Disaster Damage:

THE IMPACT OF THE STORMS AND FLORIDA'S RECOVERY NEEDS

Tropical Storm Fay impacted the State from August 18, 2008 through August 27, 2008. Governor Crist and the President declared a state of emergency. Federal aid to supplement state and local response efforts due to the emergency conditions resulting from Tropical Storm Fay was provided. Although other states suffered greater loss due to storms in 2008, many of Florida's counties were impacted by flooding and other damages. Individual assistance was made available to Alachua, Baker, Bradford, Brevard, Charlotte, Clay, Collier, Duval, Gadsden, Glades, Hendry, Jefferson, Lake, Lee, Leon, Liberty, Madison, Marion, Martin, Nassau, Okeechobee, Orange, Polk, Seminole, St. Lucie, Taylor, Volusia, and Wakulla Counties. Hazard Mitigation assistance was also made available to state and local governments and certain private nonprofit organizations for repair or replacement of disaster-damaged public facilities in Alachua, Baker, Bradford, Brevard, Calhoun, Clay, Collier, Dixie, Duval, Flagler, Gadsden, Glades, Gulf, Hamilton, Hardee, Hendry, Highlands, Jefferson, Lake, Lee, Leon, Liberty, Manatee, Marion, Martin, Monroe, Nassau, Okeechobee, Osceola, Palm Beach, Putnam, Sarasota, Seminole, St. Johns, St. Lucie, Suwannee, Taylor, Union, Volusia, and Wakulla Counties. All counties were eligible to apply for Hazard Mitigation grant funds. Hurricane Ike, which impacted the State on September 5, 2008, resulted in Governor Crist and the President declaring a disaster due to damage to public facilities, infrastructure, and homes. Federal aid was made available to the State to supplement state and local response efforts due to the emergency conditions. The disaster declaration covered Monroe County. Hurricane Gustav, which impacted the State from August 31, 2008 through September 7, 2008, resulted in Governor Crist and the President declaring a disaster due to damage to public facilities, infrastructure, and homes. Six counties received FEMA public assistance (Bay, Escambia, Franklin, Gulf, Okaloosa and Santa Rosa). All counties were eligible to apply for Hazard Mitigation grant funds.

FEDERAL AND STATE RESPONSE Both Governor Crist and the President immediately responded with state and federal disaster declarations. State Emergency Response Teams and FEMA were immediately on site to inspect damages and set up disaster relief centers. **FEDERAL DISASTER DECLARATIONS** Declarations by number and date that applied to the storms are listed below: FEMA-3288-DR dated August 21, 2008 Tropical Storm Fay (August 18 and continuing) FEMA-1785-DR dated August 24, 2008 Tropical Storm Fay (August 18 and continuing) FEMA-3293-DR dated September 7, 2008 Hurricane Ike (September 5, 2008 and continuing) FEMA-1806-DR dated October 27, 2008 Hurricane Gustav (August 31, - September 7, 2008)

Recovery Needs:

FUNDS Applications from eligible recipients, representing unmet needs in jurisdictions impacted by the 2008 storms, will be considered the State's overall plan for recovery. The State understands that local communities are in the best position to develop recovery plans for their jurisdiction and believes that it is in the best interest of communities for the State to allow subgrantees to undertake activities that will address their special needs as long as they are implemented within the parameters of this Action Plan and related rules and regulations. Communities will demonstrate due diligence in attempting to address affordable rental housing projects. Communities may make repairs and improvements that will mitigate future damage from similar disasters. How Funds Will Address Florida's Unmet Needs Federal requirements clearly state that the funds can be used only for disaster relief and long-term recovery, and mitigation in communities affected by the specified disasters. Funds will be directed to areas with the greatest need. Counties would apply for funding, unless the county designates a municipality that received the greatest damages. Award recipients cannot use this disaster assistance for a project or activity that was underway prior to the Presidential disaster declaration, with the specified time period in the appropriations act, unless the disaster directly impacted the project. Elements of activities that are reimbursable by FEMA or available through the Small Business Administration (SBA) cannot be undertaken with these funds. Damage assessment reports indicate that there is unmet need in three main areas: public assistance (infrastructure and public facilities), business (commercial revitalization), and housing. The allocation method is based on compilation of damage assessment data provided by FEMA and is designed to meet the unmet needs reflected by the damage assessment data. Damage

