduct the procurement process efficiently and there will be no delays to obtaining a COTs product.
3. Completed: There will be qualified vendors responding to the procurement with a satisfactory COTS product that meets the ‘must have’ requirements if the decision is to buy a product.
4. There will be sufficient FloridaCommerce architects and IT staff to create the interface with Reconnect (system of record) and integrate with the new Adjudication Workflow System.

### **Project Constraints**

1. The project budget and the timeline to implement the Adjudication Workflow Management system are major constraints to the project.
2. Available FloridaCommerce resources during specific phases of the project may constrain the project.
3. The ability and how to technically integrate with Reconnect (the system of record) constrains the project.

## ***II. Work Breakdown Structure***

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

<ul style="list-style-type: none"> <li>▾ <b>Adjudication Workflow Management System</b></li> </ul>
<ul style="list-style-type: none"> <li>▾ <b>Initiation</b></li> </ul>
<ul style="list-style-type: none"> <li>▾ <b>Risk and Complexity Assessment</b></li> </ul>
<ul style="list-style-type: none"> <li>▾ <b>Deliverable: Project Charter</b></li> </ul>
<ul style="list-style-type: none"> <li><b>Project Charter complete</b></li> </ul>
<ul style="list-style-type: none"> <li>▾ <b>Stakeholders Register</b></li> </ul>
<ul style="list-style-type: none"> <li>▾ <b>Project Kickoff Meeting</b></li> </ul>
<ul style="list-style-type: none"> <li>▾ <b>Deliverable: Business Case</b></li> </ul>
<ul style="list-style-type: none"> <li><b>Initiation Phase complete</b></li> </ul>
<ul style="list-style-type: none"> <li>▾ <b>Planning</b></li> </ul>
<ul style="list-style-type: none"> <li>▾ <b>Deliverable: Project Schedule</b></li> </ul>
<ul style="list-style-type: none"> <li><b>Project Schedule complete</b></li> </ul>

#### IV. Project Spending Plan

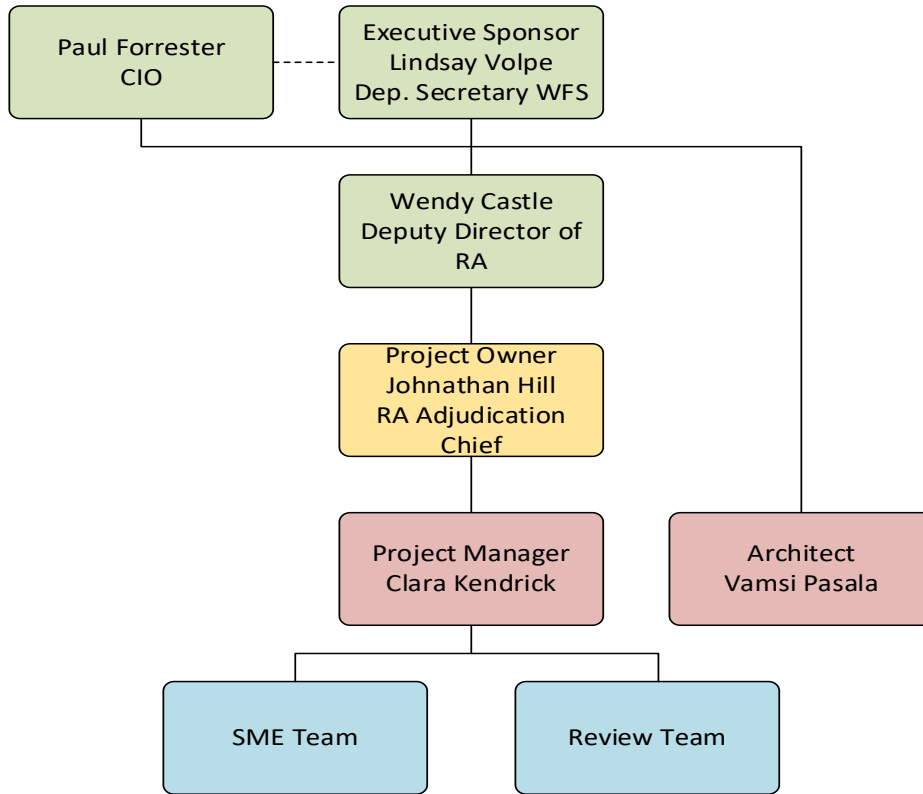

The breakdown of the expenditures is unknown. Using the total budget within software category at this time.

FY 2023-24 Expenditures	FY 2024-25 Expenditures
Software: \$779,714.50	Software: \$0.00
Other OpEx (Vendor Deliverables): \$0.00	Other OpEx (Vendor Deliverables): \$0.00
Other CapEx: \$0.00	Other CapEx: 0.00

## V. Project Organization and Methodology

### A. Project Organizational Chart

The Project Manager meets with project stakeholders every week on business rules progress, and to answer general status questions. This meeting is also the forum for escalating issues that require all project stakeholders to resolve together.

### B. Project Roles and Responsibilities

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with the Reemployment Assistance program to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce policy.

