#	Area	Project	Status
1.	Planning,	Strategic Planning Office (SPO)	In progress and on schedule.
2.	Coordination,	Oversight (IV&V)	In progress and on schedule.
3.	and Oversight	System and Software	In progress and on schedule. Contract amendment four
		Integration (SSI)	was executed. See System and Software Integration Operational Work Plan.
4.	Software	Adjudication Workflow Management	In progress and on schedule. Scope of work drafted for a Request for Quote for a tool. See Adjudication Workflow Management Operational Work Plan.
5.		ChatBot	In progress and on schedule. ChatBot development is underway. See ChatBot Operational Work Plan.
6.		Rules Catalog	In progress and on schedule. Project scope is defined, and 98% of all known business rules analyzed. Project anticipated to be closed out in the next reporting period. See Rules Catalog Operational Work Plan.
7.		Appeals Workflow Management	In progress and on schedule. Nine tickets being developed/tested. See Appeals Workflow Management Operational Work Plan.
8.		Incremental CX/UX Mobile- Responsive Transformation	CX/UX in progress and back on schedule. Initial claims application and fact-finding questionnaires development work ongoing. Communications contractors are on schedule. See CX/UX Operational Work Plan.
9.		Document Imaging System	In progress and behind schedule. Request for Quote advertised. See Document Imaging System Operational Work Plan.
10.	Data and Analytics	Reporting	In progress and on schedule. 35% of in-scope reports have been completed or retired. See Reporting Operational Work Plan.
11.		Product and Data Management	In progress and behind schedule. See Product and Data Management Operational Work Plan.

Are there any scope changes?

There were no scope changes this reporting period.

Is the project currently within budget?

The project is currently under budget.

Do you expect the project to remain within budget?

Yes

If the project is not on schedule, briefly explain why and what the agency is doing to bring the project back on schedule. The Program is on schedule.

Major Project Tasks and Activities Accepted or In Progress this Reporting Period

• [Planning, Coordination, and Oversight] System and Software Integration: This project includes leveraging the expertise of a third-party services provider with experience in strategic planning, system design, system development, and system integration for large multi-component system modernization efforts to ensure the Department's various modernization projects work as intended to deliver an enhanced user experience.

December 30, 2023 Page 1 of 3

- Contract amendment four was executed, which increased the contractor's originally estimated price of three
 contract deliverables. The contractor incorrectly calculated the end date of the contract in amendment three and
 did not include the full cost of the work for the duration of the contract. Amendment four corrected the error.
- [Software] Adjudication Workflow Management: This project will help automate the assignment of adjudication cases to adjudicators and eliminate a manual process. This project addresses one of the recommendations made during the Business Process Optimization project that was closed during the two-year Reemployment Assistance Modernization Program Roadmap.
 - This reporting period, a scope of work was drafted for a Request for Quote for a workflow management tool.
 This tool will auto-assign adjudication issues to adjudicators based on skill and availability, which will eliminate a manual process.
- [Software] ChatBot: This project includes providing Reemployment Assistance claimants an additional self-service option to gain answers to frequently asked questions and claim-specific information without requiring a call to the Reemployment Assistance Contact Center. This allows more time for Contact Center agents to assist individuals with more complex issues, including those with barriers such as access to a computer.
 - The Department worked with the Contractor to develop the ChatBot, including the technical design for frequently asked questions.
- [Software] Rules Catalog: This project is designed to further enhance the Department's documentation for Reconnect by capturing all the rules that govern the administration of the Reemployment Assistance program. This project will add information about the complexity of each business rule, which will aid the Department in forecasting the need for implementing a Business Rules Engine as Reconnect is further modularized.
 - Out of the 12,591 business rules that govern the Reemployment Assistance program, the relative complexity for 561 rules was analyzed in November, bringing the total number of analyzed rules to 12,315.
- [Software] Appeals Workflow Management: This project is designed to implement new features and address
 functionality that is not currently working to streamline the Appeals workflow that is used by Department staff to
 conduct Appeals hearings and issue determinations. This will eliminate manual processes and expedite the Appeals
 process.
 - For this reporting period, of the 67 tickets in-scope for this project, 0 are complete, 9 are being developed and tested, and 58 have not yet been started.
- [Software] Incremental CX/UX Mobile Responsive Software Transformation: This project includes optimizing the existing System and developing a user-friendly front-end for Reemployment Assistance claimants that is also mobile-friendly. The transformation will occur incrementally to ensure all System users benefit from System optimization, with a focus on enhancing the claimant experience first.
 - All 17 new initial claims application questions were developed by the Contractor and quality assurance and unit/system testing were initiated.
 - o All 28 English fact-finding questionnaires were developed by the Contractor and quality assurance and unit/system testing were completed. All 28 passed testing.
 - 20 of the 28 Spanish fact-finding questionnaires were developed by the Contractor and quality assurance and unit/system testing were completed. Of the 20 that were developed, 12 passed testing and 8 did not pass testing.
 - 20 of the 28 Haitian Creole fact-finding questionnaires were developed by the Contractor and quality assurance and unit/system testing were completed. Of the 20 that were developed, 12 passed testing and 8 did not pass testing.
 - User acceptance testing preparations were initiated.
- [Software] Document Imaging System: This project is designed to remove the manual processes that are required for the Department to process physical mail and faxed documents claimants and employers submit for their

December 30, 2023 Page 2 of 3

REEMPLOYMENT ASSISTANCE CLAIMS AND BENEFITS	PROJECT STATUS REPORT FOR	FISCAL YEAR 2023-24
INFORMATION SYSTEM MODERNIZATION	DECEMBER 2023	FLORIDACOMMERCE

Reemployment Assistance claim by automatically attaching these documents, once scanned, to the correct claim in Reconnect so that claims can be processed efficiently and accurately.

- A Request for Quote for hardware and software was advertised. This product and services will auto-attach official FloridaCommerce documents submitted by claimants and employers via mail or fax to the correct Reconnect account. This will eliminate a manual process.
- o Baseline business requirements were defined.
- [Data and Analytics] Reporting: This project includes migrating, developing, and validating all internal Reemployment Assistance performance reports from Reconnect to the Data. The data warehouse provides the Department with standardized data and reduces the need for staff intervention for future reporting activities.
 - For this reporting period, of the 379 reports in-scope for this project, 40 are complete, 34 are being developed and tested (53 reports were de-duplicated and have been merged into 23 reports), 94 will be retired, and 211 have not yet been started.
- [Data and Analytics] Product and Data Management: This project is designed to mature the Department's data management, planning, and governance processes for Reemployment Assistance data to promote data sharing, interoperability, and reduce both the size of and costs affiliated with Reemployment Assistance's data.
 - No change this reporting period. The Department's existing data catalog and data dictionary continue to be updated to include all databases and other data repositories that store Reemployment Assistance data and use it for data and analytics.

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

FloridaCommerce is enhancing the claimant experience by launching a ChatBot solution.

The ChatBot solution provides Reemployment Assistance claimants an additional self-service option to gain answers to frequently asked questions and claim specific information. This technology will help deflect calls to the Reemployment Assistance Contact Center, so that agents are more available to the callers who truly need agent assistance.

A. Scope Statement

FloridaCommerce's existing contact center vendor will deploy one AI conversational bot to the floridajobs.org website to help Reemployment Assistance end users obtain answers to frequently asked questions and claim-specific information related their claims to help increase self-service opportunities and deflect calls from the Reemployment Assistance Contact Center. If the ChatBot cannot answer the end user's question, an opportunity to escalate to one of three Contact Center agent queues will be provided.

In Scope

- The existing contact center vendor's professional services team will develop a
 custom chat provider for escalation to Customer's Genesys CX account.
 Translation will be provided within the AI Chatbot account for English, Spanish,
 and Haitian-Creole. Escalation to Genesys CX will be provided for each language.
 Training will be provided for AI administrators, content creators and reporting
 analysts.
- FloridaCommerce will administer ChatBot content within a single knowledge base, specifically, English. The knowledge base articles will reside in the AI ChatBot solution. The translation solution will translate the English knowledge base content into Spanish or Haitian-Creole. Customer responses will be translated from Spanish or Haitian-Creole to English for solution consumption and processing.

Out of Scope

• Languages besides English, Spanish, or Haitian-Creole

B. Project Objectives and Business Benefits

The ChatBot solution provides Reemployment Assistance claimants an additional self-service option to gain answers to frequently asked questions and claim specific information. This technology will help deflect calls to the Reemployment Assistance Contact Center, so that agents are more available to the callers who truly need agent assistance.

C. Critical Success Factors

The following factors are necessary for success.

- FloridaCommerce staffing resources are available to work on the project.
- Performance of the solution meets FloridaCommerce requirements.

D. Key Dates

The key dates below represent the current status of the project as well as planned dates for the project.

Key Date	Importance and Relevance to the Project			
November 2, 2023	Project Kick off with Vendor			
January 14, 2024	FAQ User Acceptance Testing			

E. Major Deliverables

Major Deliverable	Deliverable Description		
Project Kickoff Meeting	The PM schedules the project kickoff meeting and		
	provides agenda and materials.		
Project Management Plan	The PM provides the final version of the PMP after		
	review and approval by FloridaCommerce		
Project Schedule	The PM will work with the vendor to create the project		
	schedule		
Test Plan	Vendor will work on the develop a testing plan and		
	strategy to be used during User Acceptance Testing.		
User Accepting Testing	User Acceptance Testing will commence once the		
	development has been completed by the vendor. The		
	result of User Acceptance Testing will be the sign off on		
	the executed test plan.		
Go Live	Deployment of the solution into production		

F. Major Milestones

The project cannot be completed without the milestones listed below. Transparency and inclusion in all major milestones and deliverables will help build and maintain an accurate schedule.

Major Milestone	Deliverable Description		
Project Kickoff Meeting	The PM schedules the project kickoff meeting and		
	provides agenda and materials.		
Project Management Plan	The PM provides the final version of the PMP after		
	review and approval by FloridaCommerce		
Business Rules Traceability	The BA and PM conduct a series of work sessions to		
Matrix	drill down in detail of the scope of the project		
Project Closeout Report	The PM provides the Project Closeout Report		

G. Key Stakeholders

The stakeholders listed below are critical in providing direction, especially with a project that will have a large amount of discovery. The project sponsors will be valuable when issues that require executive decisions are needed, and when there may be negotiations for keeping and purging older data based on its value.

DEPARTMENT OF COMMERCE Page 4 of 11

Key Stakeholder	Project Interest		
J. Alex Kelly	Secretary, FloridaCommerce		
Lindsay Volpe	Deputy Secretary, Workforce Services		
Domenic DiLullo	Chief Technology Officer		
Paul Forrester	Chief Information Officer		
Tisha Womack	Chief Financial Officer		
Wendy Castle	RA Modernization Program Owner – Business		
Nicole Sanislow	RA Modernization Program Manager – Business		
Warren Lenfant	RA Modernization Acting Project Sponsor		
Tom Richardson	RA Modernization Lead Program Manager – Strategic Planning		
	Office		
Thomas Holliday	RA Modernization Program Manager – Strategic Planning		
	Office		
Sushma Kavarthapu RA Modernizations IT Program Manager - IT			
David Sinclair	Project Manager		

H. Significant Project Assumptions and Constraints

Project Assumptions

- 1. ChatBot solution will be available in English, Spanish and Haitian-Creole.
- 2. The assigned IT resources possess relevant knowledge and skills to complete the identified tasks.
- 3. Members of the project team will have access to the necessary tools, hardware, and materials necessary to complete the identified tasks.
- 4. All relevant stakeholders will attend required status meetings. However, there may be instances where some stakeholders are unavailable to attend.
- 5. The Project Sponsor will be responsive and prepared to make decisions regarding the project cost and scope.
- 6. The solution must be FedRamp compliant.

Project Constraints

- 1. Limited Knowledge of FloridaCommerce claims processing could slow the project down.
- 2. Hardware that needs to be provided by FloridaCommerce could be slower due to staffing constraints.

II. Work Breakdown Structure

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

WBS	Task Name
1	01-Chatbot
1.1	Initiation
1.1.1	Risk and Complexity Assessment

DEPARTMENT OF COMMERCE Page 5 of 11

WBS	Task Name		
1.1.2	PM Deliverable: Project Charter		
1.1.3	Project Charter complete		
1.1.4	Stakeholders Register		
1.1.5	Project Kickoff Meeting		
1.1.6	Conduct Lessons Learned Meeting		
1.2	Initiation Phase complete		
1.3	Planning		
1.3.1	PM Deliverable: Resource Plan		
1.3.2	Resource Plan Complete		
1.3.3	PM Deliverable: Project Schedule		
1.3.4	Project Schedule complete		
1.3.5	PM Deliverable: Project Management Plan		
1.3.6	Project Management Plan complete		
1.3.7	PM Deliverable: Project Budget		
1.3.8	Project Budget complete		
1.3.9	PM Deliverable: Project Spending Plan		
1.3.10	MILESTONE: Project Spending Plan complete		
1.3.11	Complete Impact Analysis		
1.3.12	Requirements:		
1.3.13	Complete the Planning Gate R&C Assessment		
1.3.14	Conduct Lessons Learned Meeting		
1.4			
1.5	Execution		
1.5.4	Record Level Detail Requirements Gathering Completed		
1.5.5	Approve Requirements		
1.5.6	Conduct Lessons Learned Meeting		
1.5.7	Transition to Operations		
1.6	Execution Phase complete		
1.7	Monitoring and Controlling		
1.7.1	Manage Project Schedule		
1.7.2	Manage Project Costs		
1.7.3	Manage Project Scope		
1.7.4	Manage Project Risks		
1.7.5	Manage Project Issues		
1.7.6	Manage Decisions		
1.7.7	Manage Action Items		
1.7.8	Manage Cybersecurity		
1.7.9	Conduct Regularly scheduled Status Meetings		
1.7.10	Prepare Regularly scheduled Status Reports		

DEPARTMENT OF COMMERCE

WBS	Task Name
1.8	Monitoring and Controlling Phase Complete
1.9	Project Closeout
1.9.1	PM Deliverable: Project Closeout Report
1.9.2	Project Closeout Report complete
1.9.3	Conduct Lessons Learned Meeting
1.1	Closeout Phase complete

III. Resource Loaded Project Schedule

As stated in Section II, Work Breakdown Structure, since this is a high-level representation of the project, the project team names are not reflected. The names are listed in Section V.B. Project Roles and Responsibilities, Project Team.