assessment data relating to individual and public assistance was provided to the Department by the State's Division of Emergency Management. It should be noted that damage assessment is at the county level. Anticipated Accomplishments the State expects to make repairs and mitigation related improvements to housing and public facilities and if needed, for economic recovery activities, particularly restoration of commercial areas. The majority of the beneficiaries of the funds will be low- and moderate-income (LMI) residents. All housing activities must meet the LMI national objective under the State's plan. Applications for the funds will be required to specify proposed activities, proposed units of accomplishment, and beneficiaries in the 4 application. These anticipated accomplishments will be reported by the Department to HUD during the first quarter of reporting using the online Disaster Recovery Grant Reporting System (DRGR). Recognizing that many local governments in Florida are already administering large amounts of federal dollars, should a subgrantee not be able to expend all funds in a timely manner or not apply for their full allocation, the State will reallocate the funds to jurisdictions that have unmet need and can use the funds within the established timeframe. Deobligated funds may be used in the same manner. Activities This Action Plan outlines the State's framework for allocating funding. However, eligible subtees, including 24 CFR part 570 subparts I, apply to the use of these funds. The Department will limit new construction or new development to the expansion of facilities that serve the community or the replacement of storm-damaged housing that cannot be adequately brought up to safety and health standards (building codes). Funds will be used for repairs and long-term recovery. At least fifty percent (50%) of the funds must benefit low- and moderate- income persons. The LMI National Objective must be met for all housing activities. "Infrastructure and public facility projects may include, but are not limited to, repairs and improvements to streets, water and sewer systems, and drainage facilities. "Business assistance may include, but is not limited to, repairs and improvements to buildings in commercial or business areas and related activities. "Housing activities may include rehabilitation and replacement of housing for low- and moderate-income persons where rehabilitation that will bring the unit up to local and state building code cannot be accomplished. Local governments may also buyout residential properties located in floodplains and relocate the occupants; moreover, all improvements on the acquired property must be demolished and the property converted to its natural state with deed restrictions that will prevent all future development except for minor structures that may be needed for parks and other public recreational areas. The purpose of the buyout must be to move a household out of a repeatedly flooded area and to convert the land to its natural state for perpetuity. The State shall use fourteen percent (14%) of its funds for affordable rental housing activities. These activities may include housing rehabilitation, replacement, temporary or permanent relocation, buyout of housing units in the floodplain, etc. Subgrantees are encouraged to work with Public Housing Authorities or other qualified nonprofits to accomplish this requirement. Should an applicant wish to pursue an activity that is not listed in the action plan or application, the local government must contact the Department for approval prior to undertaking such activity. Eligible activities must focus on housing assistance, public infrastructure destroyed or damaged, and assistance for commercial areas impacted by the storm.

5 Listed below are eligible activities that may be undertaken by subgrantees: ELIGIBLE ACTIVITIES Acquisition for rehabilitation Acquisition in 100 year flood plain, acquisition (in support of), acquisition of real property, land, building, easement or right-of-way Administration, Planning and Management Asbestos removal / lead based paint abatement Clearance and Demolition Code enforcement Demolition of vacant dilapidated housing units Demolition of vacant dilapidated structures (other than housing) Engineering Fire protection, fire hydrants, water facilities, lines, tank, treatment, well Fire station, equipment Flood & drainage, storm drains, cathsrntopndcr±gtrnsphzrdmtgain(te)ns;HosngrhbpumignbpOesaeprspagrud,ecetinacltisns;Ohromeca/uiesAssac&m;s;Otecomria/nutlmpoemnsns;Paknflciissae&mnpPrannrlctonapatohaadmgtgonpraetrictintmoayns;elctinns;Ptbeuill&ma;psetcsseisalainnbpPbifcltes&ma;piprvms(OHR&pbpRcrainnihorodcetrseior center Rehab, multi unit residential Rehab, public/private owned commercial/industrial Rehab, single unit residential Rehabilitation of commercial buildings, facade, section 504 compliance, correction of code violation, building rehab by owner/tenant Relocation of commercial facility Relocation of utilities to underground Removal of architectural barriers in public buildings Replacement housing Sewage treatment plant, sewer lines & components, sewer line replacement, other sewer facilities force sewer main, gravity sewer main, treatment, pump/lift stations Sidewalks and pedestrian malls when related to Commercial improvements Solid waste disposal improvements Street improvements, resurfacing Tree planting Utility hookups Water and/or sewer hookups for housing units Water facilities, water & sewer improvements in general