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	<ul style="list-style-type: none"> <li>Provide guidance on overall strategic direction</li> </ul>

Name	Project Role	Responsibility
		<ul style="list-style-type: none"> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> <li>• Reviewing and signing off on key milestones</li> </ul>
Paul Forrester	Project Sponsor/Chief Information Officer (CIO)	<ul style="list-style-type: none"> <li>• Responsible for the Strategy of FloridaCommerce IT</li> <li>• Responsible for Staffing and Support plans</li> <li>• Responsible for day-to-day operations</li> <li>• Responsible for working closely with programs on technology needs</li> </ul>
Wendy Castle	Project Sponsor/Director Reemployment Assistance	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project</li> <li>• Facilitate resolution of significant issues in the project</li> </ul>
Johnathan Hill	Project Owner	<ul style="list-style-type: none"> <li>• Represents the interests of the stakeholders</li> <li>• Monitors project progress</li> <li>• Approves project definition</li> <li>• Approves plans and schedules</li> <li>• Validates project deliverables meet expectations</li> <li>• Tracks project benefit recognition, risk retention and mitigation activities</li> <li>• Acts as liaison between teams and Management for issue escalation and resolution</li> </ul>
Clara Kendrick	Project Manager	<ul style="list-style-type: none"> <li>• Manages all aspects of the project and ensure compliance with project plan</li> <li>• Monitors project progress and schedule adherence</li> <li>• Completes all documents related to the project</li> <li>• Identifies and manages risks according to the project plan</li> </ul>
Vamsi Pasala	Architect and Technical Lead	<ul style="list-style-type: none"> <li>• Responsible for assisting the team in finding solutions to issues elevated to him</li> <li>• Is available to project sponsors for technical questions regarding direction of the project</li> </ul>

Name	Project Role	Responsibility
		and any dependencies/impacts of other projects <ul style="list-style-type: none"> <li>• Assists the PM in coordinating additional technical resources/SMEs if necessary, for the team.</li> </ul>
SME Team	Subject Matter Expert(s)	<ul style="list-style-type: none"> <li>• Process development tasks</li> <li>• Contributes subject matter expertise</li> <li>• Complete assigned project tasks in accordance with the Project Schedule</li> <li>• Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP</li> <li>• Assists the Project Manager in responding to risks and issues</li> <li>• Assists the Project Manager in evaluating change requests</li> </ul>
Technical Team	Technical Support	<ul style="list-style-type: none"> <li>• Process development tasks</li> <li>• Contributes technical expertise</li> <li>• Complete assigned project tasks in accordance with the Project Schedule</li> <li>• Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP</li> <li>• Assists the Project Manager in responding to risks and issues</li> <li>• Assists the Project Manager is evaluating change requests</li> </ul>
Review Team	Documentation Reviewers	<ul style="list-style-type: none"> <li>• Reviews documentation when submitted by Vendor</li> <li>• Contributes subject matter expertise</li> <li>• Completes assigned project tasks in accordance with the Project Schedule</li> <li>• Identifies risks and issues to the Project Managers in accordance with the Risk and Issue Management section of this PMP</li> <li>• Assists the Project Managers in responding to risks and issues</li> <li>• Assists the Project Manager in evaluating change requests</li> </ul>

### **C. Project Management Methodology**

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce’s satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues.

### **VI. *Business Process Organizational Change Management Plan***

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce’s lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan

- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

**VII. Project Risk Management Plan**

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department’s tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

## SECTION 1 — OVERALL PROJECT PLAN

### ***I. Project Charter***

The Appeals Workflow Management System project is part of the Florida Department of Commerce’s Continuous Modernization Program, hereafter referred to as “Continuous Mod.”

In support of Continuous Mod, FloridaCommerce maintains the Reemployment Assistance Claims and Benefits Information System, commonly referred to as “Reconnect,” hereafter referred to as “the System.”

The System serves as the central repository to file, track, view, and process Reemployment Assistance claims. The System functions as the core benefits administration platform for FloridaCommerce staff, claimants, and employers and Third-Party Administrators (TPAs). The System provides online access to apply for benefits, view, and track claims, set up payment information, respond to fact-finding requests, and protest and appeal eligibility determinations.

For employers, the System allows access to respond to and protest inquiries regarding claimants receiving Reemployment Assistance benefits. The System also allows employers to grant TPAs access to perform specific administrative functions.

The current Appeals Workflow Management System (AWMS) supports a process facilitated by a collection of functions and features inside the System. Having been built over a decade ago, the System and the functions and features that comprise the AWMS need modernization.

### **A. Scope Statement**

#### **In Scope**

- All appropriated, budgeted, and approved tasks necessary to implement the AWMS.
- Subsequent transition to application maintenance and support.
- New features, improvements to existing features, and fixes to non-working functionality comprise the project scope. Most of those items are already captured as Help Desk tickets in ServiceNow. A few others have already been established via information gather with appeals Subject Matter Experts (SMEs). The list of in-scope items is captured in the project charter and is not repeated here.

#### **Out of Scope**

- Any work that is not specifically listed as “in scope.”
- Any work that is not appropriated, budgeted, and approved.

### **B. Project Objectives and Business Benefits**

Project Objective	Business Benefit
Improvements to the existing Appeals Workflow Management System	<ol style="list-style-type: none"> <li>1. Streamlined appeals workflow for both claimants and FloridaCommerce Appeals SMEs.</li> <li>2. Increases in SME efficiency and the improved Appeals processing times that would result.</li> <li>3. Better customer service.</li> </ol>

### C. Critical Success Factors

The work to improve the existing AWMS will be performed by in-house software developers and testers, all of whom have expertise in working with the System. The Appeals SMEs – those who use the System every day in executing the job of the Appeals team – will guide development of the improvements and will review and approve the result. In both cases (developers/testers and SMEs), resource allocation will be critical to the success of the project. Resources are shared across multiple projects, so maintaining an accurate project schedule, accurately forecasting resource requirements, and accurately forecasting dates and durations is critical to correctly allocating resources.

