## **New Video Series on Version 14 Features**

Posted by [Daniel Fitzgerald](#) on 1/3/2014 3:09:39 PM (Last modified 2/7/2014 1:36:16 PM)

Hello everyone,

Version 14 contains a number of useful new staff features, and we want to show them off! Therefore, we are creating several short new informative videos on some of the more popular features that staff now have available in Version 14.

The first video in the series discusses staff's ability to create a single case note and attach it to multiple client accounts. Other videos will discuss how to attach a service to multiple client accounts, new staff alerts, new staff widgets, LMI features in Version 14, new resume and job search tools, and other features. Staff who review these videos can even take a short quiz at the end of the video and print a certificate if they score an 80% or higher on the quiz.

The videos will be posted as they are completed, so come back often to review what's new. Thanks, as always, for your interest.

### **Video 1 – Creating One Case Note for Multiple Users (6:52)**