6 Waivers The State will make use of waivers provided by HUD in the Federal Register notice as necessary for the successful implementation of the funded activities. Subgrantees should refer to the Federal Register notice for information on waivers. National Objective All activities must meet one of the three national objectives set out in the Housing and Community Development Act (address slum and blight, urgent need, primarily benefit LMI persons). Up to 50 % (rather than the 30 % allowed by regular program regulations) of the State's grant may fund activities under the "urgent need" or "prevention or elimination of slums and blight" national objectives. At least 50 % (rather than the 70 % required under regular program regulations) must be utilized to serve LMI beneficiaries. All housing activities must meet the LMI national objective. Citizen Participation and Public Comment State Efforts the State published a notice in the Florida Administrative Weekly (FAW) on September 2, 2009, announcing the availability of the funding, the development of a draft Action Plan, and the application cycle. The notice appeared in the FAW on September 11, 2009. The information was also emailed to all local governments and posted to the Department's website. Comments from the public on the Action Plan were accepted from September 11, 2009 until September 26, 2009. Appendix B is a summary of public comments received. The funding cycle will open on October 27, 2009, and close on December 15, 2009. (The Department anticipates that the Action Plan will be approved by HUD within approximately 15 days of submittal. However, should the Department become aware of any issue that could affect the application cycle, the closing date will be extended and notification will be provided to all local governments. Such notification will also be posted to the Department's website.) In addition, the Dearmetillmakinormrtin aailleo orgecisndonpoftrganazonbyubshngotiesinthFAanonitwesit.&bp;LocaEfrtrBeausdaageasessendaas aaiablony athcontylevl,theuneteeatacanotbefuthrrokn dwny jriditinswihinthecont.hef, cunieeliibe toreeie fndmutonsdetheneesf almuicpaites(anFeerlyReognzelnianTrb)thnhencorortedaswelasunnrcpoatd araf te cont(adesevaios cntiuos teouny)&spCoutishoudlsoacosulwitloaloungprvierrearinfdoafodalerentlousngnedrseltetothestrm. Cuniesmutrovieheeptidoumnttiothaalpatiserelloenpprtiny tdisusunetnedsanthebetse othfuding. Counties may elect to have a municipality apply for and administer the funds if such municipality has the capacity, the greatest unmet need, and the majority of the funds will be expended within its jurisdiction. In all other cases, the county will be the applicant and will administer funding for projects located in affected municipalities as well as the unincorporated area. Applicants will not be required to conduct public hearings or meetings to receive comments from residents of the community. Applicants will be required to post a public notice in a newspaper of general circulation and to their website, that states the types of projects to be undertaken, the source and amount of funding available for the activities, a date by which public comments must be made, and who to contact for a copy of the proposed application (i.e., name or office and telephone number). This notice, which must provide for a 10-day comment period, must be published prior to the submission of the application. 7 The State, local governments and Federally Recognized Indian Tribes receiving awards must allow citizens access to grant information pursuant to Florida's Government in the Sunshine Law as well as federal requirements. Records should be made available for public inspection during normal business hours. In addition, if possible, information should be posted to websites. Upon request, information must be provided in a format accessible to persons with disabilities. Retention of records must meet existing public record requirements. Recovery Planning the