### D. Key Dates

Key Dates (anticipated)	Importance and Relevance to the Project
12/5/2023	Initiation Phase Ends
02/15/2024	Planning Phase Ends
12/18/2023	Execution Phase Starts
6/28/2024	Project Ends

### E. Major Deliverables

8/25/2023	Deliverable 1: Project Kick-Off Meeting
12/5/2023	Deliverable 2: Project Management Plan & Transition Plan
9/29/2023	Deliverable 3: Project Schedule
6/30/2024	Deliverable 4: Go Live

### F. Major Milestones

Major Milestone	Milestone Description
Procurement Phase Complete	Completed
Initiation Phase Complete	Completed
Planning Phase Complete	In progress
Execution Phase Complete	In progress
Monitor and Controlling Phase Complete	In progress
Closing Phase Complete	Not started

### G. Key Stakeholders

Key Stakeholders	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Work Group
Tisha Womack	Chief Financial Officer / Work Group
Lindsay Volpe	Deputy Secretary, Division of Workforce Services / Work Group

Wendy Castle	Modernization Program Owner – Business
Nicole Sanislow	Modernization Program Manager – Business
Jamie Dattoli	Project Owner
TBD	Modernization Program Manager – Strategic Planning Office
Thomas Hoverman	Organizational Change Management Lead
Nicholas Kaoudis	Project Manager

**H. Significant Project Assumptions and Constraints**

**Project Assumptions**

- FloridaCommerce will provide resources capable of completing the required analysis, development, testing, and review tasks at the highest quality. Those resources must be dedicated to the tasks at a level that enables them to complete those tasks at the schedule deadlines.

**Project Constraints**

- Human resources are finite and, due to the complexity of the System, cannot be replaced with equivalent expertise in the time required.
- End date of 6/30/2024 cannot be moved.

**II. Work Breakdown Structure**

The work breakdown structure defines the overall layout of the project to improve the existing AWMS.

WBS	Task Name
<b>1</b>	<b>Appeals WMS</b>
1.1	Project Prework
<b>1.2</b>	<b>Initiation</b>
1.3	Initiation Phase - End
<b>1.4</b>	<b>Planning</b>
1.4.1	Planning Phase Start
<b>1.4.2</b>	<b>Human Resource Plan</b>
1.4.3	Resource Plan - End
<b>1.4.4</b>	<b>Communication Plan</b>
1.4.5	Communication Plan - End
<b>1.4.6</b>	<b>Schedule - First Full Draft + Baseline</b>
1.4.7	Schedule - End
<b>1.4.8</b>	<b>Project Management Plan</b>
1.4.9	Project Management Plan - End
<b>1.4.10</b>	<b>Budget</b>
1.4.11	Project Budget - End
<b>1.4.12</b>	<b>Spending Plan</b>
1.4.13	Project Spending Plan - End

<b>1.4.14</b>	<b>Requirements</b>
1.4.15	Requirements End
<b>1.4.16</b>	<b>Risk and Complexity Assessment</b>
1.4.17	RCA - End
1.5	Planning Phase - End
<b>1.6</b>	<b>Execution</b>
1.6.1	Execution Phase Start
1.6.2	Prepare Operations and Maintenance Plan (only required for Level 2-4 projects)
<b>1.6.3</b>	<b>SDLC</b>
1.6.4	SDLC - End
1.7	Execution Phase - End
<b>1.8</b>	<b>Monitoring and Controlling</b>
1.9	Monitor & Control Phase - End
<b>1.1</b>	<b>Closeout Phase</b>
1.11	Closeout Phase - End
2	Appeals WMS ... - End