The project management deliverables mentioned below are required by Florida Administrative Code, Rule 60GG.

WBS	Task Name	% Complete	Duration	Start	Finish
1	01 ChatBot				
1.1	Initiation	100		7/15/23	7/30/23
1.1.1	Risk and Complexity Assessment	100		7/26/23	7/30/23
1.1.2	PM Deliverable: Project Charter	100		7/26/23	7/30/23
1.1.3	Project Charter complete	100		7/26/23	7/30/23
1.1.4	Stakeholders Register	100		7/26/23	7/30/23
1.1.5	Project Kickoff Meeting	100		7/26/23	7/30/23
1.1.6	Conduct Lessons Learned Meeting	100		7/26/23	7/30/23
1.2	Initiation Phase complete			7/26/23	7/30/23
1.3	Vendor Contract is Executed	100		10/23/23	10/23/23
1.5	Execution Begins	15		11/2/23	1/25/24
1.7	User Acceptance Testing FAQ	0		1/14/24	1/30/24
1.8	Monitoring and Controlling	0		1/29/24	4/01/24

DEPARTMENT OF COMMERCE Page 7 of 11

IV. Project Spending Plan

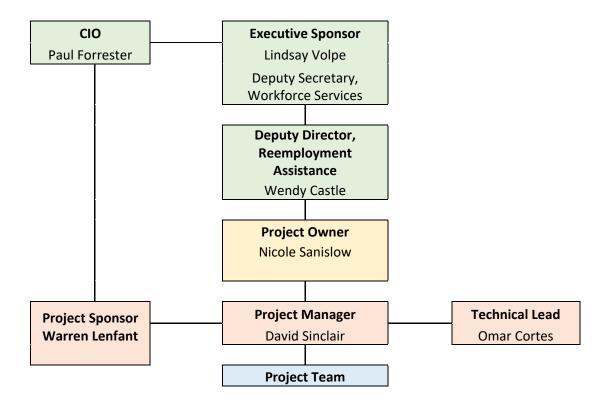

The ChatBot project has existing resources assigned, therefore, there is no spend for this project.

FY 2023-24 Expenditures	FY 2024-25 Expenditures
Software: \$762,000	Software: \$532,848
Other OpEx (Vendor Deliverables): \$0.00	Other OpEx (Vendor Deliverables): \$0.00
Other CapEx: \$0.00	Other CapEx: \$0.00

V. Project Organization and Methodology

A. Project Organizational Chart

The Project Manager meets with project stakeholders every week on business rules progress, and to answer general status questions. This meeting is also the forum for escalating issues that require all project stakeholders to resolve together.

B. Project Roles and Responsibilities

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

DEPARTMENT OF COMMERCE Page 8 of 11

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with the Reemployment Assistance program to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce policy.

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	 Provide guidance on overall strategic direction Advising the Strategic Planning Office and project manager of risks that may impact the project Facilitate resolution of significant issues in the project Reviewing and signing off on key milestones
Paul Forrester	Project Sponsor/Chief Information Officer (CIO)	 Responsible for the Strategy of FloridaCommerce IT Responsible for Staffing and Support plans Responsible for day-to-day operations Responsible for working closely with programs on technology needs
Wendy Castle	Project Sponsor/Director Reemployment Assistance	 Provide guidance on overall strategic direction Advising the Strategic Planning Office and project manager of risks that may impact the project Facilitate resolution of significant issues in the project
Nicole Sanislow	Project Owner	 Represents the interests of the stakeholders Monitors project progress Approves project definition Approves plans and schedules Validates project deliverables meet expectations Tracks project benefit recognition, risk retention and mitigation activities Acts as liaison between teams and Management for issue escalation and resolution
David Sinclair	Project Manager	 Manages all aspects of the project and ensure compliance with project plan Monitors project progress and schedule adherence

DEPARTMENT OF COMMERCE Page 9 of 11

Name	Project Role	Responsibility		
		 Completes all documents related to the project Identifies and manages risks according to the project plan 		
Omar Cortes	Technical Lead	 Responsible for assisting the team(s) in coordinating the most appropriate solution Assists the PM in coordinating additional technical resources/SMEs if necessary, for the team. Has historical knowledge of the Contact Center for Reconnect 		
Warren Lenfant	Business Sponsor	 Responsible for the support for the PM as it is related to the business need and impact of the project Assists the PM in coordinating additional technical resources/SMEs if necessary, for the team. Has years of historical knowledge of the Contact Center Solutions for Reconnect 		

C. Project Management Methodology

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce's satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.

DEPARTMENT OF COMMERCE Page 10 of 11

• FloridaCommerce's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

This project may need Organizational Change Management. This will be determined as the scope and vendor are determined. Once determined we will build a plan related to Change Management.

VII. Project Risk Management Plan

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department's tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
1.				
2.				
3.				
4.				
5.				

VIII. Capacity Plan

This project capacity plan will be built with the vendor to determine the best way to measure capacity load of the ChatBot solution.

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

As a part of the Florida Department of Commerce's (FloridaCommerce) Modernization Program, the FloridaCommerce Rules Catalog will be updated to capture additional business rules within the Reconnect system (System). The completion of the Rules Catalog project will document rules to allow ease of tracking, reviewing, and identifying changes within the System.

A. Scope Statement

The Rules Catalog Project will prepare FloridaCommerce identify and document System rules to develop a Business Rules Catalog. A completed rules catalog will allow FloridaCommerce to track and maintain system rules in one central location.

In Scope

- Update the Rules Catalog to incorporate all rules that govern the Reemployment Assistance program within Reconnect, excluding CX/UX business rules.
 - Include the type of rule and number of System users impacted by the rule, if applicable.
 - o Maintain the catalog within the Central Repository.
 - o Include the complexity of each business rule, as low, medium, or high.
 - o Order rules by frequency of change, from highest to lowest.

Out of Scope

- Migrate rules into a Rules Engine product.
- Identify CX/UX business rules.

B. Project Objectives and Business Benefits

The Rules Catalog project was developed following the completion of the Rules Engine project to complete the development of a Business Rules Catalog. The Rules Catalog documents business rules within the System, and allows business rules to be documented, tracked, and maintained in one central location.

Project Objective	Business Benefit	
Inventory business rules	•	FloridaCommerce will have a complete
		catalog of System business rules.

C. Critical Success Factors

- Timely and high-quality achievement of major milestones/deliverables.
- Usable Business Rules Catalogs.

D. Key Dates

Key Date	Importance and Relevance to the Project
August 2023	Project starts, confirm project scope, and identify
	project team members.
September 2023 – March 2024	Identification and prioritization of business
	systems rules.
April 2024	Finalize and approve Catalog.
April 2024	Closeout Phase complete; project complete.

E. Major Deliverables

Major Deliverable	Deliverable Description
Project Charter	Complete and submit a detailed project charter to
	FloridaCommerce.
Project Management Plan	Create and approve Project Management Plan.
Weekly Status Meetings	Host weekly status meetings with project team.
Identification of Business	Project team identifies business system rules for
Rules	incorporation into the Rules Catalog.
Business Rules Catalog	The project team shall update and create additional
	Business Rules Catalogs to incorporate all business rules
	maintained within the System.
Project Closeout Report	Create and Approve the Project Closeout Report.

F. Major Milestones

Major Milestone	Milestone Description
Identification and prioritization of	Identify and prioritize business systems rules to
business systems rules	documented within the Business Rules Catalog.
Creation of Business Rules	System rules will be reviewed and documented to
Catalog	develop a Business Rules Catalog.

H. Significant Project Assumptions and Constraints

Project Assumptions

- 1. System documentation detailing current business rules are readily available and accessible.
- 2. Technical support and Subject Matter Expert resources will be available as needed, to support the project as needed.

Project Constraints

1. Limited time and capacity of individuals assigned to assist.

II. Work Breakdown Structure

WBS	Task Name

B. Project Roles and Responsibilities

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	 Provide guidance on overall strategic direction. Advising the Strategic Planning Office and project manager of risks that may impact the project. Facilitate resolution of significant issues in the project. Reviewing and signing off on key milestones.
Domenic DiLullo	СТО	 Provide guidance on overall strategic direction. Advising the Strategic Planning Office and project manager of risks that may impact the project. Facilitate resolution of significant issues in the project. Reviewing and signing off on key milestones.
Wendy Castle	Chief of RA Program Owner	 Provide guidance on overall strategic direction. Advising the Strategic Planning Office and project manager of risks that may impact the project. Facilitate resolution of significant issues in the project. Reviewing and signing off on key milestones.
Paul Forrester	CIO Program Owner	 Responsible for the Strategy of FloridaCommerce IT. Responsible for Staffing and Support plans Responsible for day-to-day operations. Responsible for working closely with programs on technology needs.
Nicholas Lent	Project Owner/Benefits Services Consultant	 Contributes subject matter expertise. Assists the Project Managers in responding to risks and issues. Assists the Project Manager in evaluating change requests. Reviews deliverables and project documents, identifying any deficiencies. Reviews and approves deliverables.

DEPARTMENT OF COMMERCE Page 8 of 11

Name	Project Role	Responsibility
Nicole Cain	Project Manager	 Manages all aspects of the project and ensure compliance with project plan. Monitors project progress and schedule adherence. Completes all documents related to the project. Identifies and manages risks according to the project plan.
SME Team	Subject Matter Expert(s)	 Process development tasks. Contributes subject matter expertise. Complete assigned project tasks in accordance with the Project Schedule. Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP. Assists the Project Manager in responding to risks and issues. Assists the Project Manager in evaluating change requests.
Technical Team	Technical Support	 Contributes technical expertise. Complete assigned project tasks in accordance with the Project Schedule. Identifies risks and issues to the Project Manager in accordance with the Risk and Issue Management section of the PMP. Assists the Project Manager in responding to risks and issues. Assists the Project Manager is evaluating change requests.
Vendor	Strategic Planning Office (SPO)	 Monitors project progress. Facilitates FloridaCommerce Leadership Team Governance meetings. Provides guidance and support to project manager and project team members.

C. Project Management Methodology

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce's satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable

Department of Commerce Page 9 of 11

outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- FloridaCommerce's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce's lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan
- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

VII. Project Risk Management Plan

This project will follow the Program Risk Management Plan captured within the Continuous Modernization Program Management Plan. The Continuous Modernization Program team follows a standard method for logging and categorizing issues, researching solutions, and communicating options and final recommendations. Project team members should actively contribute, as it is critical to timely decisions and moving past roadblocks. The buy-in of the

DEPARTMENT OF COMMERCE

project team, key team members and technical staff is critical to the success and ensures that the project team delivers a product in line with the project goals.

Key activities of the risk management process include:

- **Risk Identification** Identifying risks that could potentially impact the project.
- ➤ **Risk Analysis** Prioritize risks and assess the probability and consequence of the risk.
- ➤ Risk Response Planning Prepare action plans to enhance opportunities or minimize threats to the program.
- ➤ **Risk Monitoring** Execute action plans and evaluate their effectiveness, tracking, and reviewing residual risks and identifying new risks.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner

VIII. Capacity Plan

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

Project Capacity Planning

- Establish Cross-Functional Team: To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.
- Calculate Resource Capacity: Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- Determine Resource Requirements: For each project, look at the scope and what resources are required to do the task for the project.
- Project Prioritization: Via a weighted scoring model used for Continuous Modernization, projects within the program have been prioritized for the purpose of optimizing resources and time.
- Allocate Resources Based on Project Priority: Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- Keep the Lines of Communications Open: Communicate between executives, project management leaders and stakeholders.
- Document Known Risks: Monitor risks such as union strikes, weather, government regulations that stop a project or create new ones unexpectedly.
- Plan for How to Handle Not enough Capacity: Understand that obtaining new needed resources takes time and advance planning is imperative.

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

A. Scope Statement

The Reemployment Assistance Claims and Benefits Information System's (System) current architecture is not modular. Lack of modularity requires extensive regression testing for all system enhancements and updates. The current System has a high level of technical debt. This technical debt increases the cost of maintenance as well as the risk of unintended effects elsewhere in the System. To assist in software transformation, Florida Commerce has procured the services of a System software integrator to provide analysis, oversight, monitoring, and testing, and to assume the responsibilities for the foundational technical platform and systems and software integration services necessary to develop and implement the System's current and future infrastructure for modernization. These integration efforts will allow Florida Commerce to secure services which can interoperate and communicate without relying on a common platform or technology. Connecting services, systems, and infrastructures and developing integration standards are the next steps for advancing the System's maturity and System modularity for modernization. This will ensure that an optimized cloud service and delivery model is utilized to deliver business process improvements, functional enhancements, a mobile-responsive application, and modernized architectural efficiencies.

Integration services include documenting the existing technical requirements and specifications of the System and an analysis of the existing technical requirements and specifications. The analysis will determine what technical requirements and specifications need to be improved to increase the effectiveness and efficiency of the System and assist FloridaCommerce with acquiring software and hardware solutions that support the Reemployment Assistance Modernization Program. This shall include full evaluation of the Reemployment Assistance Information Technology program that relates to the System.

In Scope

• A modern System that integrates the infrastructure, software, data, analytics, and security components of the RA Continuous Modernization program.

