AWI TIPS AND INFORMATION

January 27, 2009

EFMTIP

The purpose of this Employ Florida Marketplace (EFM) TIPS is to remind the regions that job seekers cannot enter their registration in EFM using a pseudo social security number. Security measures in EFM will not allow a job seeker to enter a social security number that does not appear to be a valid social security number. Registrations using a pseudo social security number may only be entered by staff. Staff are required to register job seekers in EFM who do not wish to use their social security number and must be registered using a pseudo social security number.

Thank you.