land-use, responsible flood plain management, and removal of regulatory barriers to reconstruction, and coordination with other state and federal programs and entities. Subgrantees should attempt to use these funds in a way that results in mitigating future disasters as well as providing for recovery. Quality Construction the State will encourage construction methods that emphasize high quality, durability, energy efficiency, sustainability, and mold resistant residential, commercial, and other buildings. The State requires that all housing units assisted with these disaster recovery funds be brought up to state and local building codes and Section 8 Housing Quality Standards. Where practicable, appropriate energy conservation improvements (i.e. energy efficient appliances, windows, doors, etc.) will be made. Efforts to mitigate flood risk through construction and elevation should be undertaken. Special Needs Population the State encourages grant recipients to provide adequate, flood-resistant housing for all income groups within the disaster-affected areas. Subgrantees must describe in their application how they will attempt to address emergency shelter and transitional housing needs of homeless individuals and families (including subpopulations) to prevent low-income individuals and families with children especially those with incomes less than 30% of median) from becoming homeless, to help and support homeless persons make the transition to permanent housing and independent living, and address the special needs of persons who are not homeless identified in accordance with 24 CFR 913.15(a). An explanation of how a subgrantee will attempt to address special needs population must be incorporated into the grant application. Plans for the use of the disaster funding are already being continued. Reporting The State will report on unexpended funds and accomplishments and beneficiaries in HUD's online Disaster Recovery Grant Reporting (DRGR) system. Funds will be drawn for payments by the Department using this system. Each subgrantee must report on a quarterly basis (on a form provided by the Department) on the status of the activities undertaken. Quarterly status reports will be due to the Department within 15 calendar days following the end of the quarter. The State will then report to HUD using the online DRGR system. Certifications and Documentation The use of the disaster funding is contingent upon certain requirements, and both the State and local governments will be expected to certify that these requirements will be met or carried out. Applicable federal and state laws, rules and regulations are listed in the application form, and the chief elected official, or designee authorized by the local governing authority, of the local government applying for funds will be required to certify in writing that the grant will be carried out in accordance with the stated requirements. These requirements will also be a part of the Award Agreement between the Department and its subgrantees. In addition, local governments will be required to submit or maintain documentation that fully supports the application that is submitted to the Department. Requirements relating to documentation are set out in the application form. Failure to document that a project is needed as a result of the disaster(s) or to mitigate the effects of future disasters will result in an application being declared ineligible.

DREF

The State of Florida has identified 72 activities as DREF eligible. These activities represent \$67.4 million out of the State's \$81 million allocation. Twenty-two (22) local governments have expressed an unmet need to the Florida Department of Community Affairs's Disaster Recovery Program. Based on their estimates, Florida is requesting an additional allocation of \$123,325,370 in DREF Funds.

The State would like to participate in both the Buyout Program and the Individual Mitigation Measures Program.

BUYOUT PROGRAM

Florida's Buyout Program consists of floodplain area buyouts under an optional relocation plan. This includes, but is not limited to, demolition, acquisition and relocation. Properties acquired will be restored to their natural state and thereafter maintained in a natural state in perpetuity. Properties will be used as parks, playgrounds or green space, so long as there are only minor improvements to the property. The State recommends that the primary funding group be comprised of Baker County, Bay County, Calhoun County, City of Jacksonville (Duval County), City of Kissimmee (Osceola County), City of Stuart (Martin County) and the City of Venice (Sarasota County). These seven (7) communities are requesting a combined total of \$24,578,200. The secondary recommended funding group is comprised of Franklin County, Leon County, Okeechobee County and Putnam County. These four (4) communities are requesting a combined total of \$7,485,000.

INDIVIDUAL MITIGATION MEASURES (IMM)

Florida's Individual Mitigation Measures Program consists of the improvement of residential properties (no commercial or public improvements) to make them less prone to disaster damage. These activities include, elevation, sump pumps, drainage projects, use of building materials that are flood damage-resistant (i.e. adding waterproof veneer to exterior walls, raising electrical system components, anchoring fuel tanks, raising or flood-proofing HVAC equipment, installing sewer backflow valves, and protecting wells from contamination by flooding), and water and/or sewer hookups for housing units.

The Individual Mitigation Measures' (IMM) primary funding group is comprised of Alachua County, Bay County, Calhoun County, City of Jacksonville (Duval County), City of Kissimmee (Osceola County), City of Venice (Sarasota County), Clay County, Collier County, Escambia County, Glades County and Monroe County. These 11 communities are requesting a combined total of \$70,814,797. The secondary recommended funding group is comprised of the City of Fort Pierce (Indian River County), City of Newberry (Alachua County), Franklin County, Hendry County, Leon County, Okeechobee County, Putnam County, St. Johns County and the Town of Davie (Broward County). These nine (9) communities are requesting a combined total of \$20,447,373.