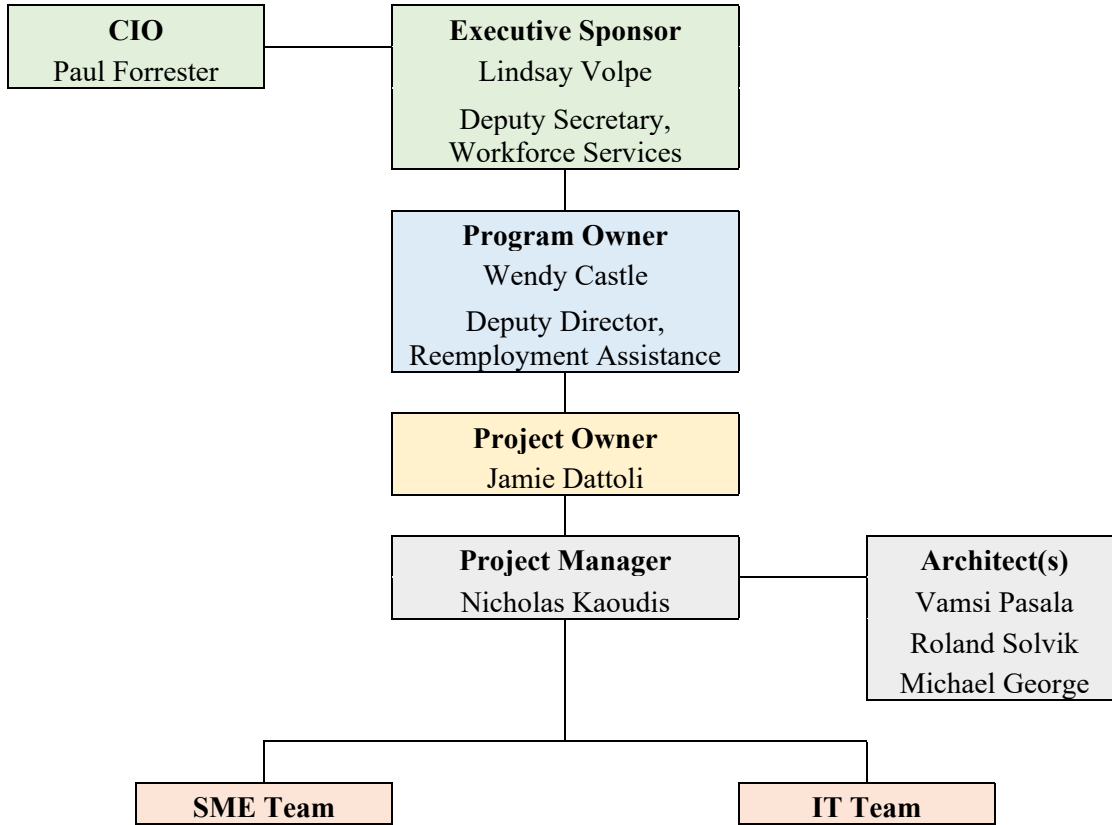

### ***III. Resource Loaded Project Schedule***

The project schedule indicates the planned timetable for all project-related work and estimates the appropriate staffing levels necessary to accomplish each task, to produce each deliverable, and to achieve each milestone.

## V. Project Organization and Methodology

### A. Project Organizational Chart

### B. Project Roles and Responsibilities

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor / Work Group	<ul style="list-style-type: none"> <li>Provide guidance on overall strategic direction.</li> <li>Advising the Strategic Planning Office and project manager of risks that may impact the project.</li> <li>Facilitate resolution of significant issues in the project.</li> <li>Reviewing and signing off on key milestones.</li> </ul>
Domenic DiLullo	CTO / Work Group	<ul style="list-style-type: none"> <li>Provide guidance on overall strategic direction.</li> <li>Advising the Strategic Planning Office and project manager of risks that may impact the project.</li> </ul>

Name	Project Role	Responsibility
		<ul style="list-style-type: none"> <li>• Facilitate resolution of significant issues in the project.</li> <li>• Reviewing and signing off on key milestones.</li> </ul>
Paul Forrester	CIO / Work Group	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction.</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project.</li> <li>• Facilitate resolution of significant issues in the project.</li> <li>• Reviewing and signing off on key milestones.</li> </ul>
Tisha Womack	CFO / Work Group	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction.</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project.</li> <li>• Facilitate resolution of significant issues in the project.</li> <li>• Reviewing and signing off on key milestones.</li> </ul>
Wendy Castle	Chief of RA	<ul style="list-style-type: none"> <li>• Provide guidance on overall strategic direction.</li> <li>• Advising the Strategic Planning Office and project manager of risks that may impact the project.</li> <li>• Facilitate resolution of significant issues in the project.</li> <li>• Reviewing and signing off on key milestones.</li> </ul>
Jamie Dattoli	Project Owner / Chief, RA Appeals	<ul style="list-style-type: none"> <li>• Contributes subject matter expertise.</li> <li>• Assists the Project Managers in responding to risks and issues.</li> <li>• Assists the Project Manager in evaluating change requests.</li> <li>• Reviews deliverables and project documents, identifying any deficiencies.</li> <li>• Reviews and approves deliverables.</li> <li>• Reviews and approves RFCs.</li> </ul>
Nicholas Kaoudis	Project Manager	<ul style="list-style-type: none"> <li>• Manages all aspects of the project and ensures compliance with project plan.</li> </ul>

Name	Project Role	Responsibility
		<ul style="list-style-type: none"> <li>• Monitors project progress and schedule adherence.</li> <li>• Completes all documents related to the project.</li> <li>• Identifies and manages risks according to the project plan.</li> <li>• Manages vendor deliverables and schedule adherence.</li> </ul>
SME Team	Subject Matter Expert(s)	<ul style="list-style-type: none"> <li>• Process development tasks</li> <li>• Contributes subject matter expertise</li> <li>• Complete assigned project tasks in accordance with the Project Schedule</li> <li>• Identifies risks and issues to the Project Managers in accordance with Risk and Issue Management as described in the Project Management Plan</li> <li>• Assists the Project Managers in responding to risks and issues</li> <li>• Assists the Project Manager in evaluating change requests</li> </ul>

**C. Project Management Methodology**

FloridaCommerce uses a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management includes the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors, if engaged:
  - will respond to inquiries or requests from FloridaCommerce within one business day from receipt;
  - will provide an estimate, in the case where additional time is needed for a task, which must be approved by the FloridaCommerce Project Manager;
  - will provide final copies of all reports in electronic format for archive purposes, at the end of the contract.

- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

**VI. Business Process Organizational Change Management Plan**

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce’s lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Stakeholder identification and engagement plans
- Process identification and improvement plans
- Educational assessment and training plans
- Change risk assessment
- Change Advocate networks
- Change Management
- Business Relationship Management
- IT Service Management

**VII. Project Risk Management Plan**

See the Risk and Complexity Assessment that accompanies the Initiation phase documents for this project.

<b>Risk Description/Impact</b>	<b>Probability of Occurrence (high, medium, low)</b>	<b>Risk Tolerance (high, medium, low)</b>	<b>Mitigation Strategy</b>	<b>Assigned Owner</b>
Hurricane impacting the state delays the schedule	Low	High	Adjust schedule accordingly	PM
Divisional and/or Bureau resistance of new process	Medium	Medium	Involve management and impacted staff	PM

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
			throughout engagement to increase adoption rate and ensure a successful transition	
Insufficient knowledge transfer of new process	Medium	Medium	Involve impacted staff throughout engagement to increase participation and knowledge of new processes	PM
Identified technical solutions do not address requirements	Low	Medium	Procure necessary solution(s)	SME/ Implementation Teams, Owner
Procurement(s) are outside of available budget.	Low	Medium	Identify alternative solutions, seek additional funding. As of this writing, procurement is not expected. This risk would therefore be not applicable.	SME Team, Owner
Resource requirements for execution of roadmap are beyond original expectations.	Medium	Medium	Prioritize highest-risk access flows, adjust schedule, plan additional phases.	PM/SME

**VIII. Capacity Plan**

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

## Project Capacity Planning

- **Establish Cross-Functional Team:** To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.
- **Calculate Resource Capacity:** Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- **Determine Resource Requirements:** For each project, look at the scope and what resources are required to do the task for the project.
- **Prioritize Projects:** Which projects are most important, and which can be put aside for the time being? You can't do everything at once.
- **Allocate Resources Based on Project Priority:** Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- **Keep the Lines of Communications Open:** Communicate between executives, project management leaders and stakeholders.
- **Document Known Risks:** Monitor risks such as weather, government regulations that stop a project or create new ones unexpectedly.
- **Plan for How to Handle Too Much Capacity:** Understand where it is and how to resolve it (such as reassigning), or not enough capacity (again, where/how).

## SECTION 1 — OVERALL PROJECT PLAN

### *I. Project Charter*

FloridaCommerce is looking to modernize the central intake physical mail process for the Reemployment Assistance program using a document management system that has API call functionality that could allow calls from Reconnect and its subcomponents to pull data from the cloud-based central intake document repository.

The document management system must have the ability to process the barcodes that are generated by Reconnect so that documents can be automatically linked to the document ID (bar code) associated with claimants, ingested, and so that Reemployment Assistance program staff can make decisions timely and accurately.

#### **A. Scope Statement**

The goal of this project is to streamline the process for central intake using a document management system that can process and read the documents upon ingestion and automatically categorize them based on the document type using the identifiers on the document using optical character recognition.

##### **In Scope**

- Procure necessary services and/or products to implement the automated and modernized central intake physical mail process.

##### **Out of Scope**

- Modernization of other ingestion workflows.

#### **B. Project Objectives and Business Benefits**

Reconnect generates thousands of correspondences and distributes correspondence based on the communications preference selected by each claimant. Reconnect defaults correspondence to physical mail if the claimant does not opt to receive electronic mail as their preference. Documents are handled in the Reemployment Assistance Central Intake Unit in two scenarios.

##### 1. Scenario 1:

The Reemployment Assistance program requests additional information from claimants and employers to process benefits applications timely and accurately. There is no mandate to submit the documents in a specific way, and documents are submitted either electronically or physically. The central intake process is initiated when physical mail from the claimant or employer is received by the Central Intake Unit.

##### 2. Scenario 2:

Mail sent by FloridaCommerce is returned due to a bad address or a change of address. Returned mail is also scanned and indexed to the appropriate claimant or employer file.

Current challenges associated with the central intake process cause delays across the Reemployment Assistance program and impact its ability to process reemployment assistance benefits timely and accurately.

### C. Critical Success Factors

The following factors are being used as measurement for success:

- Scanners are installed and used to process physical mail.
- Scanners can read barcodes and associate mail with claimants in Reconnect.

### D. Key Dates

Key Date	Importance and Relevance to the Project
August 15, 2023	Project Kick Off Meeting
October 20, 2023	Project Charter Approved
October 27, 2023	Requirements Approved
November 22, 2023	RFQ Created
December 8, 2023	Vendor Response
December 15, 2023	Request for Information Process Completed
December 28th, 2023	Procurement of Vendor Completed
January 8, 2024	Project Kick-off with vendor
February 15, 2024	Design Complete
February 16, 2024	Infrastructure in place
February 29, 2024	Base Install Completed

### E. Major Deliverables

This project is made up of multiple major deliverables and paths:

1. Procure necessary services and products to implement the automated and modernized central intake physical mail process.