Out of Scope

- Software Development
- Individual testing at the project level within the Continuous Modernization projects
- Projects not specifically identified in C3272.
- Organizational Change Management

B. Project Objectives and Business Benefits

Project Objective	Business Benefit
Improved delivery of RA Benefits	
Improved functionality	Increased customer satisfaction and self-service
	alleviates dependencies on staffing.

DEPARTMENT OF COMMERCE Page 3 of 18

Improved system performance	System availability is improved.
	Less regression testing.
	Faster code delivery to production.
A secure and scalable system with	Reduction in capital expenditures.
a sustainable system architecture	

C. Critical Success Factors

- Improved customer experience/user experience (CX/UX).
- Implementation of a model that will serve Florida's Reemployment Assistance needs for many years.
- Preservation of continuity of Florida Commerce operations and minimization of demands on Florida Commerce staff.
- Implementation of an operations model that will serve the Reemployment Assistance program for the long term.
- Compliance with state and federal standards.

D. Key Dates

Key Delivery	Importance and Relevance to the Project	
Date		
07/01/2023	Project Kick-Off Meeting	
10/02/2023	Design Documentation	
9/15/2023	Infrastructure Performance Requirements	
12/28/2023	Performance Benchmarks	
06/30/2024	Oversight and Monitoring of RA Projects	
06/30/2024	Integration Testing	
06/30/2024	Integration Services	
06/30/2024	Testing Team	
06/30/2024	Project Closure	

E. Major Deliverables

Major	Deliverable Description	Status
Deliverable		
Deliverable 7	Design Documentation	Delivered
Deliverable 8	Infrastructure Performance Requirements	Delivered
Deliverable 11	Performance Benchmarks	In Progress
Deliverable 13	Oversight and Monitoring of RA Projects	Delivered
Deliverable 14	Integration Testing	Not Started
Deliverable 15	Integration Services (Production Readiness	In Progress
	Checklist)	
Deliverable 20	Testing Team	In Progress

DEPARTMENT OF COMMERCE Page 4 of 18

F. Major Milestones

Major Milestone	Milestone Description
Initiation Phase Complete	All initiation activities completed
Planning Phase Complete	All planning activities completed
Execution Phase Complete	All execution activities completed
Monitor and Controlling Phase Complete	All monitoring and controlling activities completed
Closing Phase Complete	Project is completed

G. Key Stakeholders

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Division of Workforce Services
Domenic DiLullo	Chief Technology Officer
Paul Forrester	Chief Information Officer
Tisha Womack	Chief Financial Officer
Wendy Castle	RA Modernization Program Owner - Business
Nicole Sanislow	RA Modernization Program Manager - Business
Tom Richardson	RA Modernization Program Manager – Strategic Planning Office
Sushma	RA Modernization Program Manager – Information Technology
Kavarthapu	
Nicole Sanislow/	Bureau of RA Operations, Project Owner
Karmyn Hill	
Ernie Sanders	Peraton Account Manager

H. Significant Project Assumptions and Constraints

Project Assumptions

Vendor will create/recommend solutions that promote useability, product innovation, and scalability by using innovative concepts and that are suitable for a government environment with funding constraints.

Project Constraints

Design may be materially constrained by:

- 1. Governing provisions of federal or state laws and regulations.
- 2. Requirement to reduce operating costs.
- 3. A schedule constraint of June 2024

DEPARTMENT OF COMMERCE Page 5 of 18

II. Work Breakdown Structure

WBS	Task Name
1	Modernization Program
1.1	Program start
1.2	Contract Amendment #4 - Approval
1.3	Program Deliverables
1.3.1	Deliverable 7 - Design Documentation
1.3.2	Deliverable 8 - Infrastructure Performance Requirements
1.3.3	Deliverable 11 - Performance Benchmarks
1.3.4	Deliverable 13 - Oversight and Monitoring of Modernization Projects
1.3.5	Deliverable 14 - Integration Testing
1.3.6	Deliverable 15 - Production Readiness Checklist
1.3.7	Deliverable 20 - User Acceptance Testing
1.3.8	Deliverable 21 – Information Security and Regulatory Compliance
1.3.9	Deliverable 22 – Business Strategy Development
1.5	Program Delivery Complete
1.6	Project Close and Transition to Florida Commerce
1.6.1	Mutually Agreed on Transition Date
1.6.2	Execute Transition
1.7	Program Closed

Project Role	Resource Name	Responsibilities	
Executive Sponsor Program Owners	Lindsay Volpe Wendy Castle Paul Forrester Domenic DiLullo	 Provides resources and support for the program to enable its success Provide guidance on overall strategic direction Advise the Strategic Planning Office and project manager of risks that may impact the project Facilitate resolution of significant issues in the project 	
Program Managers	Sushma Kavarthapu Thomas Richardson Nicole Sanislow	 Provide guidance on overall strategic direction Advise the Strategic Planning Office and project manager of risks that may impact the project Facilitate resolution of significant issues in the project Review and sign off on key milestones 	
Project Manager	Monique Emmanuel	 Manage all aspects of the project and ensure compliance with PMP Monitor project progress and schedule adherence Complete all documents related to the project Identify and manage risks according to the PMP 	
Project Owner	Nicole Sanislow/ Karmyn Hill	 Review deliverables and project documents, identifying any deficiencies Review and approve deliverables Review and approve RFCs 	

DEPARTMENT OF COMMERCE Page 12 of 18

Florida Commerce Enterprise Architects	Vamsi Pasala Roland Solvik Mike George Cinil Maliak	 Contribute subject matter expertise Complete assigned project tasks in accordance with the Project Schedule Identify risks and issues to the Project Manager in accordance with the Risk and Issue Management section of this PMP Assist the Project Manager in responding to risks and issues Assist the Project Manager in evaluating change requests
SSI Delivery Team Lead	Joe Lombardi	 Responsible for managing System integration and modernization program operations. Develops the program strategy, supporting business case and various enterprise-wide high-level project plans. Ensures integration of projects and adjusts project scope, timing, and budgets as needed, based on the needs of the Department. Communicates with Peraton and Department leadership, business leadership and IT Business Consultants to communicate program strategy, direction, and changes. Responsible for delivering all projects contained in the System modernization portfolio of projects on time, within budget and meeting the strategic and business requirements of the Department. Responsible for tracking key program milestones and implementing adjustments to achieve Department objectives. Partners with Departmental senior leadership to identify and prioritize opportunities for using IT to achieve the goals of the enterprise. Develops and maintains the program management plans and schedule. Serves as the single point of accountability for contract delivery and execution and Peraton staff.
Solutions Architect	Rudolph Mallamas	- Responsible for providing senior level expertise on decision recommendations and priorities regarding the Department's overall modernization initiative's architecture.

DEPARTMENT OF COMMERCE Page 13 of 18

	Victor Nwadiogbu	 Facilitates the establishment and implementation of standards and guidelines that guide the design of technology solutions including architecting and implementing solutions requiring integration of multiple platforms, operating systems, and applications across the program. Reviews, advises, and designs standard software and hardware builds, system options, risks, costs vs. benefits and impact on the Department's business process and goals. Develops and documents the framework for integration and implementation for changes to technical standards. Assists in the development of and manages an architecture governance process. Provides technical guidance to project team areas as appropriate. Contributes to the development of requirements for the Department's statements of work, reviews and evaluates vendor technical proposals, participates in source selection. Tracks industry trends and maintains knowledge of new technologies to better serve the Department's architecture needs.
Data Architect	Chris Nowak	 Responsible for program-wide data design, balancing optimization of data access with batch loading and resource utilization factors. Designs and oversees the construction of data architectures, operational data stores, and data marts. Focuses on program-wide data modeling and database design. Provides significant input in the design of program data architecture standards, policies and procedures for the modernization program, structure, attributes, and nomenclature of data elements, and applies accepted data content standards to technology projects. Contributes to business analysis, data acquisition and access analysis and design, Database Management Systems optimization, recovery strategy, and load strategy design and implementation.
Business Analyst & Tester	Kelly Flaminio	 Performs as the subject matter expert in unemployment compensation/insurance for the team. Works closely with the Department, business analysts, and team members to understand business requirements that

DEPARTMENT OF COMMERCE Page 14 of 18

		drive the analysis and design of quality technical solutions. Involved in the full program life cycle and is responsible for designing, testing, implementing, maintaining, and supporting applications software that is delivered on time and within budget. Participates in component and data architecture design, performance monitoring, product evaluation and buy vs. build recommendations. Contributes to program procurement activities to include statement of work requirements, proposal evaluation, and source selection. Performs systems analysis and design. Applies understanding of development, quality assurance and integration methodologies in overseeing the technical implementation of program requirements.
Transition & Quality Manager	Mike Ortiz	 Leads the program transition activities for Peraton, planning and coordinating the transition on to and off of the Department. Responsible for establishing and implementing Peraton's quality assurance and compliance processes for the Department. Works closely with Department and vendor project IT leaders to develop and implement an overall quality maturity roadmap and plan for each project. Reviews progress toward the plan regularly with program IT and vendor leaders, technical teams to make modifications as necessary. Establishes program IT service quality control standards, policies, and procedures. Monitors, evaluates, manages, and executes audit processes to ensure compliance. Provides guidance and subject matter expertise to IT teams on QA methodologies and processes, educates them on their responsibilities/accountabilities for the purpose of achieving on-time and quality deliverables. Makes recommendations and directs improvements to the software development lifecycle process. Documents non-compliance to policies, process and standards and assists in their resolution.
Security Architect	Rudolph Helwick	- Manages the development and delivery of security standards, best practices, architecture, and systems to ensure information system security across the program.

DEPARTMENT OF COMMERCE Page 15 of 18

	0.11	 Implements processes and methods for auditing and addressing non-compliance to information security standards; facilitates migration of non-compliant environments to compliant environments. Ensures compliance with standards and currency with State and Federal security requirements. Manages and participates in the planning and implementation of security administration for all program projects. Contributes to the evaluation and selection of security applications and systems. Makes recommendations and assists in the implementation of changes to work methods and procedures to make them more effective or to strengthen security measures.
Program Integration Testers	Sudha Arulalan, Jonathan T. Franklin, Rafiqul Islam, Manjula Tulala, Soni Rohit	 Prepares and plans for program integration testing. Coordinates with project teams and communicates integration testing standards and requirements to them. Documents program level integration test plans and scripts. Conducts program level integration tests, identifies, and communicates test results to project teams, and conducts program level regression testing.
Project Support	Julia Aqua	 Assist SSI Delivery Team Lead with meeting agendas and minutes. Provide project schedule updates
RA Modernization Project Managers	Nicole Cain Nicholas Kaoudis James Sparks David Sinclair Linda Lawler Christian Stephens Patrick Day	 Contribute subject matter expertise Complete assigned project tasks in accordance with the Project Schedule Identify risks and issues to the Project Manager in accordance with the Risk and Issue Management section of this OWP Assist the Project Manager in responding to risks and issues Assist the Project Manager in evaluating change requests

B. Project Management Methodology

Florida Commerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure Florida Commerce's satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. Florida Commerce believes strong project management is critical throughout the life of any successful project.

For this project, Florida Commerce's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from Florida Commerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the Florida Commerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- Florida Commerce's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

Florida Commerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

This project intends to improve the delivery, execution, security, or convenience of Florida Commerce's lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

DEPARTMENT OF COMMERCE Page 17 of 18

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan
- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

VII. Project Risk Management Plan

	Probability				
	of	Risk			
	Occurrence	Tolerance			
	(high,	(high,			l
Risk	medium,	medium,	Mitigation	Assigned	l
Description/Impact	low)	low)	Strategy	Owner	ĺ

VIII. Capacity Plan

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

Project Capacity Planning

- Establish Cross-Functional Team: To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.
- Calculate Resource Capacity: Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- Determine Resource Requirements: For each project, look at the scope and what resources are required to do the task for the project.
- Project Prioritization: Via a weighted scoring model used for RA Mod, projects within the program have been prioritized for the purpose of optimizing resources and time.
- Allocate Resources Based on Project Priority: Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- Keep the Lines of Communications Open: Communicate between executives, project management leaders and stakeholders.
- Document Known Risks: Monitor risks such as union strikes, weather, government regulations that stop a project or create new ones unexpectedly.
- Plan for How to Handle Not enough Capacity: Understand that obtaining new needed resources takes time and advance planning is imperative.

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

The Incremental Customer Experience/User Experience (CX/UX) Mobile-Responsive Transformation project will provide a mobile-responsive user interface for employers and Reemployment Assistance claimants across all external-facing screens. The CX/UX project will help the Department achieve the following goals:

- 1. Improve access and equity in the delivery of Reemployment Assistance benefits.
- 2. Improve information flow with claimants, employers, and TPAs to make quicker decisions.
- 3. Leverage new technologies to improve claimants, employers, and TPAs' overall experience with the Reemployment Assistance program, including reducing the amount of time it takes to file a claim for benefits.
- 4. Enhance System usability including accessibility.
- 5. Reduce maintenance and support time and costs.

A. Scope Statement

In October 2023, FloridaCommerce terminated its contract with its Technology Tool Vendor and amended an existing agreement with one of its current vendors to modify and enhance an existing initial claims application (mobile-responsive user interface). The existing mobile-responsive user interface was originally created in 2020 to help support the influx of claims received as a result of the economic downturn. The scope of this project is to add missing claimant questions to the existing mobile-responsive user interface, and to address errors that exist when transmitting (ingestion) the data to Reconnect. Furthermore, the project will introduce dynamic fact-finding questionnaires.

In Scope:

- Addressing known data ingestion errors.
- Implementing dynamic fact-finding questionnaires associated with the initial claims application. These have been prioritized based on how often they populate in Reconnect today.
- Adding initial claims application questions from Reconnect to complete the application flow in the new mobile-responsive user interface. These questions in the previously plain language will be added in Reconnect.

