Florida's April Unemployment Rate Remains Nearly Unchanged
~Florida's Rate of Job Growth Picks Up Speed~

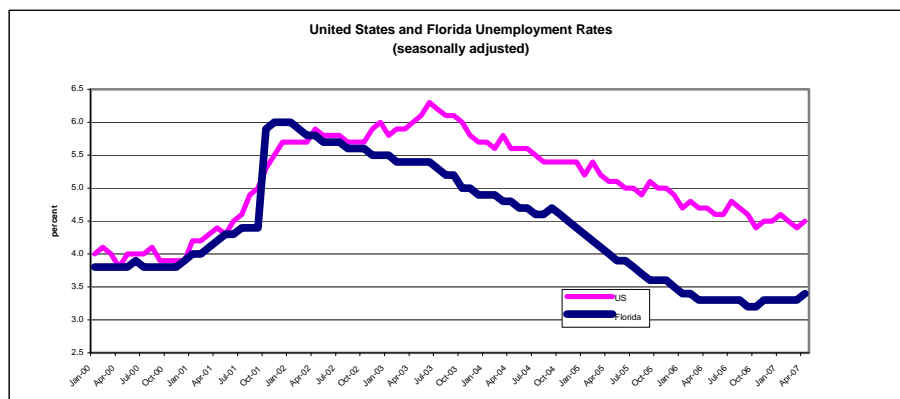

TALLAHASSEE – Florida Agency for Workforce Innovation (AWI) Director Monesia T. Brown today announced Florida's seasonally adjusted unemployment rate for April 2007 was 3.4 percent, and has remained essentially unchanged since November of last year when the unemployment rate was 3.3 percent. Based on the latest nationwide data, Florida had the lowest unemployment rate of the ten most populous states and continued to be below the national average. The comparable national unemployment rate for April was 4.5 percent.

"Florida's job market continues to receive national attention. In fact, Business 2.0 magazine recently reported that Orlando has the hottest job market in the nation," said Monesia T. Brown, Director of the Agency for Workforce Innovation. "The magazine noted that three of the top ten hottest job markets are in Florida. We are also encouraged by reports such as the Cyberstates 2007 report that highlights Florida's national ranking in high technology job growth."

The report, *Cyberstates 2007: A Complete State-by-State Overview of the High-Technology Industry* released on April 24, 2007 by the American Electronics Association highlighted Florida's national standing as a growing hub of high-tech employment. The survey, covering 2005 data, showed that Florida now ranks fourth in the nation in total high tech employment and was the second-fastest growing high tech job market, trailing only California. Florida added 10,900 high tech jobs in 2005, the latest year for which data are available.

Florida's Labor Market at a Glance (Seasonally Adjusted)

- Florida has recorded 56 consecutive months of job growth.
- Florida gained 148,600 nonagricultural jobs in April compared to a year ago.
- Out of the civilian labor force of 9,179,000, there were 313,000 unemployed Floridians.
- Florida's April 2007 unemployment rate of 3.4 percent was 1.1 percentage points lower than the national rate of 4.5 percent. Florida's rate has been below the national average since mid-2002.

FLORIDA'S NONAGRICULTURAL EMPLOYMENT BY INDUSTRY (Seasonally Adjusted)

- In April 2007, Florida's nonagricultural employment expanded by 1.9 percent over the year, totaling 8,117,400 jobs. In comparison, nonagricultural employment grew nationally at a rate of 1.4 percent. Florida's job growth rate has slowed recently due primarily to weakness in construction and manufacturing, but showed slight improvement with the April statistics.
- Florida added 148,600 jobs since April 2006. Professional and business services (+36,700 jobs, +2.8 percent) and education and health services (+33,200 jobs, +3.4 percent) accounted for 47 percent of the new jobs in the state.
- Leisure and hospitality increased by 27,200 jobs over April 2006 levels (+3.0 percent). Accommodation and food services accounted for 83 percent of the job growth in leisure and hospitality.
- Government ranked fourth among Florida's major industries in job growth and expanded by 25,900 jobs over the year (+2.4 percent). Local government accounted for 87 percent of the total increase in government. Trade, transportation, and utilities was next in annual growth with a 20,500 job increase (+1.3 percent).
- Construction employment, reacting to declines in the housing market, lost 6,600 jobs over the year (-1.0 percent). This drop in employment continued from last month which was the first decline posted in construction jobs since July 2002.
- Manufacturing (-7,900 jobs, -2.0 percent) and information (-1,100 jobs, -0.7 percent) continued to have over-the-year declines, mainly due to weakness in computer and electronic product manufacturing; internet service providers; and telecommunications.

LOCAL AREA UNEMPLOYMENT STATISTICS (Not Seasonally Adjusted)

- In April 2007, Walton County had the state's lowest unemployment rate (1.9 percent), followed by Liberty and Monroe counties (2.2 percent). Alachua and Okaloosa counties followed with unemployment rates of 2.3 percent.
- Madison County, at 5.3 percent, had the highest unemployment rate in Florida in April, followed by Flagler County (4.6 percent each), Hendry and Hernando counties (4.5 percent), and St. Lucie County (4.4 percent). Madison County's relatively high unemployment rate was due to the continuing effects of a manufacturing layoff.

AREA NONAGRICULTURAL EMPLOYMENT BY INDUSTRY (Not Seasonally Adjusted)

- The Miami-Ft. Lauderdale-Pompano Beach Metropolitan Statistical Area (MSA) led the state in over-the-year employment gains (+41,200 jobs, +1.7 percent) in April 2007, followed by the Orlando-Kissimmee MSA (+29,500 jobs, +2.7 percent) and the Tampa-St. Petersburg-Clearwater MSA (+19,600 jobs, +1.5 percent). The combined employment growth in these three MSAs accounted for 63 percent of the total job growth in the state.