Progress Toward National Objective Targets

National Objective	Target	Actual
Low/Mod	\$53,979,019.00	\$85,974,874.78

Overall Progress Narrative:

It appears that the state's subgrantees are performing much better with this grant than on the two previous disaster recovery awards. To date, no major obstacles have been identified. As noted in the progress narratives several communities have projects that have been or will be completed in the July quarter. The state is attempting to streamline reporting and data management so that it can devote more time to DRGR reporting. Since the staff that are responsible for reporting now have a more formal role in state financial reporting, and with the number of disaster grants that are open, it has been difficult to ensure that all reporting is up-to-date.

Activity Description:

Street paving for Cow Pen Road and Aunt Mary Harvey Road.

Tropical Storm Fay's heavy rains and severe flooding caused damage to numerous rural roads in Baker County. Cow Pen Road and Aunt Mary Harvey Road both had intermittent washouts, road surface damage and subgrade damage as a result of the Tropical Storm. These roads were not covered by insurance. Without the improvements, the nearby residential area will continue to flood, limiting access and hindering evacuation.

DREF - Activities are 100% residential; this activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Baker County

Activity Progress Narrative:

The local government reported that all work is completed. The state is waiting on the final accomplishment report.

Activity Description:

Public facilities and generators for Collier County Designated Shelters - Immokalee High School and Immokalee Middle School. Tropical Storm Fay produced widespread flooding, with a significant amount of pooling in the downtown urban center, within the Immokalee Area of Collier County. Following the storm, immediate action was required to correct emergency health, safety and welfare problems, as well as repair damaged property. The threat of additional widespread flooding from a future storm related event remains. Unfortunately, since 2008 no funding has been available to implement the recommendations contained in the Stormwater Management Master Plan.

Location Description:

Collier County

Activity Progress Narrative:

Public School/Shelter generator project - generators have been installed. Restrooms are in process of being expanded. Construction is underway.

Activity Description:

Flood and drainage activities in Collier County: Goodlette Arms; Immokalee Stormwater; and Bayshore Gateway Stormwater Tropical Storm Fay caused flooding, loss of power (including elevators) and extensive landscape damage. The project will improve drainage and decrease flooding by establishing a fully-connected swale and culvert system with outfalls in Naples Bay and stormwater pond benefiting the commercial district.

DREF -Activities are 88% residential; this activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Collier County

Activity Progress Narrative:

Bayshore Stormwater Project - work is underway. Land has been cleared. Some underground utilities have been installed. Immokalee Stormwater Project - land acquisition completed. Contractor selected.

Activity Description:

Affordable Rental Housing activities - multi-family rehab in Goodlette Arms neighborhood and Immokalee Apartments. Tropical Storm Fay caused flooding, loss of power (including elevators) and extensive landscape damage to the Apartments. The loss of power is of particular concern as many of the elderly residents rely on elevators for access to their unit. Furthermore, many residents rely on electricity to operate equipment for the administration of oxygen. Activities are being undertaken that will both repair and strengthen the units, so that there is less likelihood of future damages resulting from storms (i.e. storm shutters, strengthening of roof, window and door replacement with materials that hold up better during storms, etc.). DREF -Activities are 100% residential; this activity is eligible under DREF category C, Individual Mitigation Measures.

Activity Description:

Development of hardened, centralized homeless/special needs housing and services facility Escambia / Pensacola. Hardening of the facility will provide a safer place for the homeless and those with special needs.

DREF - Activities are 100% residential; this activity is eligible under DREF category C, Individual Mitigation Measures. \$1,000,000 of Waterfront Rescue Mission funds are leveraged with the DRI dollars.

Location Description:

Escambia County

Activity Progress Narrative:

Project should be completed in July. Escambia County administers an excellent disaster recovery program.