Out of Scope:

- Application of full plain language to the existing initial claims application.
- Reconnect code changes.
- API development.

DEPARTMENT OF COMMERCE Page 3 of 13

B. Project Objectives and Business Benefits

Project Objective	Business Benefit

transformation activities for	4. Improved stability, reliability, and maintainability of
the CX/UX project.	the System.
	5. Improved Reemployment Assistance service to
	Floridians.
	6. Predictable maintenance cost for the application.

C. Critical Success Factors

- Resolve known data ingestion issues.
- Add missing claimant questions.
- Add fact-finding questionnaires.
- Availability of key business, technology, and vendor resources.
- Access to user-friendly mobile responsive claim intake application.

D. Key Dates

Key Dates (anticipated)	Importance and Relevance to the Project
01/2024	Implement the new mobile-responsive user interface

E. Major Deliverables

By 01/2024	Implement the new mobile-responsive user interface. Vendor will
design, develop, and implement the solution which meets the	
Department's requirements and constraints.	

F. Major Milestones

Major Milestone	Milestone Description
Procurement Phase Complete	Complete
Initiation Phase Complete	Complete
Planning Phase Complete	Complete
Execution Phase Complete	In progress
Monitor and Controlling Phase Complete	In progress
Closing Phase Complete	Not started

DEPARTMENT OF COMMERCE Page 4 of 13

G. Key Stakeholders

Key Stakeholder	Project Interest	
J. Alex Kelly	Secretary, FloridaCommerce	
Lindsay Volpe	Deputy Secretary, Division of Workforce Services/Work Group	
Domenic DiLullo	Chief Technology Officer/Work Group	
Paul Forrester	Chief Information Officer/Work Group	
Tisha Womack	Chief Financial Officer/Work Group	
Wendy Castle	Modernization Program Owner – Business	
Nicole Sanislow	Modernization Program Manager – Business	
Tom Richardson	Modernization Program Manager – Strategic Planning Office	
Nicole Sanislow Project Owner		
Nicholas Kaoudis	aoudis Project Manager (Core)	
Jim Sparks	Project Manager (Core)	
Todd Dzicek	Project Manager Specialist	
Daniel Swaisgood	Project Manager Specialist	
Thomas Hoverman	Organizational Change Management Lead	
Sushma Kavarthapu	Modernization Program Manager - IT	
Rose Hebert	Director of Communications and External Affairs, Florida	
Rose negeri	Department of Commerce	
Karmyn Hill Director of Strategic Initiatives, Division of Workforce Servi		
Samantha Caban	Manager, Self Service Team	
Jamie Dattoli	Chief of RA Appeals	
Johnathan Hill	Chief of RA Adjudication	

H. Significant Project Assumptions and Constraints

- Vendor and FloridaCommerce can address ingestion errors in transmission from the mobile-responsive user interface to FloridaCommerce.
- No real-time interface from the mobile-responsive user interface to Reconnect for a claimant application.
- Vendor will provide post go-live support of its front-end intake screens.
- Current language does not need to be reviewed and is acceptable as-is.

Project Constraints

- The CX/UX project end date of 01/09/2024 cannot be moved.
- Timeframe limits the implementation to the first 28 fact-finding applications prioritized by the Reemployment Assistance program.

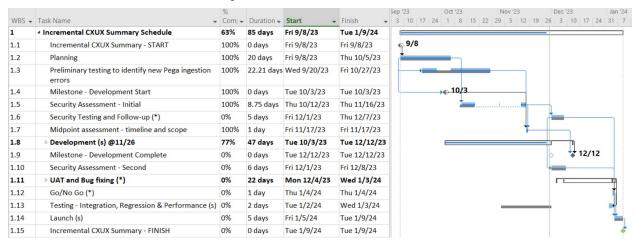

DEPARTMENT OF COMMERCE Page 5 of 13

II. Work Breakdown Structure (WBS)

WBS	Task Name	
1	Incremental CXUX Summary Schedule	
1.1	Incremental CXUX Summary - START	
1.2	Planning	
1.3	Preliminary testing to identify new Pega ingestion errors	
1.4	Milestone - Development Start	
1.5	Security Assessment - Initial	
1.6	Security Testing and Follow-up (*)	
1.7	Midpoint assessment - timeline and scope	
1.8	Development (s) @11/26	
1.9	Milestone - Development Complete	
1.10	Security Assessment - Second	
1.11	UAT and Bug fixing (*)	
1.12	Go/No Go (*)	
1.13	Testing - Integration, Regression & Performance (s)	
1.14	Launch (s)	
1.15	Incremental CXUX Summary - FINISH	

*Major activities set as placeholders (details undefined)

III. Resource Loaded Project Schedule

The WBS shown above indicates an initial phase targeted for completion in early January 2024. It is anticipated that once this initial phase is complete, the Workgroup and Program leadership will assess overall progress and make determinations as to the subsequent path forward.

DEPARTMENT OF COMMERCE Page 6 of 13

IV. Project Spending Plan

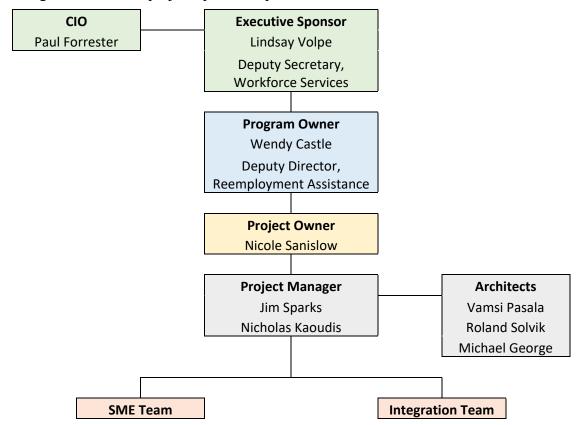

FY 2023-24 Expenditures	
Software: \$0.00	
Other OpEx (Vendor Deliverables): \$8,990,430.83	
Other CapEx: \$0.00	

Budget and corresponding cost plans will be revised once the difference between Technology Tool Vendors is known.

V. Project Organization and Methodology

A. Project Organizational Chart

The purpose of the Project Organizational Chart is to identify the project team, executive governance, and project sponsorship.

B. Project Roles and Responsibilities

The purpose of the Project Roles and Responsibilities is to identity the major roles and responsibilities, required skills and experience levels, and interactions with other project personnel, as well as address the expected role of the project's executive steering committee.

DEPARTMENT OF COMMERCE Page 7 of 13

Rose Hebert	Communications Expert	Provides expertise with public communications.
Vendor	Oversight	Provides expertise with the scope of the project as it applies to Florida law.

C. Project Management Methodology

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key

DEPARTMENT OF COMMERCE Page 10 of 13

elements that must be embraced by the overall project management approach to ensure satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce's lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Stakeholder identification and engagement plans
- Process identification and improvement plans
- Educational assessment and training plans
- Change risk assessment
- Change Advocate networks
- Change Management
- Business Relationship Management
- IT Service Management

VII. Project Risk Management Plan

Risk Description/Impact	Probability of Occurrence (high, medium, low) Medium	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner PM
Hurricane impacting the state delays the schedule	Medium	High	Adjust schedule accordingly	PIVI
Divisional and/or Bureau resistance of new process	Medium	Medium	Involve management and impacted staff throughout engagement to increase adoption rate and ensure a successful transition	PM
Insufficient knowledge transfer of new process	Medium	Medium	Involve impacted staff throughout engagement to increase participation and knowledge of new processes	PM
Identified technical solutions do not address requirements	Low	Medium	Procure necessary solution(s)	SME/ Implementation Teams, Owner
Procurement(s) are outside of available budget.	Low	Medium	Identify alternative solutions, seek additional funding	SME Team, Owner
Resource requirements for execution of roadmap are beyond original expectations.	Medium	Medium	Prioritize highest-risk access flows, adjust schedule, plan additional phases.	PM/SME

VIII. Capacity Plan

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

Project Capacity Planning

• Establish Cross-Functional Team: To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.

DEPARTMENT OF COMMERCE Page 12 of 13

- Calculate Resource Capacity: Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- Determine Resource Requirements: For each project, look at the scope and what resources are required to do the task for the project.
- Prioritize Projects: Which projects are most important, and which can be put aside for the time being? You can't do everything at once.
- Allocate Resources Based on Project Priority: Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- Keep the Lines of Communications Open: Communicate between executives, project management leaders and stakeholders.
- Document Known Risks: Monitor risks such as weather, government regulations that stop a project or create new ones unexpectedly.
- Plan for How to Handle Too Much Capacity: Understand where it is and how to resolve it (such as reassigning), or not enough capacity (again, where/how).

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

The Comms project will provide usability improvements to the Reemployment Assistance Claims and Benefits Information System (Reconnect). Due to the very public nature of the Reconnect system and the difficulties it experienced during the COVID-19 pandemic, Comms is a very high-visibility project that, when completed, will be of great benefit to Floridians and a significant "win" for FloridaCommerce. The Comms project will help FloridaCommerce achieve the following goals:

- 1. Streamlined claimant workflow.
- 2. Simplified UI text, guides, forms, and other information.
- 3. New branding materials, including PR materials and a new outreach campaign.

A. Scope Statement

In Scope

- All appropriated, budgeted, and approved tasks necessary to implement the Comms solution.
- Subsequent transition to Application maintenance & Support.
- Specifics:
 - o Plain Language simplification through the point of approval by FloridaCommerce Subject Matter Experts (SMEs).
 - Plain Language Batch 6.
 - Plain Language Batch 7.
 - The rationales spreadsheet, which was originally part of Batch 3, but was substantial enough that we could not finish it by 6/30/2023. After Change Request 18, it was moved to Continuous Mod and on 7/6/2023 and was completed through the point of SME approval.
 - Plain Language of the existing Reconnect software. This is tentatively being characterized as Plain Language Batches 8-11. It includes UI text that was not simplified through the Plain Language process in Batches 1-7. This is described in contract amendment #2 as Deliverable 8, Plain Language for Existing System. The bulk of the work is not new Plain Language transformation, but reformatting the existing Plain Language files into a new format that will be easier to implement.
 - Data mapping, which is described in contract amendment #2 as Deliverable 7. It is meant to create a data map between Reconnect and the CX/UX software. As of this OWP, details are meager because the CX/UX project moved to a new vendor and new CX/UX software. Deliverable 7 remains valid, and details on its execution are forthcoming.
 - o Integration of the entire scope of Plain Language files (batches 1-11) into the new CX/UX software. Within Continuous Mod:
 - Phase POST-1a = Batches 1-4.

DEPARTMENT OF COMMERCE Page 3 of 14

- Phase 1b = Batch 5.
- Phase 1c = Batch 6 and 7 and, presumably, Batches 8-11.
- Pega Systems is responsible for the Plain Language integration. Peraton is responsible for testing the result.
- NOTE: this integration will happen after the January 2024 release of the Pega software.
- o Review, Approval, and Translation of the integrated CX/UX software.
 - FloridaCommerce subject matter experts (SMEs), the Office of General Counsel (OGC), and the Office of Communications and External Affairs (OCEA) combine to approve the final Plain Language.
 - The approved English is translated from English to Spanish and Haitian Creole. Pega implements the Spanish and Haitian Creole versions, and a final review and approval step completes the project.
 - Integration of the entire scope of Plain Language files (batches 1-11) into the Reconnect software, with a similar process for review, approval, and translation.

NOTE: all of these in-scope tasks and deliverables are repeated with each of the deployment cycles in the CX/UX project and Reconnect deployment.

Out of Scope

- Any work that is not specifically listed as "in scope."
- Any work that is not appropriated, budgeted, and approved.
- Any work that is already addressed by the Incremental CX/UX Comms project, which ended with RA Modernization on 6/30/2023.

B. Project Objectives and Business Benefits

Project Objective	Business Benefit
An agile and incremental approach	1. Streamlined claimant workflow.
will ensure the current UI	2. Simplified UI text, guides, forms, and other
information is simplified through	information.
the plain language process and	3. Improved Reemployment Assistance service
integrated into the Reconnect	to Florida Citizens.
system and the CX/UX system.	

C. Critical Success Factors

- The information from the original Connect system will be simplified through a plainlanguage process that involves two vendors (Beacon and KPMG) and varied teams of SMEs from FloridaCommerce. This collaboration must be managed closely to achieve the highest-quality output and to meet scheduled deadlines.
- The output of the plain language process will be delivered to not just FloridaCommerce IT for integration into Reconnect, but to a third vendor: Pega Systems, which is providing the commercial off-the-shelf (COTS) software solution that, with

DEPARTMENT OF COMMERCE Page 4 of 14

customizations, will provide a new mobile-responsive user interface for the CX/UX project. Pega must integrate the simplified information into the CX/UX software. This integration must achieve the highest-quality results and meet scheduled deadlines. Because Pega's mobile-responsive user interface is part of the CX/UX project – not part of the Comms project – this is an interdependency that must be managed very closely.

D. Key Dates

Key Dates (anticipated)	Importance and Relevance to the Project
06/2024	Project end.