Major Deliverable	Deliverable Description
Project Kickoff Meeting	The PM schedules the project kickoff meeting and provides agenda and materials.
Project Management Plan	The PM provides the final version of the PMP after review and approval by FloridaCommerce
Technical Design Document	Vendor and FloridaCommerce create the technical design document for the solution
Business Rules Traceability Matrix	The BA and PM conduct a series of work sessions to drill down in detail the data mapping that can be used to drive the technical and process related business requirements.
Project Closeout Report	The PM provides the Project Closeout Report

### F. Major Milestones

Major Milestone	Deliverable Description
Project Kickoff Meeting	The PM schedules the project kickoff meeting and provides agenda and materials.
Project Management Plan	The PM provides the final version of the PMP after review and approval by FloridaCommerce.
Technical Design Document	Vendor and FloridaCommerce create the technical design document for the solution

Major Milestone	Deliverable Description
Business Rules Traceability Matrix	The BA and PM conduct a series of work sessions to drill down in detail the data mapping that can be used to drive the document imaging system processes and requirements.
Project Closeout Report	The PM provides the Project Closeout Report

### G. Key Stakeholders

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer
Paul Forrester	Chief Information Officer
Tisha Womack	Chief Financial Officer
Wendy Castle	RA Modernization Program Owner – Business
Nicole Sanislow	RA Modernization Program Manager – Business
El Lise Bethel	RA Modernization Acting Project Owner
Karmyn Hill	RA Modernization Acting Project Owner
Thomas Holliday	RA Modernization Program Manager – Strategic Planning Office
David Sinclair	Project Manager

### H. Significant Project Assumptions and Constraints

#### Project Assumptions

1. This project will include a procurement for products and/or services.
2. Any modifications to existing records management policies and procedures or record retention rules will be handled outside the scope of the project by Reemployment Assistance and FloridaCommerce’s Office of the General Counsel.
3. The assigned IT resources possess relevant knowledge and skills to complete the identified tasks.
4. Members of the project team will have access to the necessary tools, hardware, and materials necessary to complete the identified tasks.
5. All relevant stakeholders will attend required status meetings. However, there may be instances where some stakeholders are unavailable to attend.
6. The project sponsor will be responsive and prepared to make decisions regarding the project cost and scope.

#### Project Constraints

1. Staff availability to engage in the project throughout the lifecycle could be a risk.
2. Scanning capability to integrate with the scanning software.

## II. Work Breakdown Structure

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

WBS	Task Name
1	FloridaCommerce-Document Imaging System

WBS	Task Name
<b>1.1</b>	<b>Initiation</b>
<b>1.1.1</b>	<b>Risk and Complexity Assessment</b>
<b>1.1.2</b>	<b>PM Deliverable: Project Charter</b>
1.1.3	<b>Project Charter complete</b>
<b>1.1.4</b>	<b>Stakeholders Register</b>
<b>1.1.5</b>	<b>Project Kickoff Meeting</b>
<b>1.1.6</b>	<b>Conduct Lessons Learned Meeting</b>
1.2	<b>Initiation Phase complete</b>
<b>1.3</b>	<b>Planning</b>
<b>1.3.1</b>	<b>PM Deliverable: Resource Plan</b>
1.3.2	<b>Resource Plan Complete</b>
<b>1.3.3</b>	<b>PM Deliverable: Project Schedule</b>
1.3.4	<b>Project Schedule complete</b>
<b>1.3.5</b>	<b>PM Deliverable: Project Management Plan</b>
1.3.6	<b>Project Management Plan complete</b>
<b>1.3.7</b>	<b>PM Deliverable: Project Budget</b>
1.3.8	<b>Project Budget complete</b>
<b>1.3.9</b>	<b>PM Deliverable: Project Spending Plan</b>
1.3.10	<b>MILESTONE: Project Spending Plan complete</b>
1.3.11	Complete Impact Analysis
<b>1.3.12</b>	<b>Requirements:</b>
1.3.13	Complete the Planning Gate R&C Assessment
<b>1.3.14</b>	<b>Conduct Lessons Learned Meeting</b>
1.4	<b>MILESTONE: Planning Phase complete</b>
<b>1.5</b>	<b>Execution</b>
1.5.1	Review RFQ
1.5.2	Approve RFQ
1.5.3	Purchasing Review and Adjustments
<b>1.5.4</b>	<b>Record Level Detail Requirements Gathering Completed</b>
<b>1.5.5</b>	<b>Phase I: RFI Solution Evaluations</b>
<b>1.5.6</b>	<b>Conduct Lessons Learned Meeting</b>
<b>1.5.7</b>	<b>Transition to Operations</b>
1.6	<b>Execution Phase complete</b>
<b>1.7</b>	<b>Monitoring and Controlling</b>
1.7.1	Manage Project Schedule
1.7.2	Manage Project Costs
1.7.3	Manage Project Scope
1.7.4	Manage Project Risks
1.7.5	Manage Project Issues

WBS	Task Name
1.7.6	Manage Decisions
1.7.7	Manage Action Items
1.7.8	Manage Cybersecurity
1.7.9	Conduct Regularly scheduled Status Meetings
1.7.10	Prepare Regularly scheduled Status Reports
1.8	<b>Monitoring and Controlling Phase Complete</b>
1.9	<b>Project Closeout</b>
1.9.1	<b>PM Deliverable: Project Closeout Report</b>
1.9.2	<b>Project Closeout Report complete</b>
1.9.3	<b>Conduct Lessons Learned Meeting</b>
1.1	<b>Closeout Phase complete</b>

### III. Resource Loaded Project Schedule

As stated in Section II, Work Breakdown Structure, since this is a high-level representation of the project, the project team names are not reflected. The names are listed in Section V.B. Project Roles and Responsibilities, Project Team.