Match Contributed	\$0.00	\$0.00

Activity Description:

Construction of public sanitary sewer system and related costs for Escambia County. Construction of stormwater drainage collection/management system improvements and related costs for the Town of Century. The Barrancas Community Redevelopment Plan, Escambia County Long Term Recovery Plan, and the Escambia County Health Department have all established elimination of septic tanks in the County's Community Redevelopment Areas (CRA) as a high priority due to environmental, economic, and disaster recovery considerations. Older Warrington area neighborhoods with high water tables rely solely on poorly or non-functioning septic tanks, many of which are undersized, for sanitary waste disposal, a situation with major environmental concerns, but one that was marked exacerbated by Hurricane Ivan and impacted again by the heavy rainfall associated with Hurricane Gustav. DREF -Activities are 100% residential; this activity is eligible under DREF category C, Individual Mitigation Measures. \$350,000 ECUA (Payment for Eng/Design)

Location Description:

Escambia County

Activity Progress Narrative:

Pond Street area - construction is over 75% complete. Main culvert installed

Activity Description:

Rehab / disaster hardening development of multi-family residential units Escambia / Pensacola. Repairs or reconstruction of residential housing units. Activities are being undertaken that will both repair and strengthen the units, so that there is less likelihood of future damages resulting from storms (i.e. storm shutters, strengthening of roof, window and door replacement with materials that hold up better during storms, etc.) \$177,604 in SHIP Funds will be contributed by County.

Location Description:

Escambia County

Activity Progress Narrative:

All buildings will be completed during the July quarter; accomplishments and beneficiaries will be reported at that time.

Activity Description:

Street improvements and resurfacing of Water Oak Road.

Street being addressed will be paved or resurfaced, and other improvements will be made to prevent serious flooding in the future. Improvements may consist of elevation of roadway surfaces, stormwater drains, curbs and cutters, manholes, etc. Without the improvements, the nearby residential area will continue to flood, limiting access and hindering evacuation. DREF - Activities are 85% residential; this activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Flagler County

Activity Progress Narrative:

Procurement of contractor has been completed. The water management district requested additional information, and it has been provided. Work is now underway.

Activity Description:

County has contracted for professional services with the consulting firm of England Thims & Miller for project Design and Permitting. Design engineering and permitting has been completed. FDOT has issued Permit #2012-A-591-4 for the connection to SR100. The St. Johns River Water Management District has issued Noticed General Permit # 400-035-56383-4 for the project. The project is currently being advertised for sealed bids, which are scheduled to be received on 6-26-12

Location Description:

Flagler County

Activity Progress Narrative:

This DREF funded activity was awarded and obligated during the first quarter of 2012. Although the local government has begun the initial administrative activities, there is no other activity to report at this time. Staff expect that reporting and the draw down of funds will begin in the next quarter. Staff are providing technical assistance as needed and are committed to the quick review of all documents such as environmental reviews, procurement and etc.

Activity Description:

Flood and drainage project in Crawfish Island section of Gadsden County. Project includes hazard mitigation, storm drains, catch basin, retention pond, and curb and gutters.

The residential area being addressed frequently floods due to inadequate storm drains. This project consists of upgrading current facilities or constructing new facilities to better handle storm water runoff.

DREF - Activities are 100% residential; this activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Gadsden County

Activity Progress Narrative:

Small Cities CDBG and disaster funding is being used by the City of Chattahoochee and Gadsden County respectively. Permits have been received. Contractor has been selected.

Activity Description:

Potable Water Lines and Sanitary Sewer Lines in the Wauchula Hills Subdivision. These improvements will correct water and sewer problems that are associated with flooding. Residential housing units will be connected to a water and sewer system. Septic tanks will be abandoned.

DREF - Activities are 100% residential; this activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Hardee County

Activity Progress Narrative:

The local government has reported that the project has been completed. DEO staff are waiting on the final accomplishment and beneficiary data and request for funds. We expect to have this information within the next quarter.

Activity Description:

Kennedy Community Center and Emmett Reed Community Center in City of Jacksonville Emergency Operations Center, which houses the 911 Call Center, serves as headquarters for the Fire and Rescue department and provides many critical services for the City of Jacksonville, sustained major roof leaks during this storm impeding the work of the urgent need responders The Kennedy Community Center and Emmett Reed Community Center, which provides services for many of their lowest income residents, received water intrusion and are in desperate need of roof replacements A new roof and storm drainage system is needed to keep this building water tight during storm events. The projects selected were targeted to be those of greatest need that would benefit low to moderate income people or address an urgent threat to health and safety. This project may meet the definition of a DREF activity.

