Response instructions and keys for completing the Requirements Matrix.

Note:	The Respondent's response to each requirement must be coded as follows:
Respondent Response	Definition
0	Cannot Support requirement - The business function is not included in the base product, the base product cannot be configured, or customized software cannot be developed to meet the required functionality.
1	Customization required - The business function requires customized changes to the base product or software development apart from the base product's design, process or structure or customized software needs to be developed to meet the required functionality or integration with another software is needed.
2	Configuration required - The business function can be met by configuring the base product. In this context, "configuring" means that coding is not required.
3	Included in base product - The business function is included in the base product(s) and is fully demonstrable.

Note:	The Extent of Effort information is required if the Respondent's response to the requirement is 1 or 2 (Customization Required or Configuration Required). The Respondent's response must be coded as follows:
Extent of Effort	Definition
Trivial	Less than 8 hours
Low	9 hours to 80 hours
Medium	81 hours to 500 hours
High	501 hours and above

Respondent Comments	The Respondent's comments may be recorded in this column. The Respondent is requested to limit the comments to less than three (3) sentences.