E. Major Deliverables

Deliverable	Start Date	End Date
Deliverable 1: Project Kick-Off Meeting	3/20/2023	3/20/2023
Deliverable 2: Project Management Plan & Transition Plan	3/1/2023	4/6/2023
Deliverable 3: Project Schedule	1/27/2023	4/6/2023
Deliverable 4: Content Design Sessions	1/27/2023	7/12/2023
Deliverable 5: System Brand Manual	2/14/2023	6/12/2023
Deliverable 6: Plain Language Development & Translation	2/20/2023	6/30/2024
Deliverable 7: Data Mapping	10/2/2023	6/29/2024
Deliverable 8: Plain Language for Existing System	10/2/2023	1/1/2024

F. Major Milestones

Major Milestone	Milestone Description
Procurement Phase Complete	Completed
Initiation Phase Complete	Completed
Planning Phase Complete	Completed
Execution Phase Complete	In progress
Monitor and Controlling Phase Complete	In progress
Closing Phase Complete	Not started

G. Key Stakeholders

Key Stakeholders	Project Interest	
J. Alex Kelly	Secretary, FloridaCommerce

Tom Richardson	Modernization Program Manager – Strategic Planning Office
Thomas Hoverman	Organizational Change Management Lead
Christian Stephens	Project Manager

H. Significant Project Assumptions and Constraints

Project Assumptions

- FloridaCommerce, Beacon, and KPMG will provide resources capable of completing the required simplification tasks at the highest quality. Those resources must be dedicated to the tasks at a level that enables them to complete those tasks at the scheduled deadlines.
- FloridaCommerce, Pega, and test vendor Peraton will provide resources capable of completing the required integration and testing tasks at the highest quality. Those resources must be dedicated to the tasks at a level that enables them to complete those tasks at the scheduled deadlines.

Project Constraints

• End date of 6/30/2024 cannot be moved.

DEPARTMENT OF COMMERCE Page 6 of 14

Vendor: KPMG	Oversight	Provides expertise with the scope of the project as it applies to Florida law.

C. Project Management Methodology

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements, and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure satisfaction and project success. Successful project management must include active and visible leadership, multiple controls, and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

DEPARTMENT OF COMMERCE Page 11 of 14

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce's lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Stakeholder identification and engagement plans
- Process identification and improvement plans
- Educational assessment and training plans
- Change risk assessment
- Change Advocate networks
- Change Management
- Business Relationship Management
- IT Service Management

VII. Project Risk Management Plan

Risk Description/ Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
Hurricane impacting the state delays the schedule	Medium	High	Adjust schedule accordingly	PM
Divisional and/or Bureau resistance of new process	Medium	Medium	Involve management and impacted staff throughout engagement to increase adoption rate and ensure a successful transition	PM
Insufficient knowledge transfer of new process	Medium	Medium	Involve impacted staff throughout engagement to increase participation	PM

DEPARTMENT OF COMMERCE Page 12 of 14

Risk Description/ Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
			and knowledge of new processes	
Identified technical solutions do not address requirements	Low	Medium	Procure necessary solution(s)	SME/ Implementat ion Teams, Owner
Procurement(s) are outside of available budget.	Low	Medium	Identify alternative solutions, seek additional funding	SME Team, Owner
Resource requirements for execution of roadmap are beyond original expectations.	Medium	Medium	Prioritize highest-risk access flows, adjust schedule, plan additional phases.	PM/SME
Procurement Delays for CX/UX	High	Medium	Communication with Senior Leadership and Procurement Team(s).	PM/ Project Owner/ Senior Leadership

VIII. Capacity Plan

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

Project Capacity Planning

- Establish Cross-Functional Team: To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.
- Calculate Resource Capacity: Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- Determine Resource Requirements: For each project, look at the scope and what resources are required to do the task for the project.
- Prioritize Projects: Which projects are most important, and which can be put aside for the time being? You can't do everything at once.
- Allocate Resources Based on Project Priority: Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- Keep the Lines of Communications Open: Communicate between executives, project management leaders and stakeholders.

DEPARTMENT OF COMMERCE Page 13 of 14

- Document Known Risks: Monitor risks such as weather, government regulations that stop a project or create new ones unexpectedly.
- Plan for How to Handle Too Much Capacity: Understand where it is and how to resolve it (such as reassigning), or not enough capacity (e.g., where/how).

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

The Reports Project objective is to eliminate the crystal reports server and move its reports to the data warehouse. This will remove the dependency of reports from the Reconnect database to a system built for efficient analysis and reporting. Moving the reports to the data warehouse leaves more processing power for claimants in the Reconnect system.

The project team will evaluate 311 Crystal Reports to determine:

- 1. Business Unit awareness of the existence of each report.
- 2. If the report will, or continues to provide, value to the business unit.
- 3. If the report can be retired.
- 4. Translating the report to use the analytical structure so it can be run from the data warehouse.

Although the schedule appears to end beyond the June 28, 2024, project end date, there are some reports that can and will be retired, which will help meet the project end date. The reports that appear after the June 28, 2024, date will move up in schedule as reports are retired.

In this Operational Workplan, the entire list of reports is provided. Future reports will only include those that will be completed by June 28, 2024. The project manager will move reports up in priority as others are retired via validation.

In the event there are reports to be completed beyond the June 28, 2024, date, a decision will be made in June 2024. This decision will be to complete the remainder of the reports via operational product delivery or create an additional project to complete the outstanding reports, if any.

A. Scope Statement

The Project Team will work with Workforce Services to evaluate 311 Crystal Reports to determine if they can be moved from the Crystal Reports Server to the Florida Commerce's Data Warehouse by June 28, 2023. If the report no longer provides value, the report and any related batches will be retired.

The benefit of moving reports from using the Reconnect database to using the data warehouse makes the reports available regardless of the status of Reconnect availability. Removing the dependency from the Reconnect system provides more stability and efficiency for claimants.

In Scope

- 311 Crystal Reports This includes the existing Crystal Reports on the Reports Server that have not been converted to the data warehouse.
- Minor adjustments and enhancements to existing crystal reports as part of the conversion to the data warehouse.
- Batches Any batches that are used to generate Crystal Reports will be retired.

Out of Scope

- 20 Reports already converted to the data warehouse via operational product delivery.
- Enhancements to reports already reviewed, approved, and pushed to production in the data warehouse.
- New "crystal" report requests.
- Building links to the data warehouse from Reconnect is out of scope for this project.
- 40+ Reports deemed unnecessary by business units.

FLORIDACOMMERCE Page 3 of 41

B. Project Objectives and Business Benefits

The older an application such as Crystal Reports, the more it costs to maintain its functionality—to the point where keeping it costs more than the value it provides.

Project Objective	Business Benefit
FloridaCommerce will have a modular foundation that enables continuous modernization	 Provides more efficient tool for reporting/data for staff use. Provides round-the-clock availability of reports and data. Removes the dependency on the Reconnect system and improves the modularization of the Reconnect foundation.
Eliminates the Crystal Reports Server	Allows Florida Commerce to retire the legacy Crystal Reports server and software at the end of its useful life.
Removes batches (if any) from nightly batch processing	• Removing batches leaves more time for higher priority batch jobs.

C. Critical Success Factors

- Validation of 311 Crystal Reports.
- Retirement of reports that no longer have value.
- Retirement of the Crystal Reports Server
- Operational Reports Page in the data warehouse listing all ex-crystal reports that provide value to Workforce Services.

D. Key Dates

This project takes over an operational effort that started in January 2023. Therefore, a transition was necessary to separate the operational process from higher level project requirements.

The contents of each release represented below will vary greatly until measures for team velocity can be established. Also, the team continues to provide support for high priority production issues such as ETA reports and USDOL Population sample corrections.

E. Major Deliverables

While the 60GG documents are important, the value is in the products delivered to the customer.

Major Deliverable	Deliverable Description	
Project Management	A Project management plan is a formal, approved document that	
Plan	defines how the project is executed, monitored, and controlled	
Project Products	Products are the value delivered to the customer during the project.	
(Reports)	They are the reason the project exists.	
Project Closeout	A project closure report is a document that summarizes the results of	
Report	a project. It includes the team's accomplishments, lessons learned,	
	and recommendations for improving upon future projects.	

F. Major Milestones

The Key Dates section lists the major milestones for project delivery.

Major Milestone	Milestone Description
Operation to Project Transition –	Closed all operational tasks and created project
September 22, 2023	schedule for Reports Project.
Build 322 - October 16, 2023	Delivery of 5 Reports
Build 323 - November 19, 2023	Delivery of 10 Reports
Build 324 - December 17, 2023	Delivery of 4 Reports
Build 325 - January 21, 2024	Delivery of 4 Reports
Build 326 - February 18, 2024	Delivery of 6 Reports
Build 327 - March 17, 2024	Delivery of 6 Reports
Build 328 - April 14, 2024	Delivery of 6 Reports
Build 329 - May 12, 2024	Delivery of 6 Reports
Build 330 – June 9, 2024	Delivery of 6 Reports
June 28, 2024	Project Closure, Transition to Operations

G. Key Stakeholders

Business units in Workforce Services are stakeholders for this project.

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services

FLORIDA COMMERCE Page 10 of 41

Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work
	Group
Tisha Womack	Chief Financial Officer
Wendy Castle	Modernization Program Owner – Business
Jamie Dattoli	Reemployment Assistance Stakeholder
Nicole Sanislow	Modernization Program Manager – Business
Tom Richardson	Modernization Lead Program Manager – Strategic
	Planning Office
Thomas Holliday	Modernization Program Manager – Strategic
	Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information
	Technology
Nicholas Kent, Matthew Mask	Project Owner
Linda Lawler	Project Manager

H. Significant Project Assumptions and Constraints

There are no significant assumptions or constraints, only small items.

Project Assumptions

- 1. Some functional design documents do not exist for some of the 331 reports and will have to be written.
- 2. Some reports may not be known to business units.
- 3. Some reports will no longer be needed.
- 4. Reports will exist in the data warehouse and all who need access will be given access rights.

Project Constraints

- 1. The project must end by June 28, 2024, regardless of remaining reports.
- 2. Project Team availability is shared with other priorities, (production support for ETA reports, existing crystal reports, population validation, etc.)

II. Work Breakdown Structure

The work breakdown structure for the Reports project is shown below.

WBS	Task Name
0	Reports
1	Project Management
1.1	Discovery/Initiation
1.1.1	4.1 Project Charter Creation
1.1.2	13.1 Identification of Stakeholders
1.2	Planning
1.2.1	4.2 Develop Project Management Plan
1.2.2	5.1 Plan Scope Management
1.2.3	5.2 Collect Project Requirements

FLORIDACOMMERCE Page 11 of 41

WBS	Task Name
1.2.4	5.3 Define Scope
1.2.5	5.4 Create WBS
1.2.6	6.1 Plan Schedule Management
1.2.7	6.2 Define Activities
1.2.8	6.3 Sequence Activities
1.2.9	6.4 Estimate Activity Durations
1.2.10	6.5 Develop Schedule
1.2.11	8.1 Plan Quality Management
1.2.12	9.1 Plan Resource Management
1.2.13	9.2 Estimate Activity Resources
1.2.14	10.1 Plan Communications Management
1.2.15	13.2 Plan Stakeholder Engagement
1.3	Executing
1.3.1	4.3 Track Project Work
1.3.2	10.2 Manage Communications
1.3.3	13.3 Manage Stakeholder Engagement
1.4	Monitor & Control
1.4.1	4.5 Monitor & Control Project Work
1.4.2	5.5 Validate Scope
1.4.3	5.6 Control Scope
1.4.4	6.6 Control Schedule
1.4.5	10.3 Monitor Communications
1.4.6	11.7 Monitor Risks
1.4.7	13.4 Manage Stakeholder Engagement
1.5	Closing
1.5.1	4.7 Close Project or Phase
2	Benefits Identification and Measures
2.1	Evaluate Sources of Crystal Reports and Related Batches
2.2	Collect Infrastructure Related Crystal Report budget costs
2.3	Identify Measures for Maximizing Work Not Done
2.3.1	Calculate Average Pipeline Length - Start of Requirements to Push to Prod
2.3.2	Calculate Maximized Work Not Done (Formula to use)
2.4	Collect Snowflake Costs for Crystal Reports (if possible)
2.5	Create/Maintain Crystal to Snowflake Comparison Report
3	Reports Process Operational Support
3.1	Integrate RAD Reporting Requests into Service Now
3.2	Create/Discover Process for Reports Access
4	Product Delivery
4.1	Operational Project Transition Completed

IV. Project Spending Plan

The Reports Project uses existing operational resources, therefore there is no project spend.

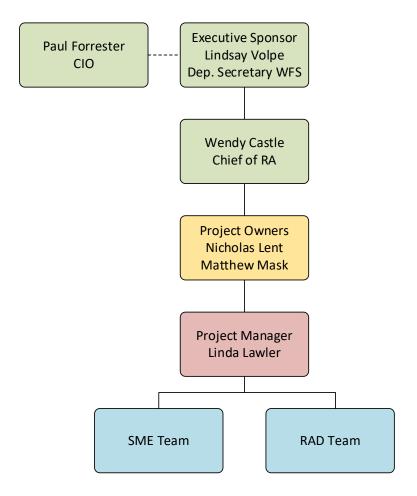

FY 2021-22 Expenditures	FY 2022-23 Expenditures
Software: 0.00	Software: 0.00
Other OpEx (Vendor Deliverables): 0.00	Other OpEx (Vendor Deliverables): 0.00
Other CapEx: \$0.00	Other CapEx: 0.00

V. Project Organization and Methodology

A. Project Organizational Chart

FLORIDACOMMERCE Page 38 of 41

The organizational chart for the reporting project is shown below.

(Note: RAD is not an acronym, it's a name chosen by the team which is normal Agile practice.)

B. Project Roles and Responsibilities

The table below shows those assigned to roles on this project.