Location Description:

City of Jacksonville

Activity Progress Narrative:

Design has been completed and approved; procurement process is underway.

Activity Description:

Flood and Drainage projects throughout the City of Jacksonville. The residential area being addressed frequently floods due to inadequate storm drains. This project consists of upgrading current facilities or constructing new facilities to better handle storm water runoff. DREF - Activities are 100% residential; this activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

City of Jacksonville

Activity Progress Narrative:

Construction has been completed in service area 18. In four service areas, projects are underconstruction. The remaining service areas are in the procurement process. Work should begin on these projects during the July quarter.

Activity Description:

Affordable Rental Housing rehabilitation and hardening.

Repairs or reconstruction of residential housing units. Activities are being undertaken that will both repair and strengthen the units, so that there is less likelihood of future damages resulting from storms (i.e. storm shutters, strengthening of roof, window and door replacement with materials that hold up better during storms, etc.)

DREF - Activities are 100% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

City of Jacksonville

Activity Progress Narrative:

Work in two of the three service areas has been completed. Awaiting information on accomplishments and beneficiaries.

Activity Description:

Acquisition of Fairbanks Ferry flooded property. Eleven families will be moved out of a frequently flooded area to new homes. Currently, these families have difficulty getting in and out of the area when flooding occurs. DREF- Activities are 100% residential. This activity is eligible under DREF category B, Buyouts.

Location Description:

Leon County

Activity Progress Narrative:

Hope to acquire the last right of way needed during July. Work is underway.

Activity Description:

Flood and Drainage projects in Leon County for Disaster Recovery of 2008 storms. The residential area being addressed frequently floods due to inadequate storm drains. This project consists of upgrading current facilities or constructing new facilities to better handle storm water runoff. DREF- Activities are 80% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Leon County

Activity Progress Narrative:

Paving is complete on Selena Road.
Timber Lake project is completed.
Local government is working on the grant closeout information.

Activity Description:

Callahan and Hilliard lift station and sewer line replacement. Tropical Storm Fay hit the County in August of 2008. The heavy rains and wind did little damage to the eastern part of the County, but adversely affected the western portion of the County. The rains caused heavy flooding adjacent to Thomas Creek and also affected other tributaries in the area. The heavy rains also created severe problems in Callahan and Hilliard, the two municipalities in the area. These municipalities have central sanitary sewer systems. These rains damage the collection systems and created health problems with sewage overflowing and backing up into homes. Improvements to these system will mitigate future disaster damage and health issues associated with flooding. DREF- Activities are 53% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Nassau County

Activity Progress Narrative:

Construction on sewer lines has begun.

Activity Description:

Town of Mangonia Park: Purchase and installation of 8 fixed generators to serve the Town's well and pump stations. These critical facilities suffered service interruption due to extended power loss as resulting from Tropical Storm Fay. The emergency generators are necessary to keep these essential services operating in the aftermath of a future major storm event. This activity will serve the "Activities benefiting low- and moderate-income persons". It will mitigate future disaster damage and eliminate water and sewer issues that result from flooding.

DREF- Activities are 70% residential. This activity is eligible under DREF category B, Individual Mitigation Measures.

Location Description:

Palm Beach County

Activity Description:

Street Improvements - flood and drainage projects for affordable rental housing locales.

Street being addressed will be paved or resurfaced, and other improvements will be made to prevent serious flooding in the future. Improvements may consist of elevation of roadway surfaces, stormwater drains, curbs and cutters, manholes, etc. Without the improvements, the nearby residential area will continue to flood, limiting access and hindering evacuation. DREF- Activities are 100% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Palm Beach County

Activity Progress Narrative:

Procurement process is underway. If no unexpected issues arise, construction will begin in July quarter.

Activity Description:

Flood and Drainage Improvements - curb and gutters: 15th and Napoleon and 4th Avenue. The residential area being addressed frequently floods due to inadequate storm drains. This project consists of upgrading current facilities or constructing new facilities to better handle storm water runoff. DREF- Activities are 100% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Putnam County

Activity Progress Narrative:

Local government has reported that the project has been completed. DEO staff are waiting on final accomplishments and beneficiaries (expect to receive in July).