The project management deliverables mentioned below are required by Florida Administrative Code, Rule 60GG.

WBS	Task Name	% Complete	Duration	Start	Finish
1	<b>22 FloridaCommerce-Document Imaging System</b>	5%	325 days	Tues 8/01/23	Fri 6/28/24
1.1	<b>Initiation</b>	90%	45 days	Tues 8/1/23	Tue 9/26/23
1.1.1	<b>Risk and Complexity Assessment</b>	100%	1 days	Mon 8/15/23	Mon 8/15/23
1.1.2	<b>PM Deliverable: Project Charter</b>	90%	20 days	Mon 8/15/23	Tue 10/20/23
1.1.3	<b>Project Charter complete</b>	90%	1 days	Tue 10/20/23	Fri 1/17/23
1.1.4	<b>Stakeholders Register</b>	100%	1 day	Mon 8/22/23	Mon 8/22/23
1.1.5	<b>Project Internal Kickoff Meeting</b>	100%	1day	Mon 8/15/23	Mon 8/15/23
1.1.6	<b>Conduct Lessons Learned Meeting</b>	100 %	2 days	Mon 9/25/23	Tue 9/26/23
1.2	<b>Initiation Phase complete</b>	100%	0 days	Fri 9/29/23	Fri 10/20/23
1.3	<b>Planning</b>	0%	120 days	9/29/23	Mon 1/22/24
1.3.1	<b>RFQ Conducted</b>	100%	35 days	Fri 11/3/23	Fri 12/28/23
1.3.2	<b>Resource Plan Complete</b>	100%	5 days	Fri 12/20/23	Fri 12/28/23
1.3.3	<b>PM Deliverable: Project Schedule</b>	20%	11 days	Mon 12/28/23	Fri 1/15/24

WBS	Task Name	% Complete	Duration	Start	Finish
1.3.4	<b>Project Schedule complete</b>	20%	0 days	Mon 1/15/24	Mon 1/15/24
<b>1.3.5</b>	<b>PM Deliverable: Project Management Plan</b>	<b>100%</b>	<b>59 days</b>	Mon 1/8/24	Mon 1/8/24
1.3.6	<b>Project Management Plan complete</b>	100%	0 days	Mon 1/8/24	Mon 1/8/24
<b>1.3.7</b>	<b>PM Deliverable: Project Budget</b>	<b>100%</b>	<b>13 days</b>	Mon 1/8/24	Mon 1/8/24
1.3.8	<b>Project Budget complete</b>	100%	0 days	Mon 1/8/24	Mon 1/8/24
<b>1.3.9</b>	<b>PM Deliverable: Project Spending Plan</b>	<b>100%</b>	<b>3 days</b>	Mon 1/8/24	Mon 1/8/24
1.3.10	<b>MILESTONE: Project Spending Plan complete</b>	100%	0 days	Mon 1/8/24	Mon 1/8/24
1.3.11	Complete Security Assessment Analysis	75%	1 day	Mon 1/8/24	Mon 1/8/24
<b>1.3.12</b>	<b>Requirements:</b>	<b>50%</b>	<b>116 days</b>	Mon 9/18/23	Mon 1/22/24
1.3.13	Complete the Planning Gate R&C Assessment	90%	1 day	Mon 1/8/24	Mon 1/8/24
<b>1.3.14</b>	<b>Conduct Lessons Learned Meeting</b>	<b>0</b>	<b>2 days</b>	Thus 1/11/24	Thus 1/11/24
1.4	<b>MILESTONE: Planning Phase complete</b>	0	0 days	Fri 1/12/24	Mon 1/22/24
<b>1.5</b>	<b>Execution</b>	<b>0</b>	<b>156 days</b>	<b>Mon 1/15/24</b>	<b>Fri 6/28/24</b>

#### IV. *Project Spending Plan*

The Document Imaging System project has existing resources assigned, therefore, there is no current spend for this project. Expenditures are anticipated once a procurement is complete and a contract for products and/or services is executed.