Name	Project Role	Responsibility
Lindsay Volpe	Executive	Provide guidance on overall strategic direction
	Sponsor	Advising the Strategic Planning Office and project
		manager of risks that may impact the project
		• Facilitate resolution of significant issues in the project
		Reviewing and signing off on key milestones
Wendy Castle	Chief of RA	Provide guidance on overall strategic direction
	Program Owner	Advising the Strategic Planning Office and project
		manager of risks that may impact the project
		• Facilitate resolution of significant issues in the project
		Reviewing and signing off on key milestones
Paul Forrester	CIO	Responsible for the Strategy of the Department IT

FLORIDACOMMERCE Page 39 of 41

Name	Project Role	Responsibility
	Program Owner Work Group	 Responsible for Staffing and Support plans Responsible for day-to-day operations Responsible for working closely with programs on technology needs
Nicolas Lent, Matthew Mask	Project Owners	 Contributes subject matter expertise Assists the Project Managers in responding to risks and issues Assists the Project Manager in evaluating change requests Reviews deliverables and project documents, identifying any deficiencies Reviews and approves deliverables Reviews and approves RFCs
Linda Lawler	Project Manager	 Manages all aspects of the project and ensure compliance with project plan Monitors project progress and schedule adherence Completes all documents related to the project Identifies and manages risks according to the project plan
SME Team	Subject Matter Expert(s)	 Evaluates the business need for reports Contributes subject matter expertise Prioritizes reports
RAD Team	Data Engineers	 Breaks requirements documents into product backlog items Redesigns reports for the data warehouse Converts crystal reports to data warehouse reports

C. Project Management Methodology

The Department will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure the Department's satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. The Department believes strong project management is critical throughout the life of any successful project.

For this project, the Department's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from the Department within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the Department Project Manager.

FLORIDACOMMERCE Page 40 of 41

- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- The Department's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

The Department believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

There have not been any identified needs on the Reports project since there are no changes to business processes.

VII. Project Risk Management Plan

Risks are evaluated and handled in weekly RAID meeting for socialization and, if necessary, resolution.

<u>NOTE</u>: This section will align with the Program Management Plan's RMP and should be updated every month as risks change and are updated. Risks are maintained on a regular basis within Service Now. Weekly RAID review meetings are held with senior leadership present.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
1.				
2.				
3.				
4.				
5.				

VIII. Capacity Plan

The Reports project uses existing resources so there is no need for capacity planning.

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

The objective of Product & Data Management is to discover and document with Workforce Services all databases, repositories, solutions – all places that include RA data – and add these to a user- friendly data dictionary and data catalog.

The data dictionary and data catalog are to contain detailed, specific information on how the data is being used, data imported or exported to other agencies, dependences on all information regardless of location, including but not limited to applications, spreadsheets, access databases, systems, and other locations, and file shares that may not be widely known. Data that is duplicated will be identified and traced to its use, locations used, and any other relevant information.

This objective prevents dependent systems and organizations from being negatively impacted by ensuring their needs are known prior to archiving and purging data.

A. Scope Statement

While identification of targets for scope are still in progress, the following will be included:

In Scope

- Workforce Services Data Dictionary A user-friendly document that contains Reconnect tables and fields, where they are used, any dependencies to other items, for example, One Stop, SharePoint applications, custom Access databases, and spreadsheets. The discovery process may uncover more items where data is being used that are not listed here.
- Workforce Services Data Catalog A list of data assets in Workforce Services organized for use by data analysts or business users.
- Parking Lot List of data that is "Redundant, Obsolete, Trivial" (aka ROT) per business units' recommendation.

Out of Scope

- Externally hosted vendor applications that contain Workforce Services data (for example, ImageAPI)
- Data Cleanup
- Archiving & Purging of Data
- Data Governance (Open Issue)

B. Project Objectives and Business Benefits

This initiative identifies information necessary in support of products and services provided to the Department's customers so that the lifecycle of data can be managed.

Project Objective		Business Benefit
Documenting Workforce Services		Documentation to support justification for use
information from the System to data		of data and storage per Workforce Services
storage		responsibilities.
Creation of or improvement to business	•	Ensures that data stored has a defined purpose
units' evaluation of the use of data and		and value.
its justification for storage	•	Identification of data that no longer has value.

FLORIDACOMMERCE Page 3 of 15

Project Objective	Business Benefit
	Documented relationships of data items in a
	user-friendly manner.
	• Identification of data shared across multiple
	business units.

C. Critical Success Factors

- Delivery of the User-Friendly Data Dictionary
- Delivery of the Data Catalog
- Delivery of the Parking Lot List
- Transition Data Dictionary and Data Catalog to RA Operations

D. Key Dates

Key Date	Importance and Relevance to the Project
10/30/2023 - 12/15/2023	Creation of Data Dictionary Template
12/04/2023 - 01/26/2023	Product Management Workgroup - Discovery Planning
01/29/2023 - 06/11/2024	Schedule & Execute Discovery Workshops
06/12/2024 - 06/28/2024	Transition to Operations

E. Major Deliverables

Major project deliverables are listed below.

Major Deliverable	Deliverable Description
Project Management Plan	Collection of documents related to scope, schedule,
	and cost.
Project Workgroup Meetings	Project workgroup meetings are designed to hash out
	technical requirements/solutions to meet business
	needs. There will also be business workgroup
	meetings for requirements gathering and refinement.
	These meetings exclude executive management so the
	project team can freely discuss issues and risks.
Project Status Meetings	Usually less than 15-minutes, these meetings are for
	executive management to update them on project
	progress and to answer any questions.
SharePoint site for Project	Requests for access should be submitted to the Project
Information	Manager
Products	Data Dictionary
	Data Catalog
	Parking Lot List
Project Closeout Report	Documentation of completion of project deliverables
-	and accomplishments.

FLORIDACOMMERCE Page 4 of 15

F. Major Milestones

The major milestones are listed below.

Major Deliverable	Deliverable Description
Project Management Plan	Collection of documents related to scope, schedule, and cost.
Project Workgroup Meetings	Project workgroup meetings are designed to hash out technical requirements/solutions to meet business needs. There will also be business workgroup meetings for requirements gathering and refinement. These meetings exclude executive management so the project team can freely discuss issues and risks.
Project Status Meetings	Usually less than 15-minutes, these meetings are for executive management to update them on project progress and to answer any questions.
SharePoint site for Project	Requests for access should be submitted to the Project
Information	Manager
Products	Data DictionaryData CatalogParking Lot List
Project Closeout Report	Documentation of completion of project deliverables and accomplishments.

G. Key Stakeholders

The product deliverables in this initiative are critical to the people listed below.

Key Stakeholder	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Lindsay Volpe	Deputy Secretary, Workforce Services
Domenic DiLullo	Chief Technology Officer / Work Group
Paul Forrester	Chief Information Officer / Program Owner / Work Group
Tisha Womack	Chief Financial Officer
Vamsi Pasala	Enterprise Architect
Wendy Castle	Modernization Program Owner – Business
Jamie Dattoli	Project Owner - Business
Matthew Mask	Project Owner - WSER
Nicole Sanislow	Modernization Program Manager – Business
Tom Richardson	Modernization Lead Program Manager – Strategic Planning Office
Thomas Holliday	Modernization Program Manager – Strategic Planning Office
Sushma Kavarthapu	Modernization Program Manager – Information Technology
Linda Lawler	Project Manager

FLORIDACOMMERCE Page 5 of 15

H. Significant Project Assumptions and Constraints

This initiative requires a high level of business knowledge:

- Knowledge and experience in Workforce Services business practices
- Knowledge and experience of USDOL business rules and requirements for maintaining the Reemployment Assistance Federal Program
- Knowledge of the data used to measure Florida's data quality and timeliness.
- Knowledge of best practices in data management and governance

Therefore, the lists below are not to be considered comprehensive.

Project Assumptions

- 1. All relevant stakeholders will attend required status and workgroup meetings. However, there may be instances where some stakeholders are unavailable to attend.
- 2. The project sponsor will be responsive and prepared to make decisions regarding the project cost and scope.
- 3. Discoveries related to data sources, integrity and other concerns will be communicated to the program workgroup for discussion and next steps as soon as possible after discovery.

Project Constraints

- 1. Limited human resources available with institutional knowledge of the Reemployment Assistance program
- 2. Limited time available (i.e., 06/30/24 completion date is set)

II. Work Breakdown Structure

The project schedule is in the early stages of development. This work breakdown structure is subject to change until a final schedule can be reviewed and approved.

WBS	Task Name
0	Product and Data Management
1	Project Management
1.1	Discovery/Initiation
1.1.1	4.1 Project Charter Creation
1.1.2	13.1 Identification of Stakeholders
1.2	Planning
1.2.1	4.2 Develop Project Management Plan
1.2.2	5.1 Plan Scope Management
1.2.3	5.2 Collect Project Requirements
1.2.4	5.3 Define Scope
1.2.5	5.4 Create WBS
1.2.6	6.1 Plan Schedule Management
1.2.7	6.2 Define Activities
1.2.8	6.3 Sequence Activities

FLORIDACOMMERCE Page 6 of 15

WBS	Task Name
1.2.9	6.4 Estimate Activity Durations
1.2.10	6.5 Develop Schedule
1.2.11	7.1 Plan Cost Management
1.2.12	7.2 Estimate Costs
1.2.13	7.3 Determine Budget
1.2.14	8.1 Plan Quality Management
1.2.15	9.1 Plan Resource Management
1.2.16	9.2 Estimate Activity Resources
1.2.17	10.1 Plan Communications Management
1.2.18	11.1 Plan Risk Management
1.2.19	11.2 Identify Risks
1.2.20	11.3 Perform Qualitative Risk Analysis
1.2.21	11.4 Perform Quantitative Risk Analysis
1.2.22	11.5 Perform Risk Responses
1.2.23	12.1 Plan Procurement Management
1.2.24	13.2 Plan Stakeholder Engagement
1.3	Executing
1.3.1	4.3 Direct and Manage Project Work
1.3.2	4.4 Manage Project Knowledge

1.4.4	5.6 Control Scope
1.4.5	6.6 Control Schedule
1.4.6	7.4 Control Costs
1.4.7	8.3 Control Quality
1.4.8	9.6 Control Resources
1.4.9	10.3 Monitor Communications
1.4.10	11.7 Monitor Risks

FLORIDACOMMERCE Page 7 of 15

WBS	Task Name
1.4.11	12.3 Control Procurements
1.4.12	13.4 Manage Stakeholder Engagement
1.5	Closing
1.5.1	4.7 Control Project or Phase
2	Discovery
2.1	Create Data Dictionary Document Template
2.1.1	Review Data Dictionary Sample from WSER
2.1.2	Discuss Workforce Services Data/Naming Standards
2.1.3	Create FL Commerce Data Dictionary Template
2.1.4	Review FL Commerce Data Dictionary Template
2.1.5	Approve FL Commerce Data Dictionary Template
2.2	Product Management Workgroup - Discovery Planning
2.2.1	Create Discovery Strategy
2.2.2	Review Discovery Strategy
2.2.3	Approve Discovery Strategy
2.3	Schedule Discovery Workshops
2.3.1	Identify Business Sections per Business Unit
2.3.2	Create Workforce Services Product Catalog Template
2.3.3	Create Discovery Workshop Presentation
2.3.4	Create Workforce Services Product/Data Catalog by Business Unit
2.3.5	Post Workshop Cleanup
3	Transition to Operations
3.1	Identify Maintenance Team
3.2	Confirm BU Maintenance Strategy
3.3	Confirm Benefits Measures Completed
3.4	Approve Final Transition to Maintenance Team

III. Resource Loaded Project Schedule

Resource assignments are in progress. When completed they will be included in this document.

WBS	Task Name	Duration	Start	Finish
0	Product and Data Management	260 days	Mon 7/3/23	Fri 6/28/24
1	Project Management	260 days	Mon 7/3/23	Fri 6/28/24

IV. Project Spending Plan

The project budget has not been identified at this time.

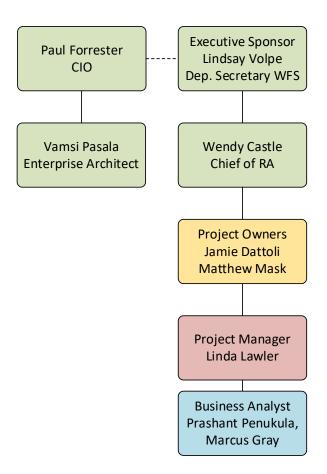

FY 2021-22 Expenditures	FY 2022-23 Expenditures
Software: \$0.00	Software: \$0.00
Other OpEx (Vendor Deliverables): \$0.00	Other OpEx (Vendor Deliverables): \$0.00
Other CapEx: \$0.00	Other CapEx: 0.00

V. Project Organization and Methodology

A. Project Organizational Chart

This chart will be flushed out further pending resource additions in the development and database areas.

FLORIDACOMMERCE Page 11 of 15

B. Project Roles and Responsibilities

The resources listed below are necessary for success of this initiative.

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	Provide guidance on overall strategic direction
		Advising the Strategic Planning Office and
		project manager of risks that may impact the
		project
		Facilitate resolution of significant issues in the
		project
		Reviewing and signing off on key milestones
Paul Forrester	CIO	Responsible for the Strategy of the Department
	Program Owner	IT
	Work Group	Responsible for Staffing and Support plans
		Responsible for day-to-day operations
		Responsible for working closely with programs
		on technology needs
Wendy Castle	Chief of RA	Provide guidance on overall strategic direction
	Program Owner

C. Project Management Methodology

The Department will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure the Department's satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. The Department believes strong project management is critical throughout the life of any successful project.

For the Product and Data Management project, the Department's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from the Department within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the Department Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- The Department's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

The Department believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

Identification of the need for Business Organizational Change Management is in progress. Additional information will be provided soon.

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

As a part of the FloridaCommerce Reemployment Assistance (RA) Modernization Program, the Claims Adjudication process for Reemployment Assistance will be modernized through implementation of an automated Workflow Management solution.

A. Scope Statement

The project will define the streamlined business process for adjudication, identify specific opportunities for automation, gather requirements, design the technical solution, and required interfaces, determine the best technical path forward (e.g., leveraging existing tool and/or custom software development), and implement the solution. The decision is to leverage the existing tool (Pega) to automate and create the Adjudication workflow management solution.