Activity Description:

Sewer Line extensions and lift station - Town of Bagdad. The Blackwater River is under a constant threat of contamination due to septic tanks located in close proximity to the river's natural water line. The septic systems become a health hazard during and immediately following storm events where there is heavy rain, flooding and storm surge. In addition, poor soils and high water tables make the Bagdad area conducive to septic tank problems and leakage during storms such as Hurricane Gustav and Tropical Storm Ida. The heavy rainfall during Hurricane Gustav created flooding of 4-6 feet in areas of Santa Rosa including Bagdad community. When this happens, the failure of septic tanks and the intrusion of sewage into the environment causes a serious and immediate threat to the health and welfare of the community. These improvements will mitigate future damage and protect citizens from health and safety issues.

DREF- Activities are 100% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Santa Rosa County

Activity Progress Narrative:

Bids received in June. Construction will begin during July quarter.

Activity Description:

Mitigation rehabilitation activities for multi-family rental housing.

Location Description:

Sarasota County

Activity Progress Narrative:

This DREF funded activity was awarded and obligated during the first quarter of 2012. Although the local government has begun the initial administrative activities, there is no other activity to report at this time. Staff expect that reporting and the drawdown of funds will begin in the next quarter. Staff are providing technical assistance as needed and are committed to the quick review of all documents such as environmental reviews, procurement and etc.

Activity Description:

Lake Hodge Outfall Stormwater drainage project: installation of concrete pipe and drain inlets. The residential area being addressed frequently floods due to inadequate storm drains. This project consists of upgrading current facilities or constructing new facilities to better handle storm water runoff. DREF- Activities are 40% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Seminole County

Activity Progress Narrative:

The County is unable to move forward with this project due to not being able to obtain an easement on one of the properties receiving flood & drainage work. They will be deleting this project during the next submittal of their modification.

Activity Description:

Rehabilitation and hardening of Single Family Housing damaged by 2008 storms. Repairs or reconstruction of residential housing units. Activities are being undertaken that will both repair and strengthen the units, so that there is less likelihood of future damages resulting from storms (i.e. storm shutters, strengthening of roof, window and door replacement with materials that hold up better during storms, etc.) DREF- Activities are 0% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

Seminole County

Activity Progress Narrative:

The project should be completed during the July quarter.

Activity Description:

Affordable rental housing rehabilitation and hardening for single family homes. Repairs or reconstruction of residential housing units. Activities are being undertaken that will both repair and strengthen the units, so that there is less likelihood of future damages resulting from storms (i.e. storm shutters, strengthening of roof, window and door replacement with materials that hold up better during storms, etc.) DREF- Activities are 75% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

Location Description:

St. Lucie County

Activity Progress Narrative:

The local government reports that a total of 42 units have been completed and that another is pending.

Activity Description:

Construction of three (3) pump stations: Lake Tivoli; Lake Piedmont; and Tivoli/Wheeling

The residential area being addressed frequently floods due to inadequate storm drains. This project consists of upgrading current facilities or constructing new facilities to better handle storm water runoff.

DREF- Activities are 0% residential. This activity is eligible under DREF category C, Individual Mitigation Measures.

STATUS UPDATE - As the Action Plan activity Description states, this project is for flood and drainage activities that include three (3) pump stations, storm drains and liner feet of flood and drainage facilities. The project involves several properties.

When the activity was set up in DRGR, staff selected all possible activities to be reported on based on the information that was presented in the application.

Location Description:

Volusia County

Activity Progress Narrative:

Cannot begin until property acquisition is completed, engineering designs and specs completed and approved by DCA, and a DCA approved contract is awarded through a competitive procurement process. Notice to proceed issued to contractor in January 2012. Work anticipated to be completed June, 2012. DEO approved property acquisition, bid to proceed in July. Engineering for Miller Lake commenced, in progress for area of acquired properties. Preliminary plans expected to be available in March 2012. Engineering for Affordable Housing project complete. 90% Plans approved by SJWMD and final plans/specs in process. Front end bid documents in development.