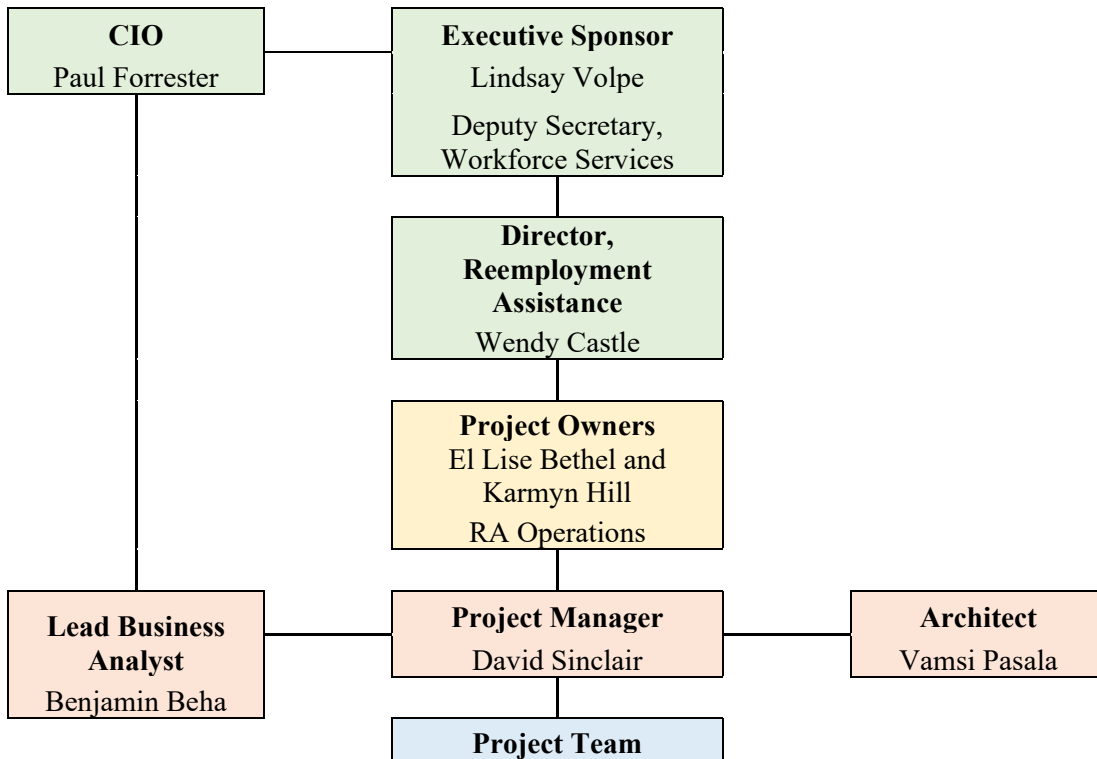

FY 2023-24 Expenditures	FY 2024-25 Expenditures
<i>Software: \$0.00</i>	<i>Software: \$0.00</i>
<i>Other OpEx (Vendor Deliverables): \$0.00</i>	<i>Other OpEx (Vendor Deliverables): \$0.00</i>
<i>Other CapEx: \$0.00</i>	<i>Other CapEx: \$0.00</i>

#### V. *Project Organization and Methodology*

##### A. **Project Organizational Chart**

The Project Manager meets with project stakeholders every week on Request for Information, business rules progress, and to answer general status questions. This meeting is also the forum

for escalating issues that require all project stakeholders to resolve together.

## B. Project Roles and Responsibilities

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with Reemployment Assistance to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce Policy.

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	<ul style="list-style-type: none"> <li>Provide guidance on overall strategic direction.</li> <li>Advising the Strategic Planning Office and project manager of risks that may impact the project.</li> <li>Facilitate resolution of significant issues in the project</li> <li>Reviewing and signing off on key milestones</li> </ul>
Paul Forrester	Project Sponsor/Chief Information Officer (CIO)	<ul style="list-style-type: none"> <li>Responsible for the Strategy of FloridaCommerce IT</li> <li>Responsible for Staffing and Support plans</li> <li>Responsible for day-to-day operations</li> </ul>

Name	Project Role	Responsibility
		<ul style="list-style-type: none"> <li>Responsible for working closely with programs on technology needs</li> </ul>
Wendy Castle	Project Sponsor/Director of Reemployment Assistance	<ul style="list-style-type: none"> <li>Provide guidance on overall strategic direction.</li> <li>Advising the Strategic Planning Office and project manager of risks that may impact the project.</li> <li>Facilitate resolution of significant issues in the project</li> </ul>
El Lise Bethel and Karmyn Hill	Project Owner's	<ul style="list-style-type: none"> <li>Represents the interests of the stakeholders to the DW Team</li> <li>Monitors project progress.</li> <li>Approves project definition.</li> <li>Approves plans and schedules.</li> <li>Validates project deliverables meet expectations.</li> <li>Tracks project benefit recognition, risk retention and mitigation activities</li> <li>Acts as liaison between teams and Management for issue escalation and resolution</li> </ul>
David Sinclair	Project Manager	<ul style="list-style-type: none"> <li>Manages all aspects of the project and ensure compliance with project plan.</li> <li>Monitors project progress and schedule adherence.</li> <li>Completes all documents related to the project.</li> <li>Identifies and manages risks according to the project plan</li> </ul>
Vamsi Pasala	Architect and Technical Lead	<ul style="list-style-type: none"> <li>Responsible for assisting the team(s) in coordinating the most appropriate solution for Document Imaging</li> <li>Assists the team with identifying integration points with other projects and evaluating any risks.</li> <li>Is available to executive management, the program team, and the project team for technical questions regarding direction of the project and any dependencies/impacts of other projects.</li> <li>Assists the PM in coordinating additional technical resources/SMEs, if necessary, for the team.</li> <li>Has historical knowledge of the Connect system since Go Live</li> </ul>

**C. Project Management Methodology**

The path to archiving and purging data requires transparency, excellent communication, and an overall process that supports both.

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce’s satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce’s project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce’s project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone’s role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

**VI. Business Process Organizational Change Management Plan**

This project will need Organizational Change Management since the project is taking back scanning of physical mail from a third-party vendor back to FloridaCommerce staff.

**VII. Project Risk Management Plan**

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department’s tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

<b>Risk Description/Impact</b>	<b>Probability of Occurrence (high, medium, low)</b>	<b>Risk Tolerance (high, medium, low)</b>	<b>Mitigation Strategy</b>	<b>Assigned Owner</b>
1.				
2.				
3.				
4.				
5.				

**VIII. Capacity Plan**

This project will look at the capacity of mail to determine the number of scanners that would be needed to keep up with the capacity.