In Scope

- Determine problem statement and requirements.
- Streamline existing business processes & identify opportunities for automation.
- Design a technical solution, interfaces, and integration with Reconnect..
- Develop and test solution using agile software development methodology..
- Conduct integration and UAT testing.
- Conduct training, release planning, and operational turnover.
- Implement solution.

Out of a Scope

• Continuing to use Reconnect to perform adjudication workflow management functionality that is being replaced by the solution.

B. Project Objectives and Business Benefits

Currently in the initiation phase and moving to the planning stage next month.

Project Objective	Business Benefit
Integrate the new solution with Reconnect as the system of record transferring data back and forth between Reconnect and the new solution (e.g., Application Programming Interfaces, import/export, batch file transfer, etc.) Gather the requirements that define what the new solution should accomplish. Identify the impacts to Reconnect system of record when adjudication process is moved out of that system and identify how to fill any gaps.	 Adjudication decisions will be determined more quickly. Greater productivity due to improved workflow. Improved quality measures. Reduction of calls into the contact center due to faster adjudication decisions determined. Ability to prioritize and rapidly change directions (e.g., economic downturns, pandemics, natural disasters, etc.).

FLORIDACOMMERCE Page 3 of 14

Project Objective	Business Benefit
Create Interface Control Documents for each interface and create Service Level Agreements Determine infrastructure requirements and design where and how the solution will be implemented (e.g., cloud, servers, storage capacity, processing speed, internal memory, network, etc.) Automate the current manual workaround for assignment of work and quickly allow for redistribution of work.	 Ability to harness opportunities for automation will decrease adjudication workloads, improve decision making, and create an increase in the number of claims that may be processed daily. Reduction in appeals workload because adjudication process becomes accurate and timely. Assist adjudication leadership with monitoring and reporting on adjudication performance. Allow staff to focus on issuing timely determinations. Consistency in making determination decisions based on all users reviewing the same intelligent content for guidance during determinations. Metrics and dashboard for FC Leadership to measure adjudication process. Improve information flow with claimants, employers, and Third-Party Administrators (TPA) to provide quicker resolutions. Increased speed to first pay for claimants. Ability to prioritize and rapidly change directions (a.g. economic downturns)
for redistribution of work.	 Ability to prioritize and rapidly change directions (e.g., economic downturns, pandemics, natural disasters, etc.). Greater productivity for adjudicators and adjudication leadership. Improved quality measures. Allow staff to focus on issuing timely
	determinations vs manually assigning work.
Review the current adjudication work flows to identify more efficient and streamlined ways to accomplish the work. Design wireframes that mimic the	 Increased speed to first pay for claimants. Greater productivity for adjudicators and adjudication leadership. Improved quality measures. Less calls to the contact center because of
workflows.	increased accuracy during adjudication.
Locate the issues that are suitable for automation and define the steps and/or business rules required to automate those issues.	 Ability to harness opportunities for automation will decrease adjudication workloads, improve decision making, and create an increase in the number of claims that may be processed daily. Allow staff to focus on issuing timely determinations.

Sushma Kavarthapu	RA Modernization Program Manager – Information Technology	
Johnathan Hill	Project Owner	
Clara Kendrick	Project Manager	

H. Significant Project Assumptions and Constraints

Project Assumptions

- 1. Completed: FloridaCommerce will make a buy vs build decision in a timely manner.
- 2. Completed: FloridaCommerce will conduct the procurement process efficiently and there will be no delays to obtaining a COTs product.
- 3. Completed: There will be qualified vendors responding to the procurement with a satisfactory COTS product that meets the 'must have' requirements if the decision is to buy a product.
- 4. There will be sufficient FloridaCommerce architects and IT staff to create the interface with Reconnect (system of record) and integrate with the new Adjudication Workflow System.

Project Constraints

- 1. The project budget and the timeline to implement the Adjudication Workflow Management system are major constraints to the project.
- 2. Available FloridaCommerce resources during specific phases of the project may constrain the project.
- 3. The ability and how to technically integrate with Reconnect (the system of record) constrains the project.

C. Project Management Methodology

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce's satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones

FLORIDA COMMERCE Page 12 of 14

- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce's lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Program-wide Organizational Change Management Plan
- Organizational Change Readiness Assessment
- Change Impact Analysis
- Communications Plan
- Change Champion Network
- Training Plan
- Change Management Metrics
- Post-implementation Support Plan

VII. Project Risk Management Plan

This project will follow the <u>Risk Management Plan</u>, captured within the Reemployment Assistance Program Management Plan. The Reemployment Assistance Modernization Program team follows a standard method for logging and categorizing issues, researching solutions, and communicating options and final recommendations. Project team members should actively contribute, as it is critical to timely decisions and moving past roadblocks. The buy-in of the project team, key team members and technical staff is critical to the success and ensures that he project team delivers a product in line with the project goals.

Key activities of the risk management process include:

- **Risk Identification** Identifying risks that could potentially impact the project.
- **Risk Analysis** Prioritize risks and assess the probability and consequence of the risk.
- **Risk Response Planning** Prepare action plans to enhance opportunities or minimize threats to the program.
- **Risk Monitoring** Execute action plans and evaluate their effectiveness, tracking, and reviewing residual risks and identifying new risks.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner

FLORIDACOMMERCE Page 13 of 14

VIII. Capacity Plan

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

Project Capacity Planning

- Establish Cross-Functional Team: To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels and different functions.
- Calculate Resource Capacity: Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- Determine Resource Requirements: For each project, look at the scope and what resources are required to do the task for the project.
- Project Prioritization: Via a weighted scoring model used for RA Mod, projects within the program have been prioritized for the purpose of optimizing resources and time.
- Allocate Resources Based on Project Priority: Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- Keep the Lines of Communications Open: Communicate between executives, project management leaders and stakeholders.
- Document Known Risks: Monitor risks such as union strikes, weather, government regulations that stop a project or create new ones unexpectedly.
- Plan for How to Handle Not enough Capacity: Understand that obtaining new needed resources takes time and advance planning is imperative.

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

The Appeals Workflow Management System project is part of the Florida Department of Commerce's Continuous Modernization Program, hereafter referred to as "Continuous Mod."

In support of Continuous Mod, FloridaCommerce maintains the Reemployment Assistance Claims and Benefits Information System, commonly referred to as "Reconnect," hereafter referred to as "the System."

The System serves as the central repository to file, track, view, and process Reemployment Assistance claims. The System functions as the core benefits administration platform for FloridaCommerce staff, claimants, and employers and Third-Party Administrators (TPAs). The System provides online access to apply for benefits, view, and track claims, set up payment information, respond to fact-finding requests, and protest and appeal eligibility determinations. For employers, the System allows access to respond to and protest inquiries regarding claimants receiving Reemployment Assistance benefits. Additionally, the System allows employers to grant TPAs access to perform specific administrative functions.

The current Appeals Workflow Management System is a collection of functions and features inside the System. Being built over a decade ago, the System and the functions and features that comprise the Appeals Workflow Management System are in need of modernization.

A. Scope Statement

In Scope

- All appropriated, budgeted, and approved tasks necessary to implement the Appeals Workflow Management System.
- Subsequent transition to application maintenance and support.
- New features, improvements to existing features, and fixes to non-working functionality comprise the project scope. Most of those items are already captured as Help Desk tickets in ServiceNow. A few others have already been established via information gather with appeals Subject Matter Experts (SMEs). The list of inscope items is captured in the project charter and is not repeated here.

Out of Scope

- Any work that is not specifically listed as "in scope."
- Any work that is not appropriated, budgeted, and approved.

B. Project Objectives and Business Benefits

Project Objective	Business Benefit	
Improvements to the	1. Streamlined appeals workflow for both claimants and	
existing Appeals Workflow	FloridaCommerce Appeals SMEs.	
Management System	2. Increases in SME efficiency and the improved	
	Appeals processing times that would result.	
	3. Better customer service and the increased goodwill	

DEPARTMENT OF COMMERCE Page 3 of 12

that would result.

C. Critical Success Factors

The work to improve the existing Appeals Workflow Management System will most likely be performed by in-house software developers and testers, all of whom have expertise in working with the System. The Appeals SMEs – those who use the System every day in executing the job of the Appeals team – will guide development of the improvements and will review and approve the result. In both cases (developers/testers and SMEs), resource allocation will be critical to the success of the project. Our resources are shared across multiple projects, so maintaining an accurate project schedule, accurately forecasting resource requirements, and accurately forecasting dates and durations will be critical to correctly allocating resources.

D. Key Dates

Key Dates	Importance and Relevance to the Project
(anticipated)	
12/5/2023	Initiation Phase Ends
12/18/2023	Planning Phase Ends
12/18/2023	Execution Phase Starts
6/28/2024	Project Ends

E. Major Deliverables

8/25/2023	Deliverable 1: Project Kick-Off Meeting
12/5/2023	Deliverable 2: Project Management Plan & Transition Plan
9/29/2023	Deliverable 3: Project Schedule
6/30/2024	Deliverable 4: Go Live

F. Major Milestones

Major Milestone	Milestone Description
Procurement Phase Complete	Completed
Initiation Phase Complete	In progress
Planning Phase Complete	In progress
Execution Phase Complete	Not started
Monitor and Controlling Phase Complete	In progress
Closing Phase Complete	Not started

G. Key Stakeholders

Key Stakeholders	Project Interest
J. Alex Kelly	Secretary, FloridaCommerce
Domenic DiLullo	Chief Technology Officer / Work Group

DEPARTMENT OF COMMERCE Page 4 of 12

Paul Forrester	Chief Information Officer / Work Group
Tisha Womack	Chief Financial Officer / Work Group
Lindsay Volpe	Deputy Secretary, Division of Workforce Services / Work Group
Wendy Castle	Modernization Program Owner – Business
Nicole Sanislow	Modernization Program Manager – Business
Jamie Dattoli	Project Owner
Tom Richardson	Modernization Program Manager – Strategic Planning Office
Thomas Hoverman	Organizational Change Management Lead
Christian Stephens	Project Manager

H. Significant Project Assumptions and Constraints

Project Assumptions

• FloridaCommerce will provide resources capable of completing the required analysis, development, testing, and review tasks at the highest quality. Those resources must be dedicated to the tasks at a level that enables them to complete those tasks at the schedule deadlines.

Project Constraints

- Human resources are finite, and due to the complexity of the System, could not be replaced with equivalent expertise in the time required.
- End date of 6/30/2024 cannot be moved.

DEPARTMENT OF COMMERCE Page 5 of 12

C. Project Management Methodology

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability,

DEPARTMENT OF COMMERCE Page 9 of 12

resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

This project intends to improve the delivery, execution, security, or convenience of FloridaCommerce's lines of business through the implementation of modern processes and tools based on industry best practices and frameworks.

The project team aims to maximize communication, engagement, adoption, and performance of these new processes, roles, and responsibilities through a combination of tools, templates, and techniques such as:

- Stakeholder identification and engagement plans
- Process identification and improvement plans
- Educational assessment and training plans
- Change risk assessment
- Change Advocate networks
- Change Management
- Business Relationship Management
- IT Service Management

VII. Project Risk Management Plan

See the Risk and Complexity Assessment that accompanies the Initiation phase documents for this project.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium,	Mitigation	Assigned Owner
Hurricane impacting the state delays the schedule	Low	low) High	Adjust schedule accordingly	PM
Divisional and/or Bureau resistance of new process	Medium	Medium	Involve management and impacted staff throughout engagement to	PM

DEPARTMENT OF COMMERCE Page 10 of 12

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
			increase adoption rate and ensure a successful transition	
Insufficient knowledge transfer of new process	Medium	Medium	Involve impacted staff throughout engagement to increase participation and knowledge of new processes	PM
Identified technical solutions do not address requirements	Low	Medium	Procure necessary solution(s)	SME/ Impleme ntation Teams, Owner
Procurement(s) are outside of available budget.	Low	Medium	Identify alternative solutions, seek additional funding. As of this writing, procurement is not expected. This risk would therefore be not applicable.	SME Team, Owner
Resource requirements for execution of roadmap are beyond original expectations.	Medium	Medium	Prioritize highest- risk access flows, adjust schedule, plan additional phases.	PM/SME

VIII. Capacity Plan

Utilization of a single tool for software development provides a single source of truth for work tracking and resource allocation which can then be utilized for capacity planning for the development environment, tools, and developers.

Project Capacity Planning

Establish Cross-Functional Team: To collaborate and communicate about production capacity and resource management, you want a cross-functional team with different levels Page 11 of 12

DEPARTMENT OF COMMERCE

and different functions.

- Calculate Resource Capacity: Before you can create a production capacity plan, you need to have an idea of your current capacity and your available resources.
- Determine Resource Requirements: For each project, look at the scope and what resources are required to do the task for the project.
- Prioritize Projects: Which projects are most important, and which can be put aside for the time being? You can't do everything at once.
- Allocate Resources Based on Project Priority: Now allocate those prioritized projects and make sure that they are aligned with the goals of the organization.
- Keep the Lines of Communications Open: Communicate between executives, project management leaders and stakeholders.
- Document Known Risks: Monitor risks such as weather, government regulations that stop a project or create new ones unexpectedly.
- Plan for How to Handle Too Much Capacity: Understand where it is and how to resolve it (such as reassigning), or not enough capacity (again, where/how).

SECTION 1 — OVERALL PROJECT PLAN

I. Project Charter

FloridaCommerce is looking to modernize the central intake physical mail process for the Reemployment Assistance program using a document management system that has API call functionality that could allow calls from Reconnect and its subcomponents to pull data from the cloud-based central intake document repository.

The document management system must have the ability to process the barcodes that are generated by Reconnect so that documents can be automatically linked to the document ID (bar code) associated with claimants, ingested, and so that Reemployment Assistance program staff can make decisions timely and accurately.

