## Florida Agency for Workforce Innovation

### FLORIDA EMPLOYMENT AND UNEMPLOYMENT

December 2006

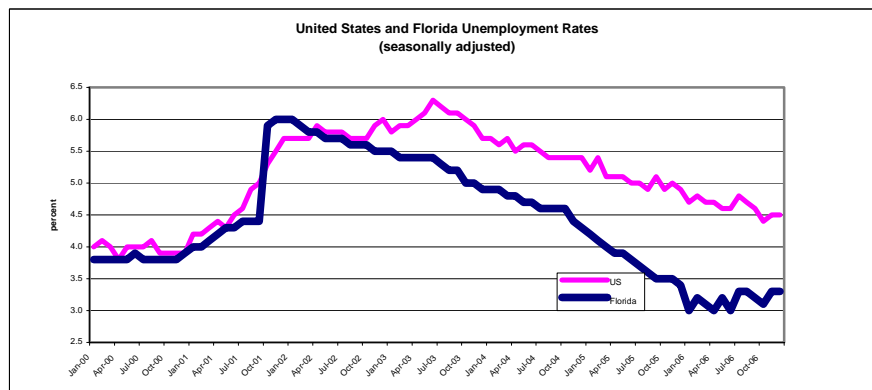

**EMBARGOED UNTIL 10:00 A.M.  
January 19, 2007**

**CONTACT: Warren May  
850/245-7130**

TALLAHASSEE—Today, Monesia T. Brown, Director, Florida Agency for Workforce Innovation, released Florida's labor market statistics for December 2006. Based on the latest nationwide data, Florida had the fastest job growth rate and lowest unemployment rate of the ten most populous states. Florida's unemployment rate continued to be below the national average.

#### FLORIDA'S UNEMPLOYMENT (Seasonally Adjusted)

- Florida's December 2006 unemployment rate was 3.3 percent, unchanged from the November 2006 rate. The rate was down slightly from 3.4 percent a year ago.
- Out of a civilian labor force of 9,170,000, there were 8,866,000 employed and 304,000 unemployed Floridians.
- Florida's December 2006 unemployment rate was 1.2 percentage points lower than the national rate of 4.5 percent. Florida's rate has been below the national average since mid-2002.

#### FLORIDA'S NONAGRICULTURAL EMPLOYMENT BY INDUSTRY (Seasonally Adjusted)

- In December 2006, Florida's nonagricultural employment expanded by 2.7 percent over the year, totaling 8,156,100 jobs. In comparison, nonagricultural employment grew nationally at a rate of 1.4 percent. Florida's job growth rate has slowed most of this year due primarily to weaker growth in construction.
- Florida added 212,600 jobs since December 2005. Professional and business services and leisure and hospitality accounted for 45.1 percent of the new jobs in the state.

## **FLORIDA'S NONAGRICULTURAL EMPLOYMENT BY INDUSTRY (Not Seasonally Adjusted)**

- Florida's total nonagricultural employment has expanded steadily since September 2002. In December 2006, there were 8,247,000 nonagricultural jobs, an increase of 2.7 percent (+215,200 jobs) over the year. Most of Florida's major industry sectors, which are described below, added jobs over the year except manufacturing which lost 3,700 jobs.
- Professional and business services led Florida's industry sectors in employment growth over the year, adding 63,100 jobs (+4.6 percent). Employment services (+18,000 jobs, +3.7 percent) continued to lead job growth within this industry sector.
- Leisure and hospitality, gaining the second highest number of new jobs, continued to exhibit steady over-the-year job gains (+33,600 jobs, +3.7 percent). This industry has had positive growth since mid-2002. Most of the job gains were in food services and drinking places (+23,600 jobs, +4.1 percent).
- The education and health services sector ranked third and grew by 31,900 jobs (+3.3 percent) over the year. Health care and social assistance added the most jobs (+27,000 jobs, +3.2 percent) in this industry sector. The strongest growth within health care and social assistance was in ambulatory health care services (+11,800 jobs, +3.4 percent).
- The trade, transportation, and utilities industry ranked fourth in adding the most jobs in the state. The industry continued to exhibit growth over the year (+25,200 jobs, +1.5 percent), with nearly half of the job gains in retail trade (+12,400 jobs, +1.2 percent). Clothing and accessory stores (+8,300 jobs, +7.3 percent) was the fastest growing subsector in this industry.
- Government ranked fifth in adding the most jobs in the state, primarily in local government. Total government increased over the year by 23,800 jobs (+2.1 percent).
- Manufacturing was the only major industry that declined over the year, losing 3,700 jobs (-0.9 percent). Declines in durable goods manufacturing (-2,100 jobs, -0.8 percent) accompanied losses in the nondurable goods sector (-1,600 jobs, -1.2 percent). The majority of job loss in durable goods was in nonmetallic mineral product manufacturing (-1,400 jobs), while the majority of the job loss in nondurable goods was in textile products and apparel manufacturing (-1,800 jobs). Machinery manufacturing (+900 jobs, +3.5 percent) added more jobs over the year than any other manufacturing subsector.

## **LOCAL AREA UNEMPLOYMENT STATISTICS (Not Seasonally Adjusted)**

- In December 2006, Walton County had the state's lowest unemployment rate (2.1 percent), followed by Wakulla County (2.2 percent) and Alachua and Monroe counties (2.3 percent each). Collier, Okaloosa, and Sarasota counties were the next lowest (2.4 percent).
- Madison County, at 7.1 percent, had the highest unemployment rate in Florida in December, followed by Hendry County (5.2 percent) and Hamilton County (4.3 percent). Madison County's relatively high unemployment rate was due to the continuing effects of a layoff in manufacturing.
- The counties having the largest over-the-year increases in their unemployment rates were Madison (+3.0 percentage points); Flagler and Jackson (+0.9 percentage point); and Hamilton and Indian River (+0.6 percentage point). Forty-six counties increased, eleven decreased, and ten were unchanged.

## **AREA NONAGRICULTURAL EMPLOYMENT BY INDUSTRY (Not Seasonally Adjusted)**

- The Miami-Ft. Lauderdale-Miami Beach Metropolitan Statistical Area (MSA) led the state in over-the-year employment gains (+56,700 jobs, +2.3 percent) in December 2006, followed by the Orlando-Kissimmee MSA (+33,300 jobs, +3.1 percent) and the Tampa-St. Petersburg-Clearwater MSA (+26,800 jobs, +2.0 percent). The combined employment growth in these three MSAs accounted for over half of the total job growth in the state.

Note: All data are subject to revision due to late reporting from participants and the annual benchmarking process.

An equal opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities. All voice telephone numbers on this document may be reached by persons using TTY/TDD equipment via the Florida Relay Service at 711.

*The next Florida Employment and Unemployment release will be on March 8, 2007 at 10:00 A.M.*