A. Scope Statement

The goal of this project is to streamline the process for central intake using a document management system that can process and read the documents upon ingestion and automatically categorize them based on the document type using the identifiers on the document using optical character recognition.

In Scope

• Procure necessary services and/or products to implement the automated and modernized central intake physical mail process.

Out of Scope

• Modernization of other ingestion workflows.

B. Project Objectives and Business Benefits

Reconnect generates thousands of correspondences and distributes correspondence based on the communications preference selected by each claimant. Reconnect defaults correspondence to physical mail if the claimant does not opt to receive electronic mail as their preference. Documents are handled in the Reemployment Assistance Central Intake Unit in two scenarios.

1. Scenario 1:

The Reemployment Assistance program requests additional information from claimants and employers to process benefits applications timely and accurately. There is no mandate to submit the documents in a specific way, and documents are submitted either electronically or physically. The central intake process is initiated when physical mail from the claimant or employer is received by the Central Intake Unit.

2. Scenario 2:

Mail sent by FloridaCommerce is returned due to a bad address or a change of address. Returned mail is also scanned and indexed to the appropriate claimant or employer file.

Current challenges associated with the central intake process cause delays across the Reemployment Assistance program and impact its ability to process reemployment assistance benefits timely and accurately.

FLORIDACOMMERCE Page 3 of 12

C. Critical Success Factors

The following factors are being used as measurement for success:

- Scanners are installed and used to process physical mail.
- Scanners can read barcodes and associate mail with claimants in Reconnect.

D. Key Dates

Key Date	Importance and Relevance to the Project
August 15, 2023	Project Kick Off Meeting
October 20, 2023	Project Charter Approved
October 27, 2023	Requirements Approved
November 22, 2023	RFQ Created
December 8, 2023	Vendor Response
December 15, 2023	Request for Information Process Completed
January 5, 2023	Procurement of Vendor Completed
January 12, 2024	Development to Begin

E. Major Deliverables

This project is made up of multiple major deliverables and paths:

1. Procure necessary services and products to implement the automated and modernized central intake physical mail process.

Major Deliverable	Deliverable Description
Project Kickoff Meeting	The PM schedules the project kickoff meeting and
	provides agenda and materials.
Project Management Plan	The PM provides the final version of the PMP after
	review and approval by FloridaCommerce
Technical Design Document	Vendor and FloridaCommerce create the technical
	design document for the solution
Business Rules Traceability Matrix	The BA and PM conduct a series of work sessions to
	drill down in detail the data mapping that can be used
	to drive the technical and process related business
	requirements.
Project Closeout Report	The PM provides the Project Closeout Report

F. Major Milestones

Major Milestone	Deliverable Description
Project Kickoff Meeting	The PM schedules the project kickoff meeting and
	provides agenda and materials.
Project Management Plan	The PM provides the final version of the PMP after
	review and approval by FloridaCommerce.
Technical Design Document	Vendor and FloridaCommerce create the technical
	design document for the solution
Business Rules Traceability Matrix	The BA and PM conduct a series of work sessions to
	drill down in detail the data mapping that can be used

FLORIDACOMMERCE Page 4 of 12

Karmyn Hill	RA Modernization Acting Project Owner
Tom Richardson	RA Modernization Lead Program Manager – Strategic Planning Office
Thomas Holliday	RA Modernization Program Manager – Strategic Planning Office
David Sinclair	Project Manager

H. Significant Project Assumptions and Constraints

Project Assumptions

- 1. This project will include a procurement for products and/or services.
- 2. Any modifications to existing records management policies and procedures or record retention rules will be handled outside the scope of the project by Reemployment Assistance and FloridaCommerce's Office of the General Counsel.
- 3. The assigned IT resources possess relevant knowledge and skills to complete the identified tasks.
- 4. Members of the project team will have access to the necessary tools, hardware, and materials necessary to complete the identified tasks.
- 5. All relevant stakeholders will attend required status meetings. However, there may be instances where some stakeholders are unavailable to attend.
- 6. The project sponsor will be responsive and prepared to make decisions regarding the project cost and scope.

Project Constraints

- 1. Staff availability to engage in the project throughout the lifecycle could be a risk.
- 2. Scanning capability to integrate with the scanning software.

II. Work Breakdown Structure

The Work Breakdown Structure (WBS) below represents the high-level deliverables for the project, from inception (Initiation) to completion (Project Closeout). To avoid duplication, the lower-level work packages are represented with their due dates in Section D. Key Dates.

	FloridaCommerce-Document Imaging System
MBS	Task Name

FLORIDACOMMERCE Page 5 of 12

WBS	Task Name
1.1	Initiation
1.1.1	Risk and Complexity Assessment

IV. Project Spending Plan

The Document Imaging System project has existing resources assigned, therefore, there is no current spend for this project. Expenditures are anticipated once a procurement is complete and a contract for products and/or services is executed.

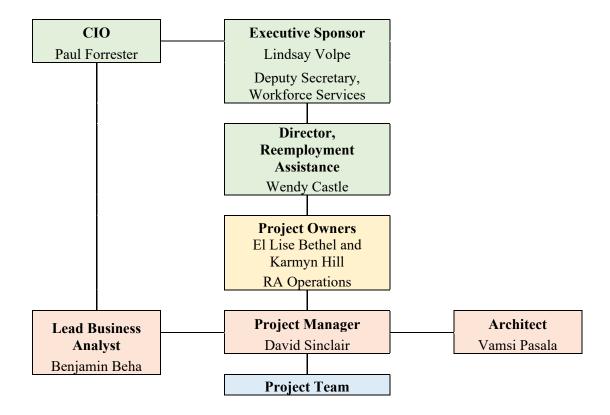

FY 2023-24 Expenditures	FY 2024-25 Expenditures
Software: \$0.00	Software: \$0.00
Other OpEx (Vendor Deliverables): \$0.00	Other OpEx (Vendor Deliverables): \$0.00
Other CapEx: \$0.00	Other CapEx: \$0.00

V. Project Organization and Methodology

A. Project Organizational Chart

The Project Manager meets with project stakeholders every week on Request for Information, business rules progress, and to answer general status questions. This meeting is also the forum for escalating issues that require all project stakeholders to resolve together.

FLORIDACOMMERCE Page 8 of 12

B. Project Roles and Responsibilities

The staff mentioned below are instrumental in facilitating the needs of the team so that the project outcome meets expectations.

The project sponsors also work with their direct reports if the team has issues that require elevation.

The Legal and Records Management Liaison works directly with Reemployment Assistance to provide guidance when record series requests may differ from what is allowed legally or by FloridaCommerce Policy.

Name	Project Role	Responsibility
Lindsay Volpe	Executive Sponsor	Provide guidance on overall strategic direction
		Advising the Strategic Planning Office and project manager of risks that may impact the project
		 Facilitate resolution of significant issues in the project Reviewing and signing off on key milestones
Paul Forrester	Project Sponsor/Chief Information Officer (CIO)	 Responsible for the Strategy of FloridaCommerce IT Responsible for Staffing and Support plans Responsible for day-to-day operations Responsible for working closely with programs on technology needs

FLORIDACOMMERCE Page 9 of 12

Name	Project Role	Responsibility		
Wendy Castle	Project Sponsor/Director of Reemployment Assistance	 Provide guidance on overall strategic direction. Advising the Strategic Planning Office and project manager of risks that may impact the project. Facilitate resolution of significant issues in the project 		
El Lise Bethel and Karmyn Hill	Project Owner's	 Represents the interests of the stakeholders to the DW Team Monitors project progress. Approves project definition. Approves plans and schedules. Validates project deliverables meet expectations. Tracks project benefit recognition, risk retention and mitigation activities Acts as liaison between teams and Management for issue escalation and resolution 		
David Sinclair	Project Manager	 Manages all aspects of the project and ensure compliance with project plan. Monitors project progress and schedule adherence. Completes all documents related to the project. Identifies and manages risks according to the project plan 		
Vamsi Pasala	Architect and Technical Lead	 Responsible for assisting the team(s) in coordinating the most appropriate solution for Document Imaging Assists the team with identifying integration points with other projects and evaluating any risks. Is available to executive management, the program team, and the project team for technical questions regarding direction of the project and any dependencies/impacts of other projects. Assists the PM in coordinating additional technical resources/SMEs, if necessary, for the team. Has historical knowledge of the Connect system since Go Live 		
Benjamin Beha	Business Analyst	 Responsible for assisting the Enterprise Solution Architect in coordinating the most appropriate solution. Is available to executive management, the program team, and the project team for technical questions regarding direction of the project. 		

FLORIDACOMMERCE Page 10 of 12

Name	Project Role	Responsibility
		 Assists the PM in coordinating additional technical resources/SMEs, if necessary, for the team. Has years of historical knowledge of the Connect system

C. Project Management Methodology

The path to archiving and purging data requires transparency, excellent communication, and an overall process that supports both.

FloridaCommerce will use a project management methodology in compliance with project management standard rule 60GG-1 F.A.C., project requirements and department experience with similar engagements. Predictability, accountability, and flexibility are key elements that must be embraced by the overall project management approach to ensure FloridaCommerce's satisfaction and project success. Successful project management must include active and visible leadership, multiple controls and checkpoints with measurable outcomes, and engagement with all stakeholders. FloridaCommerce believes strong project management is critical throughout the life of any successful project.

For this project, FloridaCommerce's project management will include the following specific elements, in addition to our standard methodology:

- The project management team will advise leadership on areas of concern and will propose solutions to mitigate risk.
- Vendors will respond to inquiries or requests from FloridaCommerce within one business day from receipt.
- In the case where additional time is needed for a task, vendors will provide an estimate, which must be approved by the FloridaCommerce Project Manager.
- At the end of the contract, vendors will provide final copies of all reports in electronic format for archive purposes.
- FloridaCommerce's project management approach will utilize the technical skills, tools, and techniques needed to succeed, as well as the dedication to accountability, resource commitment, and organizational focus. Project success will be the result of active communication among all individuals, understanding everyone's role in the project, and clear delineation of responsibilities.

FloridaCommerce believes successful project management hinges on the following:

- Clearly established project goals and requirements
- Ongoing assessment of quality against established standards
- Constant measurement of success against established deliverables and milestones
- Personal presence and commitment of key project leadership
- Proactive identification and communication of risks and issues

VI. Business Process Organizational Change Management Plan

This project will need Organizational Change Management since the project is taking back scanning of physical mail from a third-party vendor back to FloridaCommerce staff.

FLORIDACOMMERCE Page 11 of 12

VII. Project Risk Management Plan

Currently there are no new risks for this project.

Project risks can be raised by anyone on the project. These risks are then entered into the department's tool where they are discussed during weekly meetings. They are tracked in these meetings until the risk is closed.

Risk meetings, hosted by program management, are attended by sponsors and stakeholders of this project.

Risk Description/Impact	Probability of Occurrence (high, medium, low)	Risk Tolerance (high, medium, low)	Mitigation Strategy	Assigned Owner
1.				
2.				
3.				
4.				
5.				

VIII. Capacity Plan

This project will look at the capacity of mail to determine the number of scanners that would be needed to keep up with the capacity.

REEMPLOYMENT ASSISTANCE SYSTEM MODERNIZATION

FROM GENERAL REVENUE FUND 36,000,000

From the funds in Specific Appropriation 2202A, \$36,000,000 in nonrecurring funds from the General Revenue Fund is provided for the modernization of the reemployment assistance system that complies with section 282.206, Florida Statutes. Of these funds, \$19,320,000 is provided for increased maintenance and operations of the system, \$15,510,000 is provided for system modernization, and \$1,170,000 is provided to competitively procure a private sector provider with experience in conducting independent verification and validation (IV&V) services of public sector information technology projects to provide IV&V services for all department and vendor staff working to modernize and maintain the system. From these funds, \$31,170,000 shall be held in reserve, and \$4,830,000 is released to the department for ongoing maintenance and operations. The department is authorized to submit quarterly budget amendments requesting release of these funds pursuant to the provisions of chapter 216, Florida Statutes, and based on the department's planned quarterly expenditures. Release is contingent upon the procurement of the IV&V vendor and the approval of a detailed operational work plan and monthly spend plan that identifies all work activities and costs budgeted for Fiscal Year 2021-2022.

Quarterly IV&V reports shall include technical reviews of project deliverables submitted or accepted within the reporting period and assessments of the department's project management and governance. The IV&V contract shall require that all deliverables be simultaneously submitted to the executive director of the department, the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, the chair of the House Appropriations

Committee, and the Florida Digital Service. The contracted provider shall be made readily available to provide all project related data to the Florida Digital Service in support of their project oversight responsibilities pursuant to section 282.0051, Florida Statutes. The department shall provide monthly project status reports to the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, the chair of the House Appropriations Committee, and the Florida Digital Service. Each status report must include ongoing system maintenance activities and progress made to date for each project milestone, deliverable, and task order, planned and actual completion dates, planned and actual costs incurred, and any current project issues and risks.

Federal Coronavirus State FiscalRecovery Fund REEMPLOYMENT ASSISTANCE SYSTEM MODERNIZATION

The nonrecurring sum of \$56,400,000 from the General Revenue Fund is appropriated to the Department of Economic Opportunity for the modernization of the Reemployment Assistance system that complies with

section 282.206, Florida Statutes. These funds shall be held in reserve.

Release of these funds is contingent upon the full release of funds provided for system modernization in Specific Appropriation 2202A. The

department is authorized to submit quarterly budget amendments requesting release of these funds pursuant to the provisions of chapter 216, Florida Statutes, and based on the department's planned quarterly expenditures. Release is contingent upon the approval of a detailed operational work plan and monthly spend plan that identifies all work activities and costs budgeted for Fiscal Year 2021-2022.
